

VALVE SPRING COMPRESSOR

Just attach in one of the valve cover screw holes and give it a couple quick turns to take the pressure off the rocker shaft. This allows you to work with two hands and slip out the rocker shaft. Combine this with our piston pin removal tool (PT171) and really save some time on your next cylinder swap.

RST172..... **\$39.95**

SPRING LOADED CLECO PLIERS

These new spring-loaded conventional cleco pliers are designed for a user friendly cleco installation. Made from forged steel, the vertical profile of the Clecall allows for cleco installation in tight areas as well as an upside down surface easily. A tedious task has now become effortless with the Clecall.

12-03756 **(Upright)**..... **\$19.95**
12-03807 **(Standard)**..... **\$10.95**

AIRLOC CROSSPIN INSTALLATION TOOL

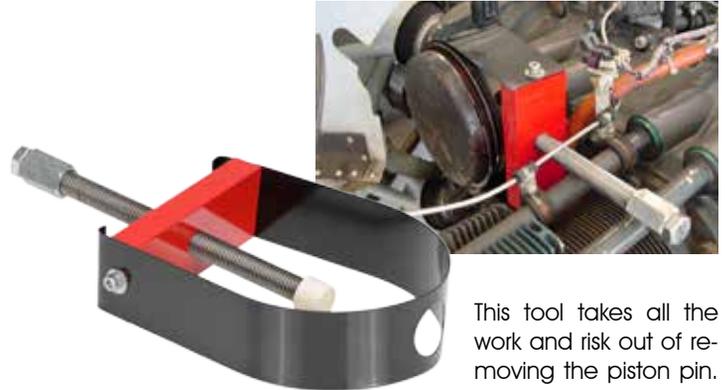

This tool accommodates the two series (diameters) of Airloc (A-Spec) studs commonly found in Beechcraft and Raytheon aircraft: #2 and #5. It has a seat for each series so the cross pin

can be installed and centered and operates by placing the pin into the appropriate hole where it should remain seated. Then compress the pliers to force the cross pin into the stud. Once completely clamped, the pin will be perfectly centered in the stud.

MS-ALP **\$49.95**

PISTON PIN REMOVAL TOOL

This tool takes all the work and risk out of removing the piston pin. It works on Lycoming and Continental engines. Just slip it over the piston, turn the shaft and it pushes the pin out smoothly and cleanly. Vinyl coated tip prevents scratching and marring the pin or piston during removal.

PT171 **\$69.95**

PUSH ROD SPRING COMPRESSOR

You know how hard it is to get at the springs on the push rod tubes... Now, you can compress them and remove the tube in under a minute. Just slip this tool onto the spring and crank the shaft counter-clockwise (an air ratchet works great for this) to compress the spring, and then give everything a wiggle and out it comes. It's really that easy! This tool will pay for itself in one top end job. It's a must-have tool when working on big bore Continentals.

CST173..... **\$49.95**

DUAL DISPLAY MULTIMETER W/USB INTERFACE

The Pro Digital Multimeter with USB connector features a touch pad instead of the traditional mechanical knobs. With a large LCD screen and easy operation this unit is perfect for measuring AC/DC voltage and AC/DC current. Additional functions include current, resistance, capacitance, frequency, temperature measurements. It also includes an on-board diode tester to quickly test transistor and diodes. This unit also includes a USB port to connect to a computer for data logging purposes.

MT-1860 **\$89.95**

WHAT'S NEW

ATS HEAVY DUTY LOCKBOLT RIVETER

- Pulling Force 4,100 lbs (1,860 Kg)
- Stroke Length .9" (23 mm)
- Pulls 3/16" (4.8 mm) & 1/4" (6.4 mm) Lockbolts
- Weight 6.38 lbs (2.9 kg)
- Requires 90 PSI at 3 CFM
- Includes stem deflector

Powerful air-hydraulic riveter is designed specifically to install two-piece lockbolt fasteners of all types, including Avdel MaxLok, Huck Lockbolts, and Pop Lockbolts.

ATS8921 **\$1,259.95**

NUTPLATE INSTALLATION BLOCK

With this Nut Plate Block, you can install nut plates faster, easier, and with less damage to the surface and paint of the object you are fastening the nut plate to. The Nut Plate Block will produce a flush nut plate on the back side and the rivet will be flush to the skin surface every time. It takes less than 1 minute to install a nut plate. Patent Pending.

CA-NPB10..... (10-32)..... **\$65.95**

CA-NPB8..... (8-32)..... **\$65.95**

TACH DRIVE SEAL REMOVER

This straight forward tool will let you remove the tach seal in minutes time and time again. The seal removal tool is so easy to use, it's as easy as counting to five! One: remove the vacuum pump to give the tool plenty of room to work. Two: thread the alignment sleeve

onto the housing as well as the puller. A 3/4" wrench is helpful here. Three: adjust the alignment sleeve so it can rotate freely. Four: install the slide hammer and bolt. Five: Firmly impact the bolt head with the slide to bring the seal out. That's it! Visit our website for complete instructional video.

RPM-01 **\$299.95**

COBALT REAMER SET

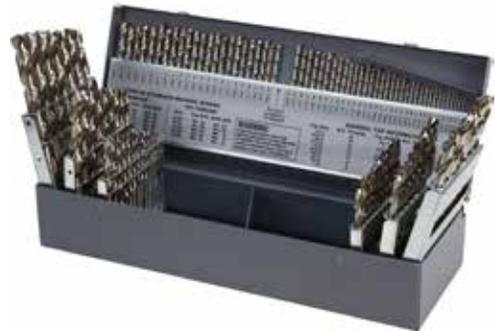

An indexed set of straight flute cobalt reamers ground to a tolerance of 0.0001 inches. Ideal for sizing holes prior to bolt installation and other application requiring precise hole tolerances. Works with aluminum, steel, and other metals of medium hardness.

RMR-C29F (Fraction Set) **\$349.95**

RMR-C60N..... (Number Set) **\$549.95**

115 PIECE COBALT DRILL INDEX

Each of these 115 cobalt drill bits comes organized in a metal indexed storage case for easy transport to your work site. With aggressive 135 degree tips, these cobalt drills bits not only last longer but also cut faster than your standard high speed steel bits! This set contains numbered bits: 1-60, lettered bits A-Z, and fractional bits 1/16-1/2 by 64ths. All bits are cobalt jobber length drill bits.

012-C115..... (Complete Set) **\$295.95**

PILOT TOOL KIT

PTK1

SKP1

The fleet of general aviation aircraft is aging. Mandated maintenance promotes reliability, but experienced pilots know mechanical issues can still arise, sometimes far from an open FBO. Our Pilot's Tool Kit provides the most common tools and other contents to help get you airborne.

PTK1 Pilot Kit **\$85.95**

SKP1 Speed Kit **\$31.95**

BOGERT AVIATION TOW BARS

More products available online

Bogert Aviation tow bars are built from steel for maximum durability and are chip resistant to look great for years. It is made with rubber grips on the handle and spreader bar for comfortable use. Light enough to stow on your airplane!

This kit was designed at the request of several FBO's and repair stations who desire their new hires to have a standard set of airframe tools that would allow them to do their required tasks. It features a set of common hand tools such as screwdrivers, hammers, and wrenches; as well as the more aviation specific tools such as a rivet gun, angle drill and die grinders.

RANS S-19 KIT

The Rans-19 kit is now available as a quick build kit that requires considerably less tools than in the past. So we redesigned our kit to comply with the new tool requirements. So our new kit now contains only the essential tools you need to successfully construct this popular homebuilt.

RANS-19 \$1,229.95

ZODIAC KIT

The Zodiac CH 601 (and the new CH 640) series of home-built airplanes from Zenith Aircraft (ZenAir) is a top choice among first-time home builders. It's an all-metal construction that requires few more than a pop riveter and a few alignment tools for the quick-build kits. The tools offered in this kit closely follows ZenAir's recommended tool list for their quick-build kits and gives you just what you need to get the job done.

ZODIAC \$829.95

SONEX KIT

This Sonex Kit features the essentials that you will need to build your new airplane. Buying these tools together will save you money and stress, let us get it right for you!

SONEX \$925.95

MUSTANG BUILDER'S KIT

This kit contains the majority of the tools needed in every phase of constructing the popular Kit Mustang. It's designed to provide only the tools you will need to get the job done quickly and professionally.

MUS-2X..... (With ATS Pro 2X Rivet Gun) \$879.95
MUS-3X..... (With ATS Pro 3X Rivet Gun) \$883.95
MUS-4X..... (With ATS Pro 4X Rivet Gun) \$887.95

RIVETING KITS

RV-12 QUICK BUILD KIT

The new RV-12 is so easy to assemble it requires virtually no sheet metal skills, and needs little more than a few hand tools. We've made your task even easier by bringing together all the tools you'll need into one kit, and priced it to be easy on your wallet.

RV12-KIT \$1,598.95

RV BUILDER'S STARTER KIT

This scaled down version of our RV Builder's Kit contains just the tools you need to get your feet wet with sheet metal construction. The kit closely follows the recommended tools list from Van's RV Training Project -1 and their Tool Box Kit projects. This kit is also the minimum recommended set of tools to build the empennage (tail) section of the RV3, RV4, RV7, RV8, RV9, and RV10 series of home built airplanes. Start out with this kit, and when you're ready to do more advanced work, get the upgrade package to take you all the way up to the full RV Builder's Tool Kit.

RIVET GUNS

ATS PRO X-SERIES RIVET GUNS

**IMPROVED
TRIGGER
VALVE**

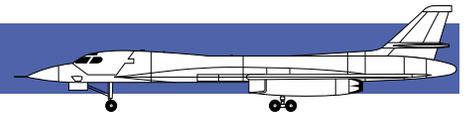

Includes beehive & mechaid springs plus a FREE bottle of ATS Tool Oil

We've re-engineered the throttle valve of our top of the line ATS Pro-X Rivet Guns to give you unmatched controllability when setting rivets of any type or size. With the improved variable power control at your fingertips, you'll be able to confidently perform the proper steps of riveting which are: aligning the rivet (tapping); enlarging it into the hole (swelling); and driving it to its finished size (bucking). This is no air hammer, it's a true rivet gun - and there is a difference. Take advantage of our hassle-free 30 Day Money Back Guarantee and try it for yourself. And if it doesn't meet your expectations, send it back and we'll refund your full purchase price with no questions asked. This is also backed by our complete unconditional Lifetime Warranty!

RIVET GUNS

ATS PRO E-SERIES RIVET GUNS

Our E-Series rivet guns feature the same quality and power as our Pro-X series including a feather trigger to control the rivet setting process. A new valve and shuttle mechanism also makes it more reliable, and less likely to choke and jam up. This new style is based on the latest Chicago Pneumatic design. Accepts all .401 shank rivet sets and attachments. Includes both a mechaidd & beehive spring, an air regulator, and a bottle of ATS tool oil.

Includes air regulator, beehive & mechaidd springs, plus a FREE bottle of ATS Tool Oil

RIVET GUNS

ATS PRO JIFFY-STYLE RIVETING KIT

This Jiffy-Style Professional Riveting Kit is compact enough to get into impossibly tight riveting areas, while still delivering the full power of a 3X riveting gun. It features our ATS-200B Jiffy-Style Riveting Gun with a fully variable teasing trigger to properly "set" the rivet prior to bucking it. It also includes a full complement of rivet sets (snaps) to cover 3/32", 1/8", 5/32", and 3/32" Universal Head (AN470), Modified Brazier (AN456), and Flush Head (AN426) rivets. We've also included two of our most popular Bucking Bars to help you get started right away. Completing this great package is a durable military-style canvas bag with ample space for your kit.

- ATS-200BK.....(Without Bucking Bars).....\$245.95
- ATS-200BK2..... (With Bucking Bars)\$259.95
- ATS-200B.....(Gun Only)\$199.95

JIFFY GUN STUBBY RIVET SETS

These rivet sets are designed to work with our ATS Pro 200B Rivet gun. They will also work with any Jiffy 100 or 200 rivet guns.

ATS PRO .498" LARGE BORE RIVET GUNS

Our large bore rivet guns are heavy hitting to handle those larger riveting jobs that are beyond the capacity of smaller .401" shank rivet guns. Excellent for driving rivets of 1/4" diameter or larger. Completely interchangeable with Chicago Pneumatic guns, and they have excellent finger tip control. Accepts .498" shank rivet sets and attachments, but we've also included at no extra cost a .401" shank adapter (p/n SR498401) that allows you to use .401" tooling.

PART	BPM	CAP.	STROKE	WGT	PRICE
ATS-5X	1560	1/4"	2-11/16"	4.84 lbs	\$315.95
ATS-7X	900	3/8"	5-13/16"	5.94 lbs	\$365.95

RIVET GUN SHANK ADAPTER (.498 TO .401)

This adapter reduces the shank bore of .498 rivet guns (5X and higher) so that you can use standard .401" tooling with them. Hardened tool steel construction. Precisely ground. Remember to use a regulator when using .401 tools with a large bore gun.

- SR498401\$14.95

RETAINER SPRINGS

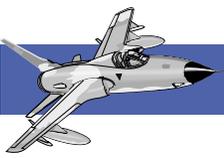

113B

113M

Fits all Rivet Guns and Air Hammers with a .401" shank.

RIVET GUNS

ATS ECONOMY AIRCRAFT RIVET GUN

Includes beehive & mechaïd springs plus a FREE bottle of ATS Tool Oil

The next generation of our best-selling 2602 Economy Rivet Gun is 6 ounces lighter, better balanced, and now features the same feather-light throttle as many of the more expensive X-Guns. We've engineered the new 2602A with your safety in mind by adding an ergonomic, vibration-reducing rubber grip that significantly reduces the hand-numbing effects of vibration shock. The 2602A has been recommended for use in many kits by their manufacturers such as the RV's, Thorp T-18, and the Midget Mustang. 0-2160 BPM, weight 3.2 lbs., 3CFM at 90 psi, .401 shank.

- 2602A \$129.95
- ATS-2602PK..... (Economy Gun Kit) \$229.95

BENCH MOUNTED DIMPLING/RIVETING TOOL

The deep 22-1/2" reach and 4" clearance height of this tool makes it a favorite of home builders and repair specialists. It's manufactured from heavy duty steel and finished with a rock hard powder-coated enamel for durability and great looks. The precision ground rivet shaft and fitted bronze bushing guarantees silky smooth operation. And the automatic spring-return feature will make your work easier. Uses dimple & die or rivet sets with a .187" shank. Comes complete with extension shaft and die holder block. New design extends throat to a **22-1/2" reach for RV and other kit builders.**

- 204RV..... \$215.95

ANTI-VIBRATION GLOVES

Anti-vibration gloves are designed to reduce vibration from pneumatic and vibrating tools or repetitive motions. The glove features strategically placed 5.0mm memory foam on the palm and thumb. A unique 360 degree wrist wrap offers unrivaled wrist support while also relieving tension throughout your forearm, elbow, and shoulder. Take care of yourself and use these gloves.

ATS RIVET REMOVAL TOOLS

See drill bit section for replacement "L" series threaded drill bits.

WITH RIVET
REMOVAL
TOOL

WITHOUT RIVET
REMOVAL
TOOL

Works good on loose rivets that are a pain to remove. Once set up it cuts removal time in half with no damage to parent material - M.D

Our new Blind Rivet Removal Tool is designed to remove those stubborn Pop, Avdel, Cherry-Qt, and other blind rivets. The serrated end cups over any button head, round head, or universal head rivet and locks in place to keep it from spinning as it's being drilled out. It will also remove solid rivets. Includes adapters to remove 3/32", 1/8", 5/32", and 3/16" rivets. Not for use with steel-stemmed blind rivets.

- Serrated nosepieces
- Drill depth control
- Knurled comfort grip
- Works with any drill

1341S.....(Blind Rivet Removal Tool).....\$75.95

1341A.....(Standard Rivet Removal Tool).....\$59.95

CLOSE QUARTER RIVET REMOVAL TOOL

This close quarter's rivet removal kit allows you to drill straight and dead center every time when removing 3/32", 1/8", 5/32", 3/16", and 1/4" diameter universal head (AN470) solid rivets. Fits any air or electric drill. The guides are compact and will work perfectly in tight places with an angle drill. Made in the U.S.A.

Kit includes five rivet drill guides: #41, #31, #21, #11, and Letter D with the corresponding drill bits and drill lubricant in a hard-shell case.

LRDG-KIT.....\$129.95

ATS RIVET CUTTERS

130

130HD

Cuts from 3/32" to 1/4" diameter. Cuts same length every time with use of Rivet leaf spacers.

130.....(Standard).....\$19.95

130HD.....(Heavy Duty).....\$39.95

BENCH MOUNTED RIVET CUTTER

Accepts diameters: 1/16", 3/32", 1/8", 5/32", and 3/16".
Cuts lengths: 5/32", 7/32", 9/32", 11/32", 13/32", 15/32", and 17/32". Cuts stainless steel rivets.

This heavy-duty rivet cutter by Lancaster Pumps is designed to mount onto a workbench (or held in vise), and will cut five different diameter rivets, wire, and screws to any of seven different lengths. It is made of hardened steel and the cutting surfaces are ground to exacting tolerances for consistently clean, distortion-free cuts.

RC-1.....\$135.95

RIVET EDGE GAUGE

Maintenance standards require that all rivet be no less than 2 diameters (2D) and no more than 4 diameters (4D) from the edge of the sheet, with the optimum distance being 2.5 diameters (2.5D). This tool will gauge the distance of rivet holes from the edge of the sheet to verify that they are within these standards. Simply slide the tool against the edge of the sheet and verify that it aligns with the center line of the rivet holes. One side gauges distances for 1/8" (-4) and 5/32" (-5) rivets, and the other is for 3/16" (-6) rivets.

SOLID RIVET ASSORTMENT

An assortment of solid rivets in the most popular sizes. The 3lb pack contains 1/4lb each of MS20470 (universal) and MS20426 (flush) series rivets in the following sizes: 3-4, 4-4, 4-6, 5-4, 5-6 & 6-6. The 6lb pack also includes sizes: 3-5, 3-6, 4-5, 5-5, 6-4 & 6-5.

- MS20KIT-3..... (3lb Pack) \$74.95
- MS20KIT-6..... (6lb Pack) \$149.95

HOW TO DETERMINE RIVET LENGTH

Measure the thickness of the section to be riveted and add to that 1.5 times the rivet diameter. Round result to nearest 1/16" to get the length.

RIVET LENGTH = GRIP LENGTH + 1.5D

Example: Thickness (A+B) = .280, Rivet Diameter (D) = .125 (1/8")

Length (L) = .280 + 1.5*(.125) = .4675

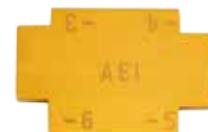

Multiply Length by 16 to find the nearest 1/16:
Length*16 = 7.48

The correct length is a -7 or a -8 (e.g. MS20470-4-7 or MS20426-4-8).

SHOP HEAD RIVET GAUGE

AE1007

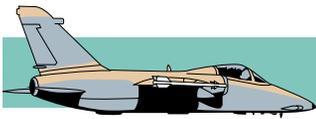

AE1008

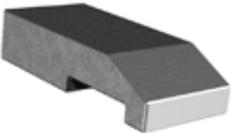

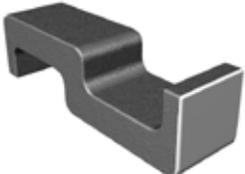

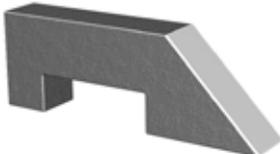

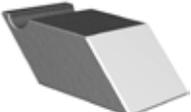

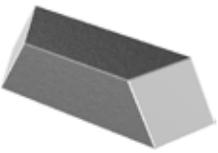

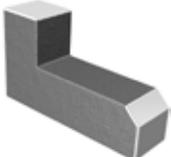

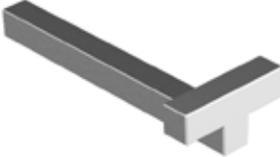

Measures rivet length as well as minimum height and minimum diameter of shop heads after setting.

RIVETING EQUIPMENT

BACK RIVET SET

Superior for back riveting flush rivets without damage to the skin surface. Spring loaded plastic guard holds down skin while riveting. Can also be used for "straight" riveting.

2470.....\$21.95

EXTENDED BACK RIVET SETS

2470-12

2470-12D

These extended versions of our 2470 Back Rivet Sets are great to get into confined areas. They are especially useful to RV-10 builders who must back rivet some areas of the fuselage. 12" long, .401 shank.

2470-12(12" Straight).....\$27.95

2470-12D(12" Double Offset).....\$29.95

BACK RIVETING PLATE

Back riveting requires a hard flat surface to act as a bucking bar while you set the shop head of the rivet. This low carbon steel plate has a flat ground surfaces to help you accomplish the task with minimal effort. 3/8" thick X 4" wide X 15" long.

AE1065.....\$67.95

HIGH SHEAR RIVET PUNCH

Uses a standard .401 rivet gun to remove High Shear and Huck rivets. Each punch is 3-3/8" long.

PART	SIZE	PRICE	PART	SIZE	PRICE
RP-1/8	1/8"	\$17.95	RP-1/4	1/4"	\$17.95
RP-5/32	5/32"	\$17.95	RP-5/16	5/16"	\$17.95
RP-3/16	3/16"	\$17.95	RP-3/8	3/8"	\$17.95

SWIVEL RUBBER GUARD FLUSH RIVET SET

Safety flush rivet set makes it virtually impossible to damage or "smile" the skin while flush riveting. Rubber outer guard cushions the outer edge of the set while limiting recoil. Swivel head will move through 20 degrees to keep the face of the set flush against the head of the rivet which minimizes mis-setting the rivet. Finally, the safety spring keeps the set securely attached to the rivet gun to prevent accidental "bullets".

AT106A.....\$52.95

SWIVEL FLUSH RIVET SET

The swiveling face of this rivet set will keep it flush against the head of the rivet even if you are a little off angle reducing the chance of "smiling" the sheet metal or mis-setting the rivet.

The 1-1/4" face is highly polished and slightly mushroomed to keep it against the head of the rivet and off the sheet metal. Fits into any .401 shank rivet gun.

181.....\$18.95

RUBBER GUARD FLUSH RIVET SET

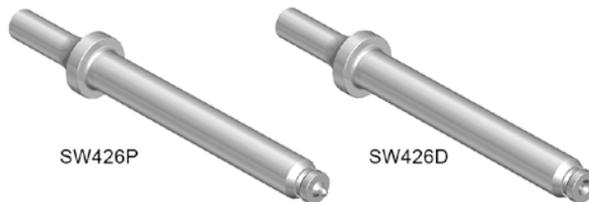

Flush rivet set with a rubber boot to prevent damage to metal surfaces while riveting. Fits any .401 rivet gun.

12A(3/4" Dia.).....\$14.95

12C(1-1/2" Dia.).....\$21.95

SWIVEL DIMPLE DIES AND HOLDERS

SW426P

SW426D

Designed to dimple AN426 series rivets. Each set comes complete with swivel set and dimple die block holder. .401" shank.

RIVETING EQUIPMENT

RIVET SET EXTENSION

Standard .401 shank. Insert standard rivet sets for added reach. Accepts .401 shank sets. 9" overall length.

128A \$24.95

BRASS, ALUMINUM & NYLON RIVETING PEENS

Peens are great for driving pins, knocking out old rivets, removing dents, nudging things into place, and shaping sheet metal. Select a peen head with a material that is softer than the object you intend to drive to prevent marring. Screw-in heads are made of solid brass, aluminum, or nylon and are interchangeable between body lengths. 1-1/4" diameter. Fits .401" rivet guns and air hammers.

PART	PEEN MATERIAL	LENGTH	PRICE
ATS107A-3B	Brass	3"	\$19.95

ATS107-N	Replacement Nylon Head		\$9.95
ATS107-A	Replacement Aluminum Head		\$9.95

ECONOMY BRASS PEEN

A great tool for driving pins or removing small dents. Solid brass head will not damage steel surfaces. 3" long by 3/4" diameter. Head is non-removable.

BP03 \$8.95

C-RIVET SET KIT

Designed to work like the industry standard "gooseneck" style rivet sets, this is a much more versatile solution in that it allows you to instantly work with any size rivet without having to carry around a set of goosenecks. It uses standard .187" shank rivet

squeezers (and dimple dies) to do the work. Complete kit comes with C-SET rivet set, plus an assortment of squeezer sets in sizes: 3/32", 1/8", 5/32", 3/16", and flush.

CSET-KIT(Complete Kit)..... \$41.95

CSET(C-SET Only)..... \$26.95

60 DEGREE C-RIVET SET

The "C" shape is designed to reach around obstructions, while the polished wedge shaped "toe" can slip into the tightest areas to install a rivet. It can also be used as a driver to install and remove pins and bolts. Made of 4160 tool steel and hardened to Rockwell 48.

CSET60 \$29.95

RIVET FAN SPACING TOOL

This tool is just what you need for lining up those rivet holes. The clever accordion action of the fan spacer allows you to set up rivet holes with deadly

accuracy. Simply expand or contract the tool to get the spacing you're looking for and start laying out your holes. It just doesn't get any easier than this.

FS01 (Standard Spacer) \$35.95

FS02(Mini Spacer)..... \$27.95

3M RIVETERS TAPE

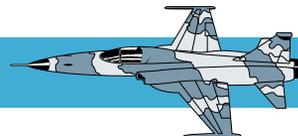

Riveters tape saves you time when doing those large riveting jobs by securely holding each rivet in place until you are ready to buck it. Rivets are fully visible through the transparent center window. Leaves no residue upon separation.

685-1(3/4" Wide x 36 Yards)..... \$13.95

685-2 (1" Wide x 36 Yards) \$13.95

RIVETING EQUIPMENT

AVERY SPRING BACK DIMPLE DIE SETS

Spring back dimple dies are precision CNC machined from aircraft quality heat treatable stainless steel & heat treated to Rockwell C42/46. Spring back angles on both dies make a superior dimple. Working surfaces are polished to a satin finish & sharp edges are radii. Manufactured by Avery Tools.

RIVET SQUEEZERS

ATS PNEUMATIC "C" SQUEEZER

ATS-114CK

The "C" squeezer is by far the most popular pneumatic type riveter. They are also the most versatile. With a wide array of yokes to choose from, there is practically no riveting job they cannot take on. That's why we decided to create our own version of this popular squeezer. Our new ATS "C" Squeezer is lightweight and has the same power as the Chicago Pneumatic 0214-C squeezer on which it is based. It accepts the same yokes and attachments and is powerful enough to squeeze up to 1/8" solid aluminum, or 3/32" solid steel rivets (single force), or up to 3/16" aluminum and 1/8" steel rivets (double force). And we've combined our new riveter with a Longeron yoke, and our best-selling 17-piece squeezer/dimpler set to provide you with a value package that's hard to beat.

ATS PNEUMATIC ALLIGATOR SQUEEZER

ATS-114AK

The new ATS Alligator Squeezer is a lightweight, compact, and powerful riveter modeled after the industry standard Chicago Pneumatic 0214-A squeezer. It accepts the same attachments and jaws designed for that unit. The single piston version delivers 3,000 lbs of force to squeeze up to 1/8" solid aluminum, or 3/32" solid steel rivets. And the tandem model uses a double piston arrangement to deliver up to 6,000 pounds of force to squeeze up to 3/16" aluminum, or 1/8" steel rivets. This is a riveter that will easily fit most of your riveting needs without breaking your budget. Want even more savings? Get the complete riveting kit, which contains the alligator squeezer, plus our 17-piece squeezer/dimpler set priced at a substantial discount.

ATS SUPER DUTY RIVET SQUEEZER KIT

This addition to our ATS Pro Rivet Squeezer line is built from solid Stainless Steel for hard use. Our new money-saving kit contains everything you'll need to tackle any riveting job. You get our popular ATSR3S-3SD 3" Rivet Squeezer, an extra 1.5" yoke, our 17 Piece Dimple Die & Squeezer Set, a Rivet Length Gauge, and a Shop Head Rivet Gauge to help you get the job done right. Our new ATS Rivet Squeezer will easily squeeze rivets up to 5/32" diameter. Adjustable ram eliminates the need for shims.

SDRS-KIT.....\$269.95

ATS ECONOMY RIVET SQUEEZER KIT

This popular economy rivet squeezer kit is ideally suited for the home builder or the occasional user. It features our ATSR3S economy rivet squeezer with a selection of 3 yokes in sizes 1, 2, and 3 inches. We've also thrown in our 6 Piece Squeezer Set, and a set of Rivet Gauges to help you get the job done right. Our ATS Rivet Squeezer will easily squeeze rivets up to 5/32" diameter. The yokes are made of tool steel and hardened to resist flex. Adjustable ram eliminates the need for shims.

ATSR3S-KIT.....\$179.95

ATS SUPER DUTY RIVET SQUEEZER

The addition to our ATS Pro Rivet Squeezer Line is built for hard use, but we must admit it's also one of the best looking squeezers we've ever seen. It's an all **stainless steel** design that's constructed to last a lifetime. The unique unibody styling is drop forged for extra strength and CNC machined to tight tolerances. The yoke (also stainless steel) is engineered to be half the weight of other yokes, yet retains its full strength. Finally, the whole thing is beautifully finished in a brush satin look and highly polished surfaces. It has a very solid feel, and a professional look that will complement anyone's toolbox. Squeezes up to 5/32" aluminum (1/8" steel) rivets. Works with any rivet sets, or dimple dies having a 3/16" (.187") shank. Adjustable ram does not need shims.

ATS ECONOMY RIVET SQUEEZER

Our ATS Series Rivet Squeezer will safely squeeze aluminum rivets up to 5/32" in diameter (up to 1/8" steel rivets). The unibody handles are forged from a single billet of steel and precisely machined. This makes them extremely strong and resistant to breakage. The yoke is made of the highest quality tool steel and hardened to resist flex under stress. An adjustable ram eliminates the need for shims.

ATS 1/4" AIR HYDRAULIC RIVETER KIT

- Pulling Force 3,500 lbs (1,603 Kg)
- Rivet Capacity 1/4" aluminum or mild steel
- Stroke Length .55" (14 mm)
- Nosepieces: 3/32" (2.4 mm), 1/8" (3.2 mm), 5/32" (4.0 mm), 3/16" (4.8 mm), 1/4" (6.4 mm)
- Full 1-year warranty

The newest addition to our air riveter line delivers a massive 3,500 lbs of force to effortlessly pull up to 1/4" aluminum and steel rivets. It's made to the same quality standards as all of our other, aviation grade riveters and comes with a full 1 year warranty. The complete package contains the riveter, 2 jaw cases (light duty, and heavy duty), 4 nosepieces, a set of spanners, and a stem deflector for added safety. Great for pulling Cherry, Avdel, and Pop rivets.

ATS8808..... \$165.95

ATS HEAVY DUTY RIVETER WITH COLLECTOR

- Pulling Force 2400 lbs (1090 Kg)
- Rivet Capacity 3/16" aluminum or mild steel
- Stroke Length .768" (19 mm)
- Built-in vacuum collection system
- Nosepieces: 3/32" (2.4 mm), 1/8" (3.2 mm), 5/32" (4.0 mm)
- Weight 4.11 lbs (1.87 kg)

This riveter is designed for high capacity work. Its short cycle time and long stroke length makes easy work of pulling even the most challenging blind rivets. The ergonomic design which features rubber grip, and low force tripper mechanism means that you can use it for hours without experience fatigue. The built in vacuum system will keep stems contained in the collector, thus keeping the work space free of debris.

ATS8821V..... \$219.95

ATS EXTENDED REACH RIVETER W/ COLLECTOR

- Pulling Force 1,300 lbs (600 Kg)
- Rivet Capacity 5/32" aluminum or mild steel
- Stroke Length .63" (16 mm)
- Extended nose dimensions: 8.00" long x .635" diameter
- Nosepieces: 3/32" (2.4 mm), 1/8" (3.2 mm), 5/32" (4.0 mm)
- Built-in vacuum collection system
- Weight 2.7 lbs (1.2 kg)

This specialty riveter is for reaching into those really deep areas. Vacuum collection system keeps stems safely stowed in collector.

AIR HYDRAULIC BLIND RIVETER

Reacting to the need for a high production quality blind riveter with the ability to install both aerospace and industrial quality blind rivets, FSI is pleased to offer the PT-202F air hydraulic riveter. Coupling aerospace quality pneudraulic components with a well established and user friendly blind rivet nose assembly, the PT-202F offers a perfect complement to our line of limited production, field maintenance and repair riveters. Ergonomically balanced and weighing only 5.8 lbs the

rugged metal housing will offer years of service in both high production and harsh field maintenance environments.

PT-202F.....\$1,695.95

POWER RIVETER

The PT-100C comes in a durable tool case with four nosepieces. Developing 4000 lbs of pulling force, this lightweight, U.S. made tool will install blind rivets up to 1/4" diameter (including Monobolts®, Interlocks, Huck Magna-Lok® and Bulbtite Rivets).

PT-100C.....\$385.95

HAND HYDRAULIC RIVETER

The D-100C will install blind rivets up to 1/4" diameter (including , Monobolts®, and Huck Magna-Lok®) and blind rivet nuts up to 3/8" Aluminum and 1/4-20" or 6mm steel.

D-100C\$295.95

CORDLESS BLIND RIVETER KIT

The new higher capacity PT-4000 cordless blind riveter offers the sheet metal technician capability for installation of most all 1/4" diameter blind rivets while retaining all the features of the PT-3000 with respect to size, weight and versatility. Falling within the USAF TO-1-1-688 spec, the PT-4000 develops in excess of 4,000 lbs of pulling force over more than 3/4" of stroke. Utilizing the same battery packs and charger as the PT-3000 riveter, the PT-4000 is a logical addition for any organization normally requiring 1/4" diameter blind riveting capability.

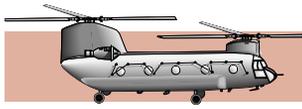

PT-4000C.....\$1,695.95

CORDLESS BLIND RIVETER

With more than 1900lbs. of pulling force the PT-3000C is able to install single action blind rivets from 3/32" thru 3/16" diameter and 1/4" aluminum Pop type rivets. So whether you are doing skin repairs, or full aircraft production the PT-3000C will make our riveting job much easier and quicker.

PT-3000C.....\$1,495.95

BLIND RIVETERS

CLOSE QUARTERS POP® RIVETER

Close quarters POP® brand riveter features an offset nosepiece for easy access to corners and close to wall applications. Sets rivets from 3/32" to 5/32" (2.4 - 4.0 mm) diameter. Includes nosepiece to set 1/8" (3.2 mm) rivets.

PRP-26A.....\$179.95

13" HEAVY DUTY HAND RIVETER

This hand riveter features a compound lever action that reduces operator fatigue. With a spent mandrel cup to keep your work area clean, and the ability to pull stainless steel rivets makes it a great addition to your toolbox. For rivets: 1/8", 5/32", 3/16", & 1/4"

15050.....\$44.95

CHERRY TEXTRON™ BLIND RIVETER

Cherry Textron hand riveter is ideally suited for installing Cherry-Q, Pop Rivets, or Avex Rivets in sizes 1/8" through 3/16" aluminum or up to 1/8" steel rivets. Includes nose pieces for 1/8", 3/16", and 5/32" rivets. Length: 9-1/4"

G28.....\$141.95

MARSON® HEAVY-DUTY RIVNUT INSTALLER KIT

Industrial strength Rivnut tool is made from forged steel to withstand hard use. Unique design allows mandrels to be replaced quickly and easily. Kit includes mandrels and an assortment of Rivnuts for the following sizes: 6-32, 8-32, 10-32, 10-24, 1/4-20, 5/16-18, and 3/8-16.

NARROW EXTENDED MICROSTOP COUNTERSINK

This microstop reaches into very confined areas and the extended reach is great for getting down into narrow channels such as seat tracks. Uses 1/4-28 threaded cutters up to 3/8" diameter. Shaft travel is 1/4". Rated at 3000 RPM. **Note: Requires 3/8" dia. cutters.**

- 133-NX.....\$39.95

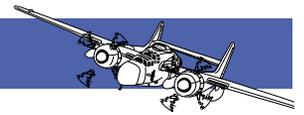

SLIM MICROSTOP COUNTERSINK

Packs all the features of a standard microstop in a slim design that's only 1 1/16" in diameter. It's ideal for those narrow areas that can't be reached with a standard microstop. Features bronze bearings. Depth adjustable in 0.001" increments with positive locking collar. Shaft travel is 9/32". Attaches to any drill having a 1/4" chuck. Uses standard 1/4-28 threaded cutters up to 1/2" in diameter, Rated at 3000 RPM.

- 133-SLIM\$29.95

CUTTERS

ZERO FLUTE PILOT CUTTER

- High Speed Steel
- 1/2" diameter
- 1/4 x 28 male thread
- 100° x high-hook flute

The unique "high-hook" design of zero flute countersinks allow them to cut with virtually no chatter. Fits into any standard microstop.

PART	PILOT	USE	PRICE
4100-40	40	3/32" rivet	\$25.95
4100-30	30	1/8" rivet	\$25.95
4100-21	21	5/32" rivet	\$25.95
4100-12	12	3/16" rivet	\$25.95

CARBIDE TIPPED CUTTER

- Solid carbide tip
- 1/2" diameter
- 1/4 x 28 male thread
- 100° x 2 cutting flutes

These cutters work exceptionally well on highly abrasive materials such as Kevlar® and other "difficult to machine" materials.

PART	PILOT	USE	PRICE
3100-40	40	3/32" rivet	\$35.95
3100-30	30	1/8" rivet	\$35.95
3100-21	21	5/32" rivet	\$35.95
3100-12	12	3/16" rivet	\$35.95

ZERO FLUTE COUNTERSINK

- High Speed Steel
- 100° x high-hook flute

The "high-hook" design is a single hole drilled through the head of the cutter, which makes it virtually chatter-free. And since it has no flutes to shift inside the hole, the cutter always stays on center. Fits any drill with a 1/4" chuck.

ZFC01.....	(3/32" to 1/4" Diameter)	\$9.95
ZFC02.....	(1/8" to 27/64" Diameter)	\$12.95

CARBIDE TIPPED CUTTER (REMOVABLE PILOT)

Carbide tipped for durability making it great for composite work. 1/4" x 28 male thread. Requires 1500P pilot. See website for details.

DRILLING EQUIPMENT

ATS HEAVY DUTY AIR DRILL

- 3/8" (9.5 mm) Jacobs® Chuck
- Variable speed control
- Ergonomic Design
- 7-1/2" (190 mm) OAL
- Full Cage Gear
- 2,600 RPM
- 67 hp (.5 kw)
- 2.07 lbs (.94 kg)

With a speed of 2600 RPM and .67 hp of power, our new heavy-duty drill can take on any job. The high quality full cage gear design ensures that this drill keeps running smoothly even under hard abuse. A solid performer that will get the job done every time.

ATS6101 \$85.95
ATS6104..... (2400 RPM Reversible Model) \$85.95

ATS HIGH SPEED AVIATION AIR DRILL

- 1/4" (6.4 mm) Jacobs® Chuck
- 2-Speed (Low/High) Control
- Ergonomic design
- 5,000 RPM
- 1.25 lbs (.5 kg)

A very nice palm-sized precision air drill that runs at 5000 RPM. It's ideal for applications requiring extra-high speed such as drilling fiberglass, composites, or tough metals. It cuts cleanly through aluminum, composites, and even tough metals such as Titanium. Planetary gears for smooth operation. 1/4" chuck. Only 6" long. 90 psi pressure.

ATS6100B..... \$119.95

ATS REVERSIBLE PALM DRILL

This palm drill is only 6" long and is fully reversible. Runs very smoothly at 2200 RPM thanks to its planetary gear system. Features comfort grip cushion handle. 1/4" chuck. 90 psi operating pressure.

ATS6100F \$99.95

ATS PALM DRILL

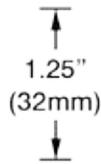

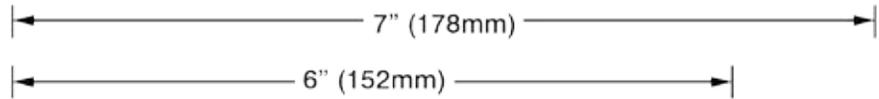

- 1/4" (6.4 mm) Jacobs® Chuck
- Two-stage (Low/High) Control Trigger
- 5-7/8" (150 mm) Overall Length
- 1.54 lbs (.7 kg)
- 2,800 RPM Free Speed

This is the drill I wish I had when I was still out there hauling a toolbox. It has everything a proper drill should have: speed, durability, and flexibility. And the nice part is that this feather-light gem is small enough to literally fit into your shirt pocket. A real work of art!

ATS6100..... \$109.95

ATS PRO PALM DRILL

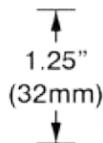

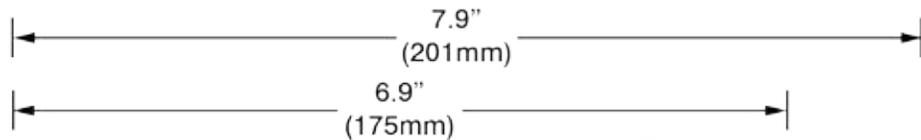

Our new Pro Palm Drill is only 7" long yet has all of the features of a full sized drill. It delivers up to .5HP of power, and the trigger is fully feathered allowing for very precise speed control. It runs smoothly and quietly even when operating at top speed.

- 1/2HP at operating speed
- 90 psi operating pressure
- True variable speed trigger
- 1/4" Jacobs Chuck

ATS61100.....	(2600 RPM)	\$129.95
ATS61101.....	(4000 RPM)	\$139.95

ATS PRO REVERSIBLE PALM DRILL

This is one of the smallest reversible drill on the market that features a full feathering trigger. It's just over 7" long and delivers .5HP of power to drill through even the toughest materials. The fully variable trigger gives you total control over the speed all the way from 0 to 2000 RPM. Very smooth running and quiet operation.

- 1/2HP at operating speed
- 90 psi operating pressure
- Positive reverse mechanism
- 1/4" Jacobs Chuck
- True variable speed trigger
- Rubber grip handle

ATS61100R.....	(2000 RPM)	\$145.95

DRILLING EQUIPMENT

ATS COMPACT ANGLE AIR DRILL (WITH JIFFY® HEAD)

With a head height of only .937" (23.8mm) and .625" (15.8mm) in diameter, our new Compact Angle Drill will get into those extremely close-quarter areas other drills simply can't. It's solidly engineered with top quality parts such a Jiffy® angle head, and a powerful compact air motor designed to our specifications. Operates at 3500 RPM and delivers .33 hp using 90 psi of air. Teasing throttle and needle bearing construction for smooth operation and longer tool life. Accepts 1/4 x 28 threaded drill bits and attachments (1/4" max drill capacity). Overall length of 9". Weighs only 1.08 lbs.

- 775.....(90° Drill with Jiffy® Head).....\$389.95

ATS ANGLE AIR DRILLS

This is the drill you need to get into those tight spaces. It has a head height of just over an inch, and produces enough torque at 2800 RPM to drill through steel. Excellent speed control, and has a solid, well-balanced feel.

- Spindle 1/4"-28 Thread
 - 2,800 RPM
 - 33 hp (.25 kw)
 - Variable speed control
 - Head Length 1.08" (27 mm)
 - Head Width .65" (16 mm)
 - 10" (254 mm) Overall Length
 - 1.6 lbs (.73 kg)
- ATS6131.....(45° Angle Drill).....\$259.95

PAN AMERICAN NOVA® ANGLE AIR DRILLS

This 90° air drill packs a lot of power into a very compact form. It delivers enough speed and torque to drill into most materials with ease. One year warranty.

- Uses 1/4 x 28 Threaded Bits
 - Head rotates 360°
 - Speed: 3000 RPM
 - Weight: 1.2 lbs.
 - Head size is 1" Long x 5/8" Dia.
 - Smooth Quiet Operation
 - Capacity: 1/4"
 - Air Inlet: 1/4 x 28 NPT
- PA60-051.....\$298.95

ATS HEAVY DUTY STRAIGHT AIR DRILL

The in line configuration of a straight drill lets you reach into tight areas and drill without having to worry about your hand or the drill's handle getting in the way.

- 3/8" (9.5 mm) Jacobs® Chuck
 - 2,400 RPM
 - .5 hp (.37 kw)
 - Planetary Gear
 - 7-7/8" (200 mm) Overall Lg.
 - 2.86 lbs (1.3 kg)
- ATS6110.....\$75.95

BOELUBE®

Boelube® is a specially formulated lubricant patented by Boeing Aerospace. Use it on drill bits, reamers, saw blades, taps & dies, boring tools, and any other application where smooth cutting action is required. The application of a small amount of Boelube, which is consumed in the metalworking process, will greatly improve tool life, surface finish, and hole quality. Recommended for use on aluminum, titanium, inconel, stainless steel,

graphite, composites, Kevlar, and wood. Can also be used with other ferrous and non-ferrous metals.

90° ANGLE DRILL KIT

One of the most versatile tools on the market today.

Complete kit consists of:

- Tool Case
- 4 Drill Bits, 40, 30, 21, 12
- 90° Angle Drill (A601)
- 4 Collets, 40, 30, 21, and 12
- 24" Flexible Attachment
- Collet Adapter
- Straight Drill Attachment
- Complete Instructions

6012KT\$329.95

360° HEAVY-DUTY SNAKE DRILL ATTACHMENT

Ideal for drilling in areas inaccessible to regular 90° angle tools. Made of heavy-duty flexible casing and core assembly. Swivels 360° and can be locked into eight different positions. Accepts 1/4" x 28 threaded drill bits and accessories for close quarter drilling. Dimensions are 30" snake length, 1-1/4" head height 1-7/16" offset distance, 3/8" side to center. Drill capacity is 1/4".

N634\$399.95

FLAT OFFSET DRILL ATTACHMENT

One of a kind drill attachment. Designed with a head thickness of only 7/16" for drilling in areas as close as 1". Fits any air or electric drill. Accepts 1/4 x 28 threaded drill bits and accessories for close quarter drilling. Dimensions are 6-5/8" long, 7/16" head thickness, 2-5/16" offset distance, 7/16" side to center. Drill capacity is 1/4".

T235\$249.95

MINIATURE JACOBS DRILL CHUCK

This chuck is only 1 inch long with a capacity of 0 to 5/32 inches. It includes a 1/4" x 28 adapter so that you can attach it to most angle drills.

C4-05.....\$115.95

CLOSE QUARTER CONE CHUCK

Attaches to all angle drills with 1/4" x 28 thread. Ideal for getting into tight areas.

A604\$25.95

JACOBS™ KEYLESS DRILL CHUCK

This patented design allows it to grip securely in either forward or reverse, and the more torque you apply to it, the tighter it will grip. Fits any drill with a 3/8" x 24 thread.

30353.....\$18.95

PROFESSIONAL AUTOMATIC CENTER PUNCH

An Automatic Center Punch is the standard in automatic center punches. It is tough enough to mark hard metals, yet not overbearing when working with aluminum skin, or thin-walled tubing. Replaceable steel point.

PLASTIC EDGE SCRAPER

This unique tool has four features in one. Not only will it remove saw marks from flat edges, it also bevels thick and thin material, and will radius the edge quickly and evenly.

CES01.....\$10.95

DIAMOND DUST PLASTIC DRILL BIT

Diamond Dust Coated plastic drill bits provide superior cutting action in Plexiglas, polycarbonates, and acrylics. They have a 60 degree point and a 0 degree rake that prevents the drill from walking or "breaking out" as with ordinary drill bits. They will not chip, crack, or gum up the material. Use to drill stacks or singles, with or without masking. Ideal for drilling mounting holes, or crack stopping holes in windshields and canopies.

DDPD-1/8(1/8").....\$2.95
DDPD-3/16(3/16").....\$2.95
DDPD-1/4(1/4").....\$3.95

PLEXIGLAS DRILL BITS

Made of high-speed steel. 90° point, 0° rake. Jobbers length. Slow spiral makes it ideal for drilling Plexiglas, acrylic, & polycarbonate.

NOXON® HAMMERLESS PUNCH

It's a brilliant idea: connect a prick punch and a center punch to each end of a powerful

spring to produce the ultimate punch. Just place the working end on any surface, pull the striking end straight back and release. The prick punch marks lightly, while the center punch creates a deeper indentation for drill starts.

- 32R00-1****\$11.95**

DRILL STOPS

Used to stop the drill bit after reaching a preset depth. Overall length of 1-5/15"

PART	SIZE	PRICE	P/N	SIZE	PRICE
DS-40	40	\$1.95	DS-21	21	\$1.95

- SP2005K** (6" & 4")**\$7.95**

DRILL HOUSING AND BUSHINGS

A hand held guide to keep drills and taps 90° to flat or curved surfaces. The guide assembly is a transparent plastic housing that allows you to view your work as you drill. And the hardened steel bushing (must be ordered separately) securely guides

the bit as you drill. The bushings can be interchanged in one housing.

V-DRILL GUIDE

More products available online

The Big Gator Tools V-Drill Guide is like a portable drill press for precision alignment! V-groove along the bottom of the guide allows for perpendicular alignment with all drill sizes on round parts and corners. Bottom surface is precision ground to assure stability and accurate perpendicular alignment on flat surfaces. Guides are made from special nickel alloyed steel that is heat treated for durability. Drill straight - every time!

CENTER-IT V-BLOCK DRILL GUIDE

Drilling through the center of round stock can be a daunting task without the right tool. Center-It makes easy work of it by securely holding the stock in its cradle to stop the tube from rolling or slipping as you drill. It's 4"W x 5"L, and extruded from 6065-T3 Aluminum for years of use.

CIT01 \$15.95

EASTERN DRILL RITE™ PRECISION DRILL GUIDE

The Drill Rite precision drill guide is an easy, accurate way to drill any curved surface or tubing from 1/2" to 2-1/2" in diameter. Light and portable, it produces straight and true holes every time. Includes super hardened drill bushings for popular 3/16" and 1/4" holes for rivets and aircraft hardware. Made in U.S.A. from aircraft grade aluminum.

EDF1 \$59.95

Cobalt Drill Bits

ATS now carries a full selection in jobber, threaded, and aircraft lengths.

Surface Finish

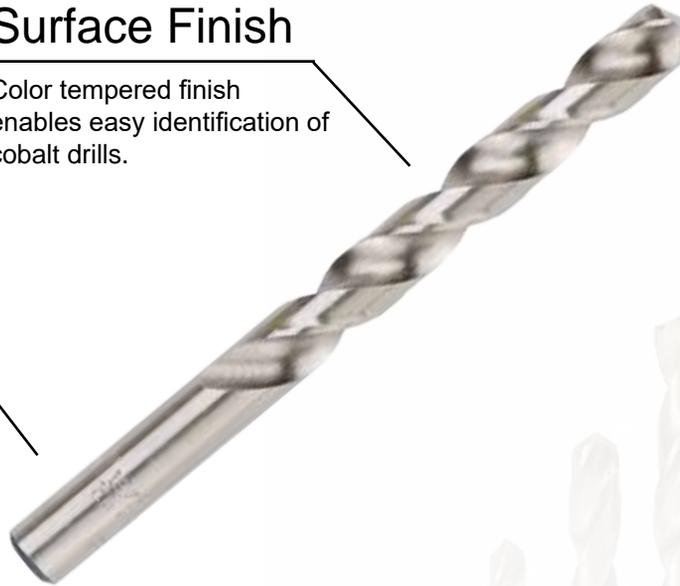

Color tempered finish enables easy identification of cobalt drills.

135° Split Point

Enables accurate positioning and less drilling pressure.

Cobalt Alloyed

The cobalt formula improves abrasive and heat resistance, for increased strength at higher drilling temperatures.

What everyone has been waiting for! You know the story, you purchase a drill bit and then discover you should have bought a few more. Save yourself the time and money and buy cobalt drill bits in packs of six or twelve bits. Volume discounts are available as well. This addition to our product line is surely one you will want to take advantage of.

Visit www.aircraft-tool.com for full line.

E-mail quotes@aircraft-tool.com for special pricing

COBALT DRILL INDEX

These drill bits are made from cobalt steel for increased durability. Standard 135-degree chisel point is recommended for stationary drilling applications and they're ideal for drilling in tough materials like stainless steel, titanium, and inconel. The set comes in a metal index case for convenient storage and transportation. All sizes are straight shank.

- 012-C60N (#1-60 wire size) \$69.95
- 012-C29F (1/16-1/2" fractional) \$84.95
- 012-C26A (A-Z letter sizes) \$79.95

COBALT DRILL PACKS

Buy in 6 and 12 packs to save up to 40%

Visit www.aircraft-tool.com to see full selection.

DRILLING EQUIPMENT

COBALT JOBBER LENGTH BITS

Cobalt jobber drill bits are used for drilling in tough materials like stainless steel, titanium, and inconel. They are made to NAS907 Type J specifications and have a 135° split point flute. Bright finish.

DRILL LUBE

This hand held Drill Cleaner/Lubricator is designed for use with drill bits, taps, and reamers. The application of a small amount of Boelube, which is consumed in the metalworking process, will greatly improve tool life, surface finish, and hole quality.

BL70104H \$8.95

6" AIRCRAFT EXTENSION DRILL BITS

Aircraft extension drill bits are designed to resist bending and buckling under torsional loads, which makes them perfect for unsupported drilling into deep areas. They are manufactured to NAS 907 Type B and type J specifications. Great for drilling aluminum and mild steel. Constructed of cobalt for the best combination of strength, heat resistance, and wear resistance. 135 degree split point ensures a true start and eliminates bit walking.

*Replacement bits for our 1341A and 1341S rivet removal tools.

DRILL GAUGES

- Top quality drill gauges are used to quickly identify drill sizes.
- Made of heavy-gauge heat treated steel, machined to close tolerances.
- Hole sizes and decimal equivalents are permanently etched into the metal.

PILOTED REAMERS

High Speed Piloted Reamers are ideally suited for cleaning and re-sizing valve guides Valve Guides, Valve Guide Boss, Rocker Arm & Shaft Bushings; and Rocker Shaft Support Base. They are made of high speed tool steel and precision ground to your exact specifications. You specify size. Available from .3750 thru .5100".

PRO1 **\$75.95**

Note: Please specify reamer size & pilot size when ordering.

DRILLING EQUIPMENT

HAND EXPANSION REAMERS

High Speed Straight Flutes. Expansion Limits: +/- 0.006".

PART	DIA (IN.)	OF FLUTES	FLUTE LEN.	OVERALL LEN (IN.)	PRICE
016AR	1/4	6	1-7/16	3-7/8	\$89.95

TI-COATED STEP DRILL SET

These TiN (Titanium Nitrate) coated stepped drill bit sets make it easy to drill 28 hole sizes. Constructed from high-speed steel, they feature clearly marked hole sizes and have a titanium finish for long bit life. Includes 13-Step bit ranging from 1/8 in. to 1/2 in.,

6-Step bit ranging from 3/16 in. to 1/2 in., and a 9-Step bit ranging from 1/4 in. to 3/4 in.

- 16503..... \$16.95
- 16504..... (1/4"-3/4" Only)..... \$10.95

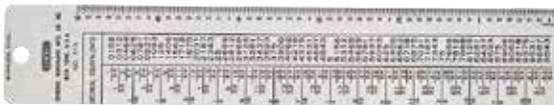

HAND TAPERED REAMERS

Tapered reamers are great for hole enlarging, or deburring. Cuts steel, brass, aluminum, plastic, and wood.

- GT130 (T-Handle)..... \$11.95
- GT131 (Straight Handle)..... \$14.95

REFERENCE TABLE

Our Tap Drill Reference Table is a must have for any toolmaker, machinist or mechanic. The double-sided guide features a Tap Drill Depth Chart, decimal conversions from 1/6" to 6" and a ruler graduated in 6ths. The Tap Drill Reference Table works with National Fine, National Course, American Standard Pipe and Metric threads.

- GT175 \$7.95

DIE GRINDERS & SANDERS

ATS MINI BELT SANDER

Removing old paint and corrosion from channels, tracks, and other tight areas is always a challenge. But this sander will make your life easier. It's narrow enough to get into hard-to-reach areas, and powerful enough to make short work of it. Ideal for use on all composite type aircraft projects or contouring and finishing molds and jigs.

- 360° Head Rotation
- Uses 3/8" x 13" (10 x 330 mm) Belts
- 16,000 RPM
- 11-3/16" (284 mm) Overall Length
- Built-in Regulator
- 1.76 lbs (.8 kg)

ATS4501A \$95.95

87885... *Belts (3/8" x13") 60 Grit \$15.95

87886... *Belts (3/8" x13") 80 Grit \$15.95

87887.. *Belts (3/8" x13") 100 Grit ... \$15.95

*Belts are in packages of 5.

ATS HEAVY DUTY JITTERBUG SANDER

Our new jitterbug sander provides the ultimate balance of power and controllability. Ideally suited for paint removal and surface preparation work.

- Free Speed 8,000 osc/min
- 6-11/16" (170mm) Overall Length
- Pad Size 3-3/4" x 9" (93 x 228mm)
- 4.33 lbs (1.97kg) weight

ATS4211 \$65.95

ATS COMPACT FINGER SANDER

This tool is great for removing paint and corrosion in narrow, confined areas such as seat tracks, or guide rails. High speed orbital action quickly removes material while giving you total control. Uses standard adhesive-backed sandpaper.

- 15,000 RPM Free Speed
- 2.375" x .825" (60x21mm) pad size
- Orbital diameter 3mm
- Heavy duty orbital head
- 9-7/16" (240 mm) Overall Length
- 2.2 lbs (1 kg)

ATS4103A \$169.95

ATS HD RANDOM ORBITAL SANDER WITH VACUUM COLLECTOR

Excellent high speed finishing sander cuts very quickly and features an internal self-generated vacuum system to remove debris as you sand.

- Free Speed 10,000 RPM
- Head Length 1.08" (2.7 mm)
- 5" or 6" (127 or 152mm) Disc Size
- 2.4 lbs (1.1 kg)
- 4-25/32" (121mm) Overall Length
- Includes vacuum hose and bag

ATS4201V. (6" Hook&Loop Pad) \$145.95

ATS50VE (5" Vinyl Pad) \$189.95

5" COMPACT ORBITAL SANDER

Compact orbital sander produces uniform sanding pattern for even material removal, or for finishing work. It features an internal regulator that allows you to control the speed for different sanding needs. Completely sealed and water resistant so it will work as both a wet and dry sander.

- 6" (152mm) Vinyl or Hook & Loop pad
- Orbit Diameter 3/16" (4.7 mm)
- Built-in air regulator
- 6-1/2" (165mm) Overall Length
- Free Speed 10,000 RPM

ATS4021 (Vinyl Pad) \$99.95

ATS 6" HEAVY DUTY DUAL-ACTION SANDER

The smooth strength and power of our Dual-Action Sander quickly removes heavy material on large, flat surfaces while leaving a clean swirl-free finish. Pad motion resists loading for better finishes and less heat build-up.

- 10,000 RPM Free Speed
- Balanced ball bearing construction
- 6" (150mm) Vinyl Pad
- Head Width .65" (1.6 mm)
- 10" (254 mm) Overall Length
- 4.25 lbs (1.93 kg)

ATS4205 \$75.95

DIE GRINDERS & SANDERS

ATS REAR EXHAUST EXTENDED DIE GRINDERS

Combines all the features of a well engineered die grinder with the extra reach needed to get into tight areas. Full ball bearing construction for exceptionally smooth running action. Rear exhaust system vents air away from the work area and prevents contamination from blowing debris.

- 25,000 RPM Free Speed
- 1/4" (6.4 mm) Collet Size
- Rear Exhaust
- .3 HP (.22 kw)

ATS253E.....(3" Die Grinder).....\$125.95
ATS255E.....(5" Die Grinder).....\$145.95

ATS MINI DIE GRINDERS

At only 6" long, our new Mini Die Grinders are small enough to fit comfortably in your hand, yet has all of the speed and power of the bigger models. Manufactured from top quality parts and features full ball bearing supports. Use it with rotary files, or Scotch-Brite Roloc discs to shape and polish your work.

- 1/4" (6.4 mm) Collet size
- Front exhaust cleans work area
- 2hp (.15 kw) horsepower
- Full 1 year warranty

PART	STYLE	RPM	WEIGHT	PRICE
ATS5101	Straight	26,000	.79 lbs (.36 kg)	\$79.95
ATS5105	Angle	20,000	1.1 lbs (.5 kg)	\$85.95
ATS5107	115 Degree	20,000	1.1 lbs (.5 kg)	\$89.95

ATS 17 PIECE MICRO DIE GRINDER KIT

A complete rear exhaust micro die grinder kit featuring a powerful die grinder and a collection of stones in various shapes and sizes. Also included in the kit are:

- 1 - Mini Oiler
- 10 - Grinding Stones
- 1 - Set of spanners
- 1 - 1/4" Air Connector

Micro Die Grinder Specifications: 54,000 RPM Free Speed, 1/8" (3mm) Collet Size, 5-3/8" (137mm) overall length, .44 lbs (.2 kg) weight, rear exhaust.

ATS5001K.....\$115.95

ATS HIGH SPEED MICRO DIE GRINDER

The very high speed and pencil-thin form factor makes this die grinder the perfect tool to do detailed grinding, polishing, or drilling in all types of metals and composites. Ball bearing construction gives it a remarkably smooth and quiet operation.

- 1/8" (3 mm) Collet Size
- Rear Exhaust
- 60,000 RPM Free Speed
- Very light weight .48 lbs (.22 kg)
- 5.86" (149 mm) OAL
- Full 1 year warranty

ATS5023.....\$95.95

SOLID CARBIDE ROTARY BURR SET

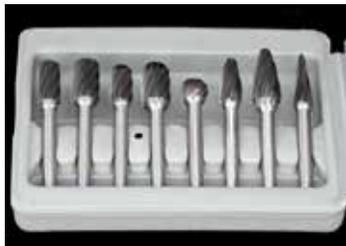

Complete set of 1/4" shank rotary burrs designed to shape and trim steel, cast iron, and other ferrous metals. Also ideal for use with composite materials. Can be used with any die grinder or high speed drill. Each set contains a selection of nine cylindrical (Type-SA) and tree shaped (Type-SF) carbide burrs suitable for most applications. Comes complete with case. Not recommended for use on aluminum.

PRO-R110 (9pcs - 1/4" Shank) \$179.95

CARBIDE BURR SET FOR ALUMINUM

This set of 1/4" shank carbide burrs is specifically designed to cut aluminum and other non-ferrous metals without galling or loading up. Includes one each: SA-3NF & SA-5NF cylindrical, SC-3NF & SC-5NF radiused cylindrical, SD-5NF ball, SF-5NF tree taper, and SL-3NF tapered. Comes in fitted blow molded case.

WT1109-0060 (8pcs - 1/4" Shank) \$115.95

1/8" SHANK CARBIDE BURR SET

A complete set of 12 carbide burrs for use in 1/8" pencil die grinders. Double cut edges removes material efficiently while leaving a smooth finish. Includes one each: SA-51, SA-53 & SB-51 cylindrical, SC-51 & SC-53 radiused cylindrical, SD-51 ball, SE-51 oval, SF-51 & SF-53 tree taper, SM-51 conical, and SN-51 inverted cone. Comes in fitted blow molded case.

WT1134-0080 (12pcs - 1/8" Shank) \$51.95

1/8" SHANK 50 PCS DIAMOND GRINDING BITS

Diamond bits are ideally suited for hard materials such as glass, ceramics, and carbon composites. Contains a variety of the most popular sizes and shapes, such as: ball, cylinder, taper, inverted cone, radius end, discs, and more. Includes a molded plastic case.

WT4999-9915 (50pcs - 1/8" Shank) \$29.95

DIAMOND MOUNTED POINT SETS

Mounted diamond point sets range in diameter from 1/16" to 5/16" in an assortment of shapes. Useful for trimming, hole resizing, precision fitting, etching, etc. Works best with hard materials such as glass, ceramics, and carbon composites.

WT4999-9910 (10pcs - 1/4" Shank) \$6.95

WT4999-9900 (20pcs - 1/8" Shank) \$8.95

ATS HIGH SPEED CUT-OFF TOOL

Perfect for cutting and trimming studs & bolts. Features a safety hood to protect against flying debris. 3" (75 mm) disc capacity, 3/8" (15 mm) mount. Free speed 20,000 RPM. Weight 1.74 lbs (.79 kg).

ATS8502 \$49.95

CUT-OFF WHEEL ARBOR

Allows you to use any type of cutoff wheel with your 1/14" collet die grinder. The complete arbor set includes the shank and two screw mandrels for 1/4" and 3/8" hole sizes. Supports cut-off wheels up to 4" in diameter. *Always use an approved face shield when using a die grinder with any type of cut-off wheels.*

16413 (1/4" & 3/8" Holes) \$5.95

REINFORCED CUT-OFF WHEELS

Premium quality cut-off wheels has high cut rates and long life. Provides top level grinding for fiberglass, stainless steel, mild steel, and alloys. 25,000 maximum RPM. Type-1 Grade 60 Aluminum Oxide suitable for all metals except Titanium. *Always use an approved face shield when using any type of cut-off wheels.*

SURFACE PREP TOOLS

ATS SURFACE CONDITIONING KIT

A complete sanding and finishing kit that contains a high speed angle sander plus an assortment of 3" sanding discs and surface preparation pads. Includes the following:

- 1 - Coarse Surface Prep Disc
- 1 - Medium Surface Prep Disc
- 1 - Fine Surface Prep Disc
- 10 - 80 Grit Sanding Discs
- 10 - 100 Grit Sanding Discs
- 10 - 120 Grit Sanding Discs

Sander Specifications: 18,000 RPM Free Speed, 3" (76mm) Pad Size, 4-23/32" (120mm) overall length, 1.49 lbs (.68 kg) weight.

ATS4106K.....\$135.95

SANDING DETAILER KIT

12303

12301

Ideal for finishing those hard to reach areas. The spring loaded to put tensions on the abrasive belt. Included in this standard kit is one each of four various grits. Replacement belts available online at www.aircraft-tool.com

PART NUMBER	GRIT	PRICE
12301	Standard Coarser Grits	\$21.95
12302	Standard Finer Grits	\$21.95
12303	Micro-Film Coarser Grits	\$21.95
12304	Micro Film Fine Grits	\$21.95

ATS RIVET SPOT SAND BLASTER

This self-contained sand blaster gets down to the bare metal. Ideal for sand-blasting rivets to remove corrosion and oxidation or other spotted areas. The abrasive is re-circulated, no mess to clean up. Contains 4 rubber nozzles for flat surfaces, panel edges, and inside and outside corners. Operates on 60 PSI.

ATS201.....\$39.95

MINI ORBITAL DETAIL SANDER

- Free speed 7,500 rpm
- .3HP Air motor
- Orbit dia .060" (1.5 mm)
- Weight 1.42 lbs (.66 kg)
- Length 6-5/8" (168 mm)

The perfect sander for targeted corrosion removal, spot repair of paint jobs, and general finesse sanding of small areas. Front exhaust allows continuous cooling of gear box which extends the life of the tool. Includes a 1-1/4" (30mm) diameter hook & loop (velcro).

ATS4115P.....\$69.95

PAINT CUTTERS

PA36-5XX

WITHOUT PAINT CUTTER

WITH PAINT CUTTER

PA36-666

You know how frustrating it can be to remove a painted over screw only to wind up chipping up the paint job. But you wouldn't have that problem if you had a set of these innovative paint cutters. They work by slicing through the paint around the head of the screw so you can remove it without chipping the paint. They have a 1/4 x 28 thread to fit into any angle drill, or you can get the optional arbor for use in a drill chuck.

PART	DESCRIPTION	PRICE
PA36-511	4 Screw Paint Cutter	\$24.95
PA36-512	6 Screw Paint Cutter	\$24.95
PA36-513	8 Screw Paint Cutter	\$24.95
PA36-514	10 Screw Paint Cutter	\$24.95
PA36-517	1/4" Screw Paint Cutter	\$24.95

PA36-SET	Set of all 5 cutters & Arbor	\$116.95

CLEANING & POLISHING

ATS DELUXE VERTICAL POLISHER KIT

A superior quality polisher kit features a high speed ball-bearing vertical polisher for smooth, quiet operation. Includes a complete collection of pads and holders for any polishing, blending, or buffing job.

- 1 - 3" Eva Pad
- 1 - 3" Hook & Loop Holder
- 1 - 3" Wool Buffing Pad
- 1 - 3" Wool Polishing Pad

Polisher Specifications: 2,500 RPM Free Speed, 3" (76mm) Pad Size, 6-5/16" (160mm) overall length, 1.78 lbs (.81 kg) weight.

ATS4601K.....\$199.95

ATS 7 PIECE MINI POLISHER KIT

This is a great all-a-round polishing kit that's well suited for blending, and buffing out blemishes, as well as bringing out a mirrorlike shine to any surface. Includes everything needed to get started except buffing compounds and polishes:

- 1 - 3" Hard Compounding Pad
- 1 - 3-1/2" Wool Bonnet
- 1 - 3" Soft Compounding Pad
- 1 - 3" Hook & Loop Backing

Polisher Specifications: 2,000 RPM Free Speed, 3" (76mm) Pad Size, 4-7/16" (138mm) overall length, 1.6 lbs (.75 kg) weight.

ATS4600K.....\$135.95

ATS 5" ORBITAL PALM POLISHER

- 3,000 RPM Free Speed
- Orbit 3/16" (5mm)
- 5" (125mm) Pad Size
- 1/4 hp
- 6-1/2" (165 mm) OAL
- 2.2 lbs (1.0 kg)

A powerful compact polisher that's perfect for doing detail polishing in tight areas having complex surfaces such as wing roots, cowlings, or control surface areas.

ATS4602.....\$145.95

ATS 7" VERTICAL POLISHER

- 2,000 RPM Free Speed
- 7" (178 mm) Pad Size
- 7-1/2" (190 mm) OAL
- 2.2 lbs (1.0 kg)

This powerful polisher makes short work of any buffing job. Heavy duty motor will not bog down under heavy loading, and dual-handle design gives you total control. This is the tool you need to bring out a glass like finish to your airplane's paint job.)

ATS4603.....\$99.95

ATS 7" ANGLE POLISHER

An angle polisher is ideally suited for polishing relatively flat areas very quickly. It's the perfect tool to polish fuselage and wing areas.

- 2,500 RPM Free Speed
- 14-1/2" (370 mm) OAL
- 7" (178 mm) Pad Size
- 5.3 lbs (2.4 kg)

ATS4605.....\$95.95

CYCLO 5-PRO MARK II POLISHER

The Model 5-Pro, Mark II is a variable speed version of the Model 5 and also offers a 3 year warranty, plus all the balancing weights (blue, yellow and silver). This tool is equipped with ProGuard Orbital Backing Plates for attaching loop backed foam or wool pads.

Its innovative design eliminates the two main problems that plague rotary polishers: heat build-up that can cause visible burns, gouges and swirls, and vibration. The synchronized movement of the Cyclo Polisher's dual orbiting heads effectively mirrors the overlapping, circular motion of fine hand polishing. The result is a mirror-like finish without swirl marks or risk of damage to paint.

CYCLO5-PRO (Bonnet) **\$369.95**
CYCLO5-RPH-PRO (Velcro) **\$385.95**

CLASSIC CYCLO 5 ORBITAL POLISHER

The Cyclo Wonder Orbital Polisher was developed for the aircraft industry to polish aircraft, supersonic jets, and missiles to the exacting standards required for government approval. It is used by most major airlines and aircraft manufacturers to polish without gouging, marring or burning, as a rotary polisher may do. It leaves no swirl marks and gives a beautifully polished finish. Even a beginner can do a professional job quickly, easily and safely. This versatile durable tool can be used for cutting, compounding, waxing, scrubbing, and cleaning.

CYCLO5-RPH..... (For use with Velcro heads)..... **\$348.95**

CYCLO DELUXE AVIATION POLISHING KIT

This kit includes one Cyclo RPH polisher (has Velcro heads), one pack of 4 finishing heads (white), one pack of 4 compounding, sanding and paint removal pads (yellow), one quart can of cleaner, one 16oz bottle of cleaner-polisher-sealant, and one 16oz bottle of protective sealant. A complete kit that will surely get things shining.

CYCLO-DELUXE **\$405.95**

CYCLO AVIATION POLISHING KIT

With this kit you will be able to polish your aircraft with professional quality results quickly, easily, and safely - even if you've never polished before. The complete kit includes the Cyclo-RPH Hook & Loop Polisher, a set of green pads to quickly remove dirt and oxidation, a set of wool polishing pads, and a 16 ounce can of MET-ALL polish. Includes everything needed to bring out a mirror-like shine in aluminum and painted surfaces.

CYCLO-RPH-KIT **\$339.95**

CLEANING & POLISHING

CYCLO FOAM BONNETS AND VELCRO PADS

Foam pads are ideal for applying polishes, sealants, and buffing compounds. They are also superb for fine polishing.

PROSHINE INTERFACE PAD

Use with ProShine abrasive discs. Medium-density foam pad with velcro (RPH) material on one side, loop on the other. Pads attach to Cyclo ProGuard Orbital Backing Plate or Cyclo Rubber Pad Holder providing a firm yet flexible mount for Cyclo ProShine Discs.

CY79-920 \$17.95

CYCLO FASTCUT DISC

This coarse nylon pad is strong, durable, and specifically designed to remove bug stains and light corrosion on unpainted aircraft surfaces. 6,000 grit. 10 discs per package. Use with Velcro (RPH) models only.

CY74-660 \$12.95

CYCLO MICROFIBER PAD COVER (SUEDE)

An ultra-soft cover used for final touches. It effectively removes all surface residue without leaving any swirls or streaks. Excellent for cleanup after waxing. Can be used with any Cyclo Polisher configuration. 4 covers per package.

CY73-515 (Suede) \$16.95

CY73-530 (Terrycloth) \$16.95

NANOSKIN AUTOSCRUB PAD

Introducing the nanoskin autoscrub Velcro (RPH) pad from Cyclo Toolmakers. Unlike the clay bar, Cyclo autoscrub pads can be cleaned by simply rinsing off the accumulated contaminants with water. If dropped on the ground, simply rinse clean the patented rubber polymer side of the autoscrub pad, and you are ready to keep using it.

CY72-320 (Fine Grade) \$52.95

CY72-340 (Medium Grade) \$52.95

BUG BLASTER

For use on aircraft, autos, RVs, boats, and motorcycles. Quickly removes bugs without leaving a residue. Just spray, wait and wipe. Bug Blaster instantly attacks bug proteins and acids. Safe on all exterior surfaces including: Plexiglas, acrylic, glass, clear coat or polyurethane paints, etc. Bug Blaster is completely biodegradable. 8 oz.

3MBB1008 \$6.95

CLEANING & POLISHING

MET-ALL® DETAILING POLISHING KIT

MET-ALL's Detail Polishing Kit will produce a show room finish on bare metal, painted surfaces and fiberglass using a variety of Met-All polishes and premium bonnets. Each bonnet features a recessed loop back so the edge of the pad, as well as its face, can be used effectively with less concern for scuffing or marring the finish.

MDPKIT\$35.95

EXTREME SIMPLE GREEN

Extreme Simple Green's aircraft cleaning product, cuts through tough, built up grease, oil, dirt, pollution, insect residue and impact soils. Simple Green will cause no harm to aircraft structural metals, plastics, paints, or coatings.

ESGAC32\$13.95

MET-ALL® PREP AND ULTRA POLISH

MA-P37

MA-P100

"Best Aluminum cleaner/polisher I have ever used. It also leaves a finish that is easy to keep clean" ~ J Anderson

A complete two-stage solution to the perfect finish. First, use the Prep Polish to remove roughness. It's thorough cutting action clears away years of oxidation and readies the surface for finish polishing. Next, buff to a mirror-like finish with super-smooth Ultra Polish. Ultra Polish also restores optical clarity to acrylics, as well as removes fine scratches in painted surfaces.

SHEET METAL TOOLS

ANDY SNIPS®

Superior quality, heavy-duty snips are only 1/3 the weight of steel types, and give many more years of service. Comfortable, sleek contour aluminum handles have reinforcing ribs to duplicate the strength of steel. Handles will not spring when cutting heavy gauges of sheet metal. Inlaid blades are supreme cutlery grade moly steel, electronically heat treated and tempered for continuous use. Precision ground, beveled cutting edges stay sharp longer and make pattern cutting, even circle cuts an easy job. Blades are able to be sharpened and also easily replaced when necessary.

LIGHT METAL SNIP

Compact sheet metal snip makes quick work of trimming aluminum, plastic, and sheet steel material. Unique high leverage design will cut up to 24ga metal with virtually no effort. Made of stainless steel.

ally no effort. Made of stainless steel.

- K147.....\$21.95

TITANIUM BONDED SNIP

A leader in the field due to its Titanium Bonding which provides a surface 3x harder than untreated steel. This allows the snip to stay sharper up to 3x longer. Precision

ground edges on the blades ensure a tight grip on each cut for superior cutting quality. Corrosion and adhesive resistant. Cuts straight, notches and wide curves. For plumbing, heating, air conditioning and roofing trades. Non-slip cushion handles for comfort and control. Perfect for cutting low carbon cold rolled steel.

ATS BENCH BENDER BRAKE

Bends and forms up to 90° in metals up to 18 gauge thickness. Provides flanged edges up to 1" in height. Adjustments for stock thickness, sharpness of bends are easy to make. Includes two "C" clamps.

PART	CAPACITY	BENDING LENGTH	PRICE
144ST	18 ga.	18"	\$43.95
244ST	18 ga.	24"	\$55.95
364ST	18 ga.	36"	\$79.95

SHEET METAL JOGGING TOOL

Fits any rivet gun with a .401 shank and forms a perfect 90 degree jog approximately 1/2 inch wide. Ideal for forming sheet metal repair patches or to flush mount full sheets.

- 91625.....\$59.95

MALCO REDLINE® HAND CRIMPER

New 5 blade style crimps more evenly. Has 1-1/4" jaw depth. Full 20 gauge capacity. 9" Overall length.

- C5R.....(5 Blade Double Crimper).....\$35.95
- SC-1.....(3 Blade Single Crimper).....\$21.95

SHEET METAL TOOLS

INSTRUMENT HOLE PUNCH

Reversible cutter for both 2-1/4" and 3-1/8" instrument panel holes. Easy to use even with instrument panel installed in aircraft. Allows for close work with other instruments already installed.

- 123C \$159.95
- T123C..... (Instrument Hole Drill Template) \$19.95

MANUAL PUNCH KIT

- Die set 1/2 in. type C
- Die set 3/4 in. type C
- Die set 1 in. type C
- Die set 1-1/4 in. type C
- Die set 1-1/2 in. type C
- Die set 2 in. type C
- Shaft and bearing - small
- Shaft and bearing - medium

Knockout punch kit is ideal for punching clean holes in metal, fiberglass and plastic materials up to 10 ga thickness. Easy to use, simply drill a pilot hole and place 2 cutters on either side then put the arbor through the cutters and use the included ratchet to bring the cutting jaws together. Includes a set of 6 dies, arbor and ratchet plus a carrying case.

- E902-481 \$165.95

ADJUSTABLE HOLE CUTTER

Cuts perfect holes from 2" to 12" diameter in 16 ga. metal and wood up to 1" thick. Ideal for cutting out inspection and instrument holes. Uses any air or electric drill.

- HC1 \$59.95
- CB (Replacement Cutter Bit) \$10.95

EDGE MARKER BLOCK

This handy device holds a marking pen and has an adjustable guide that runs along the edge of a part. The guide allows variable edge distance for rivet layout. One thumb screw holds the pen and the other screw holds the adjustable stop. Comes ready to use with one Pilot marking pen.

- AE6352..... \$20.95

EDGE ROLLING TOOL

For pre-bending skin edges on lap joints and butt joints before riveting. "Edge rolling" will prevent skin edges from curling up during riveting. Machined round body made from 2024 aluminum. Black anodized finish for wear resistance. Ball bearing style nylon rollers and a spare set of rollers included.

- AE1042..... \$22.95
- AE1040..... (Spare Rollers-2) \$2.95

HOLE FLANGING TOOL

Excellent for flanging lightening holes or overlapping sheets. Won't mar material. Flanges straight or curved edges up to 1" deep.

- FT100 \$14.95

CIRCLE CUTTER

This tool, also known as a "Fly Cutter", uses a flying cutting bit to cleanly cut holes in metal, wood, plastic, and hardwoods from 1" to 5-1/2" diameter. The included 1/4" drill bit automatically forms its own pilot hole prior to cutting. The drill shank is 5/16". We strongly recommend a drill-press and safety gear when using this tool.

- 5B..... \$18.95
- 555..... (Replacement Cutter Blade)..... \$4.95

SHEET METAL TOOLS

HEAVY DUTY HAND SEAMER

The extra wide 3-3/8" jaw face is machined smooth and aligned to be exactly parallel along the edges. The 6" handle is covered in a thick vinyl for maximum leverage without any discomfort.

- HS144..... (ATS Brand) \$24.95
- A44 (Roper Whitney Brand) \$59.95

ECONOMY HAND SEAMER

Locks to work with powerful non-slip grip. Eliminates tiresome hand gripping. Ideal for holding templates or riveting work, welding, etc. Throat depth 1-3/4".

- AE575..... (Avery Tools) \$45.95
- S7 (Irwin) \$25.95

OFFSET HAND SEAMER

Bends and flattens metal easily, overhead or in confined areas. Makes permanent, tight fitting seams. Scaled depth marks on jaws are in 1/4" increments. Jaws are made of drop forged high impact steel and are nickel plated.

- S3 \$53.95

BURNISHING TOOL

Designed to remove surface blemishes in aircraft sheet metal. Comfort grip handle.

- 515A \$11.95

SKIN WEDGE

A skin wedge is the tool to use (instead of a screwdriver) whenever you need to pry and jog sheet metal skins. Just slip the thin curved blade into the gap and slide it along the edge to gently separate the edges without gouging the skin. Can also be used as a jogging tool to align new skin. 7" long by 1" wide.

- SWG7 \$9.95

ATS DELUXE FLUTING PLIERS

Narrow fluting pliers are used for straightening out or coaxing sheet metal into the correct shape. Great for working on spars, ribs, and bulkheads. Smooth polished faces produce very clean flutes without any marring. 3/16" fluting faces.

- FP21 \$19.95

WISE GRIP FLUTING PLIERS

Make narrow & precise flutes for straightening ribs and bulkheads easier & better than pliers with molded jaws. Jaws are 3/16" diameter.

- AE500..... (Avery Tools) \$45.95
- 7070..... (ATS Brand) \$39.95

FLUTING PLIERS

Special coating on jaws allows work on aircraft components without marring the surface. Has a 1" reach and will produce a 3/8" flute.

- FP10 \$19.95

EDGE SCRAPER

Ideal for deburring sheet metal edges. Special guard protects users hand.

- SP201A \$11.95

DOUBLE DEBURRING TOOL

Fast, efficient deburring tool designed specifically for sheet metal and composite materials. Replaceable hardened twin cutting wheels deburr sheet metal up to 3/8" thick. Overall length is 7-3/4".

- G480 \$19.95
- G480-RB (Replacement Cutting Wheel) \$4.95

SHEET METAL TOOLS

PRECISION SCREW & BOLT SHEAR

This is a precision cutting device to cleanly cut screws and bolts without damaging the threads. Simply insert the screw or bolt into the proper size threaded opening, set the length required, and strike the cutting blade with a hammer to cleave the bolt. It cuts threaded products in sizes of 4-40, 6-32, 8-32, 10-32, 10-24, 1/4-20, and 1/4-28. It will cut steel, stainless steel, aluminum, brass, and even hardened bolts. Comes in a protective pouch and includes complete instructions.

SBS1\$109.95

ROPER WHITNEY JR. 5 HAND PUNCH

Punches up to 1/4" hole through 16 ga. metal. Sold either as an individual tool or as a complete kit in a case with 7 punches and dies for 3/32" to 9/32" holes. NOTE: New style inverted handle allows operation close to work without injury to your hand. Made in U.S.A.

45.....\$99.95

AN BOLT GAUGE

All metal gauge designed to accurately determine the sizes and lengths of AN bolts up to 5/8" diameter. Self-explanatory, easy to use instructions are written directly on the gauge.

AE1350.....\$11.95

C-CLAMPS

Made of cast steel and plated to prevent rust.

HAND TOGGLE CLAMPS

Toggle clamp has a jaw capacity of 1 in. and jaw depth is 1-1/8 in.

145.....\$21.95

SHEET METAL TOOLS

ATS PUNCH & FLANGING TOOL

When overlapping two pieces of sheet metal, you must "jog" the edge of one sheet so that they will join together without seams- and that's just what this tool does. The jogging die places a nice 1/2" jogging flange on the edge of sheet metal up to 16ga. While the other end of the die contains a hole punch that will make a clean 3/16" hole. This tool is a real time-saver if you do a lot of sheet metal work.

- Cap 16ga (.060"/15mm) steel.
- Punch Dia 3/16" (5 mm)
- Flange width 1/2" (12 mm)
- Rubber comfort grip
- 9-3/4" (248 mm) OAL
- 2.75 lbs (1.25 kg)

ATS8400.....\$75.95

ATS 2" AIR CIRCULAR SAW

IMPROVED DESIGN!

Designed to make precise, controlled cuts in aluminum panels up to 1/4" thick. Leaves a high-luster, burr-free edge that does not require any additional filing or cleanup. Great for cutting out access panels. Excellent balance and smooth operation

- Uses 2" (51 mm) saw blades
- 620 RPM
- .080" (2 mm) steel capacity
- Weight 2.42 lbs (1.1 kg)
- .290" (7.5 mm) capacity
- Length 6-7/8" (175 mm)

ATS8510.....\$169.95

ATS8510-RB..... (Replacement Blade)\$25.95

ATS HIGH SPEED RECIPROCATING SAW KIT

Heavy duty saw features safety guards and a locking throttle to prevent accidental starts. At 10,000 strokes per minute, this saw will cut through steel or aluminum just as fast and easily as cutting through wood. Complete kit includes the high speed saw, two sets of blades, mini oiler, a swivel connector, accessory tooling, and a blow molded case.

- Cuts up to 16 ga (.060" / 15 mm) steel or aluminum
- .063" (1.6, mm) Stroke Length
- 10,000 Strokes Per Minute (SPM)
- Weight 2.1 lbs (1.35 kg.)

ATS8202K.....\$99.95

ATS526..... (Replacement Blades, 18TPI, pkg. of 5)\$5.95

ATS527..... (Replacement Blades, 24TPI, pkg. of 5)\$5.95

ATS528..... (Replacement Blades, 32TPI, pkg. of 5)\$5.95

VIBRATION REDUCED SAW KIT

Very low vibration saw is designed to reduce the effects of vibration shock injuries. Cuts at 5000 strokes/min. Operates at 90 psi. Complete kit includes:

- Saw
- 5 32T Blades
- 5 24T Blades
- 5 18T Blades
- Air Swivel
- Molded Case

ATS8229K.....\$139.95

ATS526..... (18 Teeth Blade 5 Pieces)\$5.95

ATS527..... (24 Teeth Blade 5 Pieces)\$5.95

ATS528..... (32 Teeth Blade 5 Pieces)\$5.95

SHEET METAL TOOLS

ATS HIGH SPEED AIR SHEARS

The powerful jaws breeze through 16ga sheet metal at over 50 feet/min. Great for rough cutting, or finish trimming. Triple blade design cuts without leaving any edge burrs or distortions.

- Cuts up to 16 ga (.060" / 15 mm) steel or aluminum
- Replaceable blades may be sharpened for extended use
- Weight 3 lbs (1.35 kg.)

ATS8500..... (Pistol Grip Handle)..... \$105.95

ATS8501..... (Straight Handle)..... \$110.95

HAND NIBBLER

Improved nibbler design provides maximum comfort and ease of use. The extra long handles (7") delivers enough force to easily cut through 18 ga. (.046") aluminum, steel, or plastic. The punch action of the nibbler makes it flexible enough to cut any shape

ranging from a straight line down to a 5/16" radius circle.

64823..... \$18.95

64823BIT..... (Replacement Bit)..... \$9.95

ATS AIR NIBBLER

- Cuts up to 16 ga (.060" / 15 mm) steel or aluminum
- Easily replaceable punch and die
- Weight 1.74 lbs (.79 kg)

Cuts beautiful, burr-free edges in aluminum and steel sheets up to 16ga (.060") thick. Features push-type action to give you a better view of you cutting path.

ATS8300..... \$109.95

ATS8300-RP..... (Replacement Punch)..... \$10.95

JILSON SUPERSNIP® SHEARS

The SuperSnip cuts cleanly and accurately without damage to painted, plated, or polished surfaces! As it cuts, the SuperSnip conveniently snips off the waste curl so that it does not build up and interfere with your progress; and a built-in guard prevents the cut-off waste from flying up and into the eyes. The SuperSnip makes straight or curved cuts in up to 16 gauge aluminum or 18 gauge steel. Interior cuts can be made by first drilling a 1/4" hole.

J1451..... \$49.95

JS1251RB..... (Replacement Blade)..... \$8.95

JILSON MONODEX® SHEARS

The Monodex® shears will accurately cut aluminum up to 16 gauge, and mild steel up to 18 gauge without distorting, blurring or curling the edges of the cut. Interior cuts can easily be made by first drilling a 1/4" starter hole to accommodate the blade. The handle is made of a tough, durable plastic, which makes it extremely lightweight.

JS12..... \$31.95

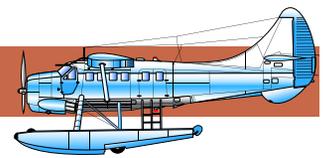

JS1251RB..... (Replacement Blade)..... \$8.95

ECONOMY THROATLESS SHEAR

Throatless shears are ideal all purpose metal cutting tools because they permit any desired cut in heavy gauge material, yet handle lighter materials without distortion. Unique shoulder design allows work to be turned in any position during the cut. Geared rack and pinion makes heavy metal cutting easy. Upper and lower blades are positioned to provide a clean, knurl-free cut, regardless of material. Features an 18" handle to give you plenty of leverage for cutting anything from aluminum to stainless steel. Replaceable 4" hardened alloy steel cutting blades. Overall dimensions: 8-1/4"L x 7"W x 27-1/4"H (with handle) 3 holes for mounting. Weight: 16.4 lbs.

HF3841..... \$209.95

EXTENDED REACH SHRINKER/STRETCHER

The new Dagger Tools shrinker/stretcher features a deep 8" working depth, and a 6" working height for unmatched versatility. Work all metals from straight sheets up to and including 2" wide angles. The heavy duty frame is cast from ductile iron and fitted with high carbon jaws to easily form 14 gauge aluminum or 16 gauge mild steel. Each unit comes complete with one

set of shrinking jaws, and one set of stretching jaws. Can be bench mounted or individual stand mounted.

DTSH-02 **\$879.95**

LANCASTER PUMPS® METAL SHRINKER/ STRETCHER

Shrinks and stretches metal to form gentle radiuses bends or to straighten out sheet metal. Shrinks metal down to a 2" or 3" radius. Works and forms metal up to, and including, 16 gauge. Mounts easily in a bench vise. Jaws are reversible to increase usage.

PART	DESCRIPTION	PRICE
4135	Metal Shrinker	\$205.95
4136	Metal Stretcher	\$205.95
4135/4136	Set of Both Units (4135 & 4136)	\$405.95
523	Replacement Shrinker Jaws	\$102.95
524	Replacement Stretcher Jaws	\$102.95
4135-524	Shrinker Stretcher Combo Unit 1 Metal Shrinker & 1 Stretcher Jaw	\$295.95

HAND NOTCHER

Forged blades cut 31° "V" shaped notch for forming sheet metal. Compound leverage handles for cutting power with less effort. Heavy duty plastic grips comfort hand and provide secure grip. Precision CNC milled cutting jaw with 1-3/16" (30.2mm) throat depth.

N1 **\$59.95**

RTN TUBING NOTCHER

The RTN100 (Ol' Joint Jigger) is a bench-mounted tubing notcher designed to make precision angular cuts in both round and rectangular tubing. By using inexpensive BIMETAL hole saws (not included), you can easily and economically notch all types of tubing ranging from mild aluminum to stainless steel.

- Easily adjusts in one degree increments to 45 degree notches.
- Notch any round tubing up to 2" OD in less than 30 seconds.
- Automatically centers and aligns round tubes.
- Can be used vertically or horizontally.
- Includes adjusting wrench and arbor locking pin.

RTN100 **\$175.95**

RTN100B (Base Adapter) **\$36.95**

HOLE SAW KIT

A set of 5 high-carbon hole saws in sizes: 3/4", 7/8", 1", 1-1/8" and 1-1/4" that ideally suited for tube cutting using a jig such as the RTN Tubing Notcher. Includes arbor and carrying case

K1090.....(Complete Kit)..... **\$109.95**

17 PC HOLE SAW KIT

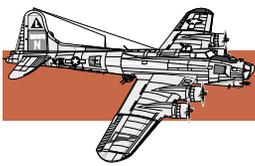

Includes: (1) each of 5/8", 3/4", 7/8", 1", 1-1/4", 1-3/8", 1-1/2", 1-3/4", 2", 2-1/2" & 3" hole saws, mandrels, and durable soft side case.

Made from carbon steel (HRC 65-66) and bi-metal construction, this hole saw kit is as tough as they come.

Compare this unit to the average hole saw and you will notice 4/6 variable pitch teeth. Ideally suited for hole saw applications such as, tubing notchers (RTN100), access and lightning holes.

3073004..... **\$99.95**

SHEET METAL TOOLS

JET™ COMBINATION SHEAR, BRAKE & ROLL

This tool combines the functions of a shear, bender brake, and a slip roller in one compact unit. The Shear can be used with mild steel, aluminum, soft metals, and plastics. The Brake has removable fingers that permit angle, channel, box and other complex bending operations. The Slip Rolls are precision turned and ground with wire grooves.

PRECISION CABLE TENSIO METER

optimanufacturing

The T60 is an industrial & military grade tensiometer accurate to within 5%. Simple, comfortable lever grip permits one hand operation without operator fatigue. A positive 3-point cable grip system prevents dislodgement when the instrument is hanging free on control cable. The accurate built-in gage eliminates guess work. It requires no risers for the various size cables. The gauge also has a "read hold" feature which allows you to take a reading in confined areas. Includes certificate of calibration conformance.

RANGE IN LBS.	CABLE SIZES	UNIT USED	ACCURACY
10-200	1/16", 3/32", 1/8"	C8	5%
30-200	5/32", 3/16"	C8 or C9	5%

 T60-1001-C9(150-450 lbs).....\$975.95

FLYING WIRE TENSIO METER

A simple, elegant, and extremely accurate flying wire tensiometer that's designed to be used in conjunction with a standard dial or beam type torque wrench. This tool is used for setting the tension on flying wires from 1/4 - 1/2 inch, and tension ranges from 200 lbs to 2400 lbs. Can also be used for setting drag, anti-drag wire tension. Ideal for use on Stearmans, Wacos, and Pitts, etc. To use this tool you'll need a torque wrench with a 1/2" drive. Please note that a flying wire's size is measured at the round, threaded end of the wire, not across the flat. Tie wires are also measured by the thread size and pitch.

HWT-1 (Tensiometer Only)\$259.95
 HWT-1KIT (Tensiometer & Dial Torque Wrench)\$499.95

COMPACT CABLE TENSIO METER

optimanufacturing

The extremely small size of this tensiometer permits entry through small openings, and permits accurate readings on cables located in confined areas. Each instrument is calibrated at the factory and is provided with its own calibration chart for the simple conversion of readings into pounds of tension. The chart also indicates the risers that must be used to accommodate various sizes and tensions. This tool is so easy to use that the entire testing operation can be done with one hand in a matter of seconds.

CABLE & WIRE

MILBAR PROFESSIONAL SAFETY WIRE KIT

This versatile safety wiring kit belongs in every professional's tool kit. It includes three Safetytwist® wire twisters that will cover any application. The kit includes a 6" Mini Twister with tapered nose, a 9" Spring Return Twister, and the 13W specialty twister that is adjustable from 9" to 12". Also included are three 1/4 lb. spools of annealed stainless steel wire (.020", .032", .041"). It's all packed in a durable plastic carrying case. (NSN 5180-90-986-8939).

105W.....\$209.95

ATS SAFETY WIRE DRILL JIG

This tool provides a fast and simple way to drill safety wire holes in the HEAD as well as the BODY of AN bolts, and studs. Works with all Hex Head, Allen Head, and Cap Head bolts from size 3/16" to 5/8." Includes holder, drill bushing (2), and 1/16" drill bits (2). Made from anodized 6061-T6 Aluminum for durability.

6061B.....\$59.95

MILBAR REVERSIBLE SAFETY WIRE TWISTER

Milbar's safety wire twister pliers can twist safety wire in either direction with a simple turn of a sleeve - a second tool is not needed for left handed twisting. The jaw design holds the wire firmly without nicks or scrapes. It also features a spring-loaded return for easy operation in tight areas. Made in the U.S.A.

25W..... (6")\$95.95

26W..... (9")\$95.95

BSI REVERSIBLE SAFETY WIRE PLIERS

The innovative, patent-pending, design of the BSI Safety Wire Pliers allows you to switch from right-handed to left-handed twisting at the flick of a switch. The locking mechanism is also a big improvement over older designs in that it won't accidentally unlock during twisting.

TH3602-BS (6")\$89.95

TH3902-BS (9")\$89.95

MILBAR SAFETY WIRE TWISTER

The Milbar right-hand safety wire twister has a diagonal nose for easier use in tight areas, and features an automatic spring return for faster operation. They are used throughout the aerospace industry as well as in the military. Made in the U.S.A.

11WS..... (6" Right Hand)\$79.95

1W393..... (9" Right Hand)\$79.95

5W4..... (9" Left Hand)\$95.95

HAND SAFETY WIRE TWISTER

The hand twister is a convenient way of twisting safety wire in very confined areas. The narrow shaft reaches into areas that are inaccessible to other safety wire tools.

134..... (8")\$8.95

134L..... (12")\$9.95

MILBAR SAFETY WIRE SPECIALTY TWISTER

Ideal for difficult access situations. Its deep, slender reach will take it into areas that just cannot be reached with ordinary safety wire pliers. Adjustable 9" to 12", right hand twist with manual return.

13W.....\$55.95

CABLE & WIRE

SAFETY WIRE

Stainless steel annealed, used to secure bolts, nuts or hardware subject to vibration. Comes in no waste 1 lb. dispenser cans. Type 302. MS-20995C; MIL-W-6713.

SAF-T BLOCKS

AERO BLOCK

NUT BLOCK

Unique design enables you to drill safety wire holes through the head of bolts or through nuts, across the diagonal. Accepts up to 3/4 inch diameter nuts and bolts.

MT002 (Nut Saf-t Block) \$33.95
 MT001 (Aero Saf-t Block) \$32.95

ATS EZ-TWIST SAFETY WIRE BIT

The EZ-TWIST safety wire twisting bit quickly snaps into any 1/4" bit holder (or chuck) for instant use. Simply string the safety wire through the bolt or nut to be wired and run the wire ends into the EZ-TWIST. Then, set your drill to forward (or reverse for left-handed twists), and twist away.

EZT3 (3") \$7.95
 EZT6 (6") \$8.95

ATS SAFETY WIRE TWISTERS

REVERSIBLE

NON-REVERSIBLE

ATS Safety Wire Pliers feature a smooth spring-loaded automatic return with a positive locking collar that will not pop back during use. They also have a tapered nose and built-in wire cutters for convenience. The non-reversible model is customer favorite due to its reliability and ease of operation, and the newer reversible model is a best-seller due to its rugged reversing mechanism that resists dirt and contaminants. The reversible pliers switches from right-handed (clockwise) to left-handed (counterclockwise) twisting at the flick of a switch. This allows you to change directions on the fly without having to resort to a second tool. Excellent for series wiring where you must switch directions with each bolt. These are the twisters I want in my tool box!

6WR..... (6" Reversible) \$79.95
 9WR..... (9" Reversible) \$79.95
 6WA..... (6" Non-Reversible) \$25.95
 1WA..... (9" Non-Reversible) \$25.95

TURNBUCKLE RIGGING KITS

TB12K
(TB01 & TB02)

TBR-KIT
(ADE4U & TB02)

"This product just about paid for its self with the first use, I use it on all aircraft cables that I work on" ~ K. Brown

Adjusting cable turnbuckles no longer has to be a dreaded ordeal, and you won't need three hands to do it. With our new Turnbuckle Rigging Kit you'll get a complete solution that consists of our Turnbuckle Rigging Tool (p/n ADE4U) to hold the terminal ends of the turnbuckle in place and keep the cable from twisting as you turn the barrel. And you also get our new Turnbuckle Wrench (p/n TB02) to make turning the barrel a piece of cake. The wrench clamps around the barrel (MS21251 style) and gives you the leverage to effortlessly turn it. This kit is a real time saver that will let you adjust turnbuckles through inspection holes quickly and with minimum effort.

TBR-KIT (Rigging Kit) \$45.95
 TB12K (Close Quarters Rigging Kit) \$49.95
 ADE4U (Rigging Tool Only) \$18.95
 TB01 (Close Quarters Rigging Tool Only) \$24.95
 TB02 (Turnbuckle Wrench Only) \$29.95

CABLE & WIRE

LOOS & CO. CABLE PRODUCTS

LOCOLOC® KEARNEY CABLE SWAGING MACHINE

This portable, hand operated roll type swaging machine will swage MS and AN type terminals onto galvanized and stainless steel cables from 1/16" diameter up to and including 3/16" diameter. You may purchase the tool only and get only the dies you need, or you can purchase the complete kit. The kit includes the machine, a full set of roll dies, terminal gauges, feed guide adapters, and a steel carrying and storage case.

LOCOLOC® CABLE SWAGER KIT

This kit contains everything you need to swage cable sizes from 1/16" up to 3/16". It has an assortment of oval and stop sleeves, AN steel thimbles, compression gauge, steel tool box, plus the 1 swager, and the C-7 cable cutter.

CSS-1 \$999.95

HAND SWAGER

Multi-compression hand swager with cable cutter. Swages 1/16", 3/32", 1/8", 5/32", and 3/16" oval and stop sleeves, plus 7/32" stop sleeves, total of 11 sizes plus the ability to cut up to 7/32" diameter aircraft quality steel cable (1SC only). A tool with a dozen functions! Only 26" long. Shipping weight 6.5 lbs.

1SC (LOOS & CO. LOCOLOC® Model) \$279.95

BENCH SWAGER

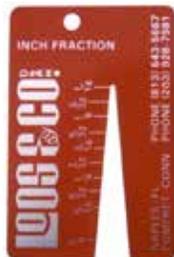

For in-shop one location jobs. Multi compression jaws swag 1/16", 3/32", 1/8", 5/32" and 3/16" oval and stop sleeves plus 7/32" stop sleeves. 22.5" long, 6.25" high. Shipping weight 6.6 lbs.

1BSC..... (LOOS & CO. LOCOLOC® Model) \$459.95

TYPE	DESCRIPTION	FIG
A	Insulated Terminals & Splices: 22-10 AWG red, blue and yellow terminals and splices.	
B	Coax Terminals: BNC, TNC, Mini-UHF, RG-58, 141, 142, 303, 400, 59, 62, 210, RG6, 212, 222, 304, Belden 8279, 8281, 9231, 9141.	
C	Open Barrel Contacts: 30-20 AWG pins and sockets found in most AMP, MOLEX, ITT, Cannon, and other connector plugs.	

TERMINAL CRIMPER DIES

These replacement dies will fit into the Professional Ergonomic Crimpers (E902 series), as well as the Economy Ratchet Crimpers (E300 series). Each die is drop forged from tool steel and hardened.

- E300-058.....(Type A).....\$15.95
- E300-038.....(Type B).....\$15.95
- E300-039.....(Type C).....\$15.95

ECONOMY RATCHET CRIMPERS

Powerful full-ratcheting crimper with safety release and adjustable crimp pressure. Very comfortable rubber handles and ergonomic design makes it easy to install multiple terminals without fatigue.

- E300-002..... Insulated Terminals (Type A) \$35.95
- E300-003..... BNC Terminals (Type B) \$35.95
- E300-005..... Open Barrel Terminals (Type C)..... \$35.95
- E300-054.....(Frame Only).....\$27.95

PROFESSIONAL ERGONOMIC CRIMPER

Full-ratcheting crimper with an ergonomic angled shape that reduces the exertion required to crimp terminals by as much as 60%. Adjustable crimp pressure control wheel with safety release. Comfortable rubber handles will not slip or stress your hand.

- E902-152..... Insulated Terminals (Type A) \$39.95
- E902-137..... BNC Terminals (Type B) \$39.95
- E902-138..... Open Barrel Terminals (Type C)..... \$39.95
- E902-085.....(Frame Only).....\$29.95

QUICK INTERCHANGE CRIMPER FRAME

This crimper provides high quality crimps due to the precision dies and integral lock. The CP-3005F also allows for interchangeable dies sets to be used for a wide range of applications. Uses our E300 dies. (Not Included)

CP-3005F.....\$32.95

NON-INSULATED TERMINALS RATCHETING CRIMPER

- Non-insulated spade/ring terminals
- AWG 22-16, 16-14, 12, 10
- JIS 1.2, 2.0, 3.5 5.5 mm²
- DIN 1.5, 2.5, 4.0, 6.0 mm²

This non-slip energy saving Ratcheting Crimper is made of high quality carbon steel with black oxide finish for anti-rust. The high leverage handles and compound action mechanism provide a superior mechanical advantage compared to the generic crimper.

CP-151B\$34.95

NON-INSULATED TERMINALS RATCHETING CRIMPER

- AWG 12-10, 8, 6, 4
- DIN 4-6, 10, 16, 25 mm²
- JIS 5.5, 8.0, 14, 22 mm²

Save up to 35% energy with this new mechanism Ratchet Crimping Tool! The accurate crimping mold and self locking / releasing mechanical unit design ensure high crimping quality when crimping repeatedly. Designed for use with non-insulated terminals, this crimper is ideal for electronics and electrical purposes.

CP-353\$55.95

ELECTRICAL

XCELITE® CRIMPERS

U.S. made Xcelite crimpers are used throughout the aviation industry to install terminals and splices of all types. Features full-cycle ratchet to ensure a complete crimp every time. Meets or exceeds UL® standards for terminals from Molex, AMP, ITT, 3M, T&B, and others.

MAC2210 Insulated Terminals (Type A) **\$127.95**

MIC3020BL Open Barrel Terminals (Type C) **\$137.95**

HEAVY GAUGE RATCHETING CRIMPER

Powerful ratcheting crimper makes short work of attaching terminals to heavy gauge wires and cables in sizes AWG 12-10, 8, 6, and 4. Features new generation of energy saving crimper designed and high leverage handles to provide superior mechanical advantage.

CP-351B **\$59.95**

LUG TERMINAL CRIMPER

All metal tool, for crimping terminals to heavy gauge wires from size AWG8 to 250MCM. Adjustable depth knob controls the amount of crimping. Includes built-in go-no-go gauge. 22" Overall length.

E300-107 **\$129.95**

ELECTRICAL TERMINAL CRIMP KIT

- Heavy duty ratcheting crimper with rubber handles (E300-002)
- 30 Butt splices 22-16 AWG
- 15 Butt splices 12-10 AWG
- 50 Ring insulated 16-14 AWG
- 20 Butt splices 16-14 AWG
- 50 Ring terminals 22-16 AWG
- 20 Ring terminals 12-10 AWG

An economical electrical terminal kit that includes a heavy-duty ratcheting crimper (Type A) with rubber comfort grips, plus an assortment of insulated terminals and splices. Crimper features an adjusting wheel to control pressure, plus a safety release mechanism.

E500-037 **\$57.95**

MULTI-FUNCTION WIRE STRIPPER/CRIMPER

Self-adjusting wire stripper safely removes insulation from AWG 24 to 10 wires. Crimper section installs insulated and non-insulated terminals from AWG 22 to 10 Steel construction.

E200-070 **\$22.95**

ELECTRONIC MAINTENANCE FIELD KIT

A complete field maintenance kit for on the spot electrical repairs.

- 7 Pc Hex Key Set
- 5" Side Cutters
- 6" Combination Pliers
- 6" Long nose Pliers
- Desoldering Pump
- Soldering Iron, Stand & Solder
- PVC Electrician's Tape
- Digital Multimeter
- 8 Pc Screwdriver Set
- (3 Phillips, 3 Flat, 2 Nutdrivers)
- Zippered carrying case

E500-032 **\$99.95**

MILBAR® MULTI-PURPOSE ELECTRICAL CRIMPER

The Multi-Purpose Crimper will crimp open barrel, closed barrel, or flag terminals. It also has a bolt cutter section to cut bolt sizes: 4-40, 6-32, 8-32, 10-32 & 10-24.

- 25E** (Milbar) **\$59.95**
- CP-413G** (Eclipse Stripper/Crimper) **\$9.95**

AUTOMATIC WIRE STRIPPER

Classic style wire stripper cleanly removes insulation from wires in sizes AWG-22, 16, 14, 12, 10 and 8. Constructed of Die Cast Aluminum for durability.

- E200-003** **\$16.95**

3PC MINI ELECTRICAL TOOL SET

Set includes a cutter, stripper, and crimper. Overall length of tools is 5-1/2". For hard to reach applications. Spring loaded to reduce fatigue.

- 11476** **\$26.95**

4-WAY INDENT DEUTSCH TERMINAL CRIMPER

This economical Crimp Tool delivers the same type of crimp as the more expensive MIL-Spec tools at a fraction of the cost! At only 6 1/2" long, this tool maintains a full cycle ratchet that insures a complete and perfect crimp each and every time. Use with 12-20 AWG closed barrel terminals.

- E902-499** **\$34.95**

HEAVY DUTY CABLE CUTTER

This heavy duty round cable cutter will handle copper and aluminum cable up to 32 mm in diameter. The ratcheting force-saving design and molded handles makes for easy operation. Durable steel construction for a long lasting lifespan.

- E200-006** **\$125.95**

COAX CABLE STRIPPER

Twin blade design safely removes the outer and inner insulation from coaxial cables. Just clip it onto the cable, and give it a couple of spins to prepare the coax for a BNC connector. Works with RG-58/59/62 and 6 cables.

- E200-004** **\$13.95**

WIRE STRIPPER/CUTTER

At only 6" long, this wire stripper/cutter fits the hand very comfortably. The cutting jaws easily cut up to 14 AWG copper wire. At the other end is an automatic stripper that cuts and removes insulation from 26 AWG to 14 AWG wire.

- ELB250** **\$9.95**

FOD CATCHING NIPPERS

Heavy duty nippers with wire catching clip to trap snipped wire ends before they can fly off and cause damage.

- 2178M** (Xcelite® Brand, USA) **\$13.95**
- E200-082** (Heavy Duty ESD Safe) **\$9.95**

ELECTRICAL

GAS AUTO IGNITE SOLDERING IRON

The perfect addition to your toolbox! A soldering iron with auto ignition for easy starting and operation under any condition. The transparent nylon gas tank shows you your fuel level at a glance. And the heating element is ceramic for a long service life. Refills easily from any butane dispenser. Comes complete with accessories and plastic case.

GS-23K \$68.95

ESD SAFE SOLDERING STATION

The stabilized precise temperature control of this station makes it ideal for use with delicate circuitry without danger of overheating. It is also ESD (Electro-Static Discharge) certified, which means that it will protect sensitive circuits from static discharge (the leading cause of bench-level circuit failure) while you're working on the part.

SS-207E (Digital Display) \$99.95
SS-206E (Analog Display) \$75.95

QUICK CHARGE CORDLESS SOLDERING IRON KIT

The Quick Charge Soldering Iron is a rechargeable soldering iron kit. It's ideal for the shop or field mechanic who needs a reliable and consistent soldering tool when making critical electrical repairs. It has a power rating of 25 watts and reaches 900°F in less than ten seconds. The complete kit includes: rechargeable soldering iron, charging stand, a fine tip, a heavy-duty tip, battery and instructions.

7700 \$52.95

BUTANE SOLDERING IRON

The world's most popular pocket-sized butane soldering iron specifically designed for the hobby/DIY enthusiast. Features include: soldering temperature of 410-750°F, torch temperature 2400°F, 5.5" OAL and ready to use 20 seconds after ignition. Kit includes: Soldering Iron, conical tip 7992, protective cap with igniter instructions. Does not include butane fuel.

7971 \$25.95

MINI SOLDERING STATION

A 14 watt mini soldering iron that features variable temperature control, from 0 to 330 degrees Celsius (626 degrees f). Super slim pen like style provides greater control and versatility. Special designed to repair delicate avionic equipment. Dual voltage AC110/220V.

E900-259 \$45.95

WELLER® PRO CORDLESS SOLDERING IRON

Portable battery operated soldering iron is perfect for field maintenance work.

- 950 °F heat in under 15 seconds
- 150 solder joints per battery set
- White LED illumination light
- Includes batteries, lead free solder, 2 tips, and wrench
- 7 year warranty

BP865MP (Soldering Iron) \$22.95
BP10 (Replacement Tip) \$9.95

SILVER BEARING SOLDER PASTE

Provides strength without distortion. Superior electrical conductivity and is resistant to stress and vibration. Disposable 7.1 gram syringe makes it convenient and easy to apply. Works with a match, lighter, soldering iron or torch.

7459..... \$5.95

DESOLDERING PUMP

This mini desoldering pump is small enough to operate with one hand. It delivers a precise vacuum to remove molten solder from circuit boards.

DP-366J..... (Mini)..... \$4.95

DESOLDERING TOOL

Great for electrical repair work where wires or components must be removed and resoldered. One-shot vacuum action cleanly removes excess solder from the work area.

E900-001N \$5.95

3PC SOLDERING SPONGES

A good sponge is just as important as having a good quality iron. Keep your tips clean. This is a package of 3 sponges that can be cut to any size for use in soldering stands.

E902-335..... \$17.95

PRYING/SPUDGER TOOL ASSORTMENT

This set contains 5 tools for opening and prying small electronic components without damaging the housing or parts. Use the prying paddle and opening levers to prevent scratching or chipping the housing. The aid tool is made of reinforced nylon and is handy heat resistant tool. Ideal for catching and bending small wires or opening cases.

1PK-3179..... \$8.95

6PC SOLDERING AID SET

- Tool-Tips:
- Chip Holder
 - Needle
 - Lever
 - Hook
 - Fork Shaft
 - Knife
 - Scraper
 - Brush

The set consists of 6 double-ended tools with pick and brush tips. This kit is specially designed to aid you in protecting your heat sensitive components during soldering.

E900-100..... \$6.95

LIQUID DISPENSER

Polyethylene liquid dispenser bottle feature a unique pump mechanism that prevents back wash of containments into the container. Ideal for dispensing solvents and cleaning solutions. Plastic bottle is chemically inert and will not react with or contaminate contents.

E900-251..... (4 oz)..... \$5.95
E900-252..... (6 oz)..... \$6.95
E900-253..... (8 oz)..... \$7.95

HOLLOW SHAFT NUT DRIVER

Bondhus Hollow Shaft Nut Drivers have a hexagonal upper shaft for use with a wrench for increased torque. They are made with a non-slip grip, anti-roll handle with an ergonomic design and a high strength, chrome plated shaft.

Includes sizes 3/16, 1/4, 5/16, 11/32, 3/8, 7/16, and 1/2-inch.

48445..... \$25.95

DUAL WATT SOLDERING IRON 15-30W

The high-quality tip of this Soldering Iron is built for a long lifespan of use. The iron features a soft-grip ergonomic handle and a three position switch on the handle to easily switch between off, 15W, and 30 Watt settings. Suitable for lead-free soldering for RoHS.

E902-512.....\$19.95

AUTO IGNITION GAS SOLDERING IRON

This professional soldering iron and gas torch features an easy to use auto ignitor and a precision control system for accurate heat delivery. The built in stand keeps the tool and workspace safe when not in use. It includes a needle soldering tip for precise electrical work, as well as a torch for use with shrink tubing and brazing.

GS-210.....\$47.95

SPRING HOOKS

This tool is equipped with both a spring hook and pull tool making it ideal for pushing or pulling small springs and wires.

E902-070.....\$3.95

E902-073.....\$3.95

CANNON PLUG PLIERS

It is a pliers that I have needed for decades and did not know it. It is very light and opens tight joints without marring the surface. ~ R. Pendergast

Designed to safely install and remove Cannon plug collars. Incorporates removable plastic inserts which will grip on smooth, oily or serrated surfaces. Adjustable from 3/4" to 2-1/2" grip diameter.

AT508K (ATI Brand).....\$29.95

52910N (Crescent® Brand)\$34.95

DIAMOND-COATED FLEXIBLE FLAT FILES

Super Hard, Diamond-Coated, Flexible Flat Cleaners for Large Spade Electrical Contacts as well as General Filing Applications. The three-piece pro series, Diamond-Coated Flexible Flat Point & Contact Cleaners feature highly durable, super hard, and abrasive diamond coating for cleaning and enhancing electrical connections to increase contact life.

8047.....\$29.95

DIAMOND GRIP TERMINAL CLEANER

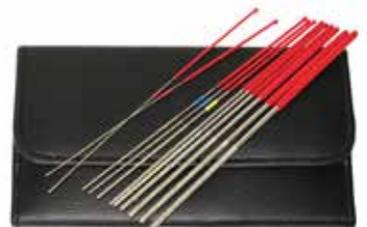

These patent-pending IPA 3-piece terminal cleaners feature a highly durable and abrasive coating for cleaning small spade pin electrical connectors. They work on both male and female connectors for flat pin or spade-style terminals to remove corrosion and extend harness life. The base of the handles features a bonus abrasive coating for general large-contact maintenance.

All three cleaners are stored in their own premium-quality holster with a magnetic clasp.

8040.....\$27.95

DIAMOND-COATED ROUND MICRO FILES

Super-hard diamond coated round micro files will clean your smallest connectors like a pro. A set of 12 round files in various grits and diameters.

8042.....\$36.95

OVERHEAD LIGHT REMOVAL TOOL (WEMAC)

A great tool to quickly and safely remove WEMAC overhead (eyeball) cabin light & air vent housings for servicing.

- Works on Beechcraft, Cessna, Embraer, Sino Swearingen, and more
- No more damage to the housing when removing
- Manufactured with high friction elastomer tip for maximum grip
- 3-5/8" (9.2cm) high by 2-1/8" (5.4cm) diameter

WEMAC-1\$29.95

ANALOG MULTIMETER

Analog multi-meters give you instant visual cues about what's going on in a bad circuit. Watch the needle and you can tell you if you've got an intermittent short, an oscillating power supply, or any of the hundreds of other "analog" conditions that you just can't easily see by watching the numbers of a digital multi-meter. 1 year warranty

AM35UL \$14.95

3 1/2 DIGITAL MULTIMETER

The Eclipse MT-1233D digital 3-1/2 multimeter is perfect for students, and professionals alike because of its user interface and size. This palm sized device has functions such as a backlight, data hold, low battery indication, and overload protection indication. The MT-1233D complies with the newest CE safety standard.

MT-1233D \$15.95

ANALOG MULTIMETER

The eclipse MT-2017 analog meter is perfect for field maintenance and complies with 2008 CE safety standards. It has a mirrored aluminum dial plate for easy reading. It can be used for resistance, current, and voltage measurements. The MT-2017 has a 20kOhm/V DC and 9kOhm/V AC input sensitivity. This zero center meter also features a continuity buzzer, battery

test, and transistor hFE test. Includes test leads, and carrying case.

MT-2017 \$29.95

DIGITAL MULTIMETER

This rugged multimeter is designed to give reliable, accurate readings under the most extreme conditions. Measures voltage, amperage, resistance, continuity, capacitance, temperature, frequency, and diode checks. Positive stop rotary switch selects any of over 40 different functions. 1 year warranty.

MI-128U (Heavy Duty) \$39.95

MT-1232 (Economy) \$41.95

DIGITAL MULTIMETER

A digital multimeter that measures AC/DC voltage, DC current. This product checks resistance, continuity, and diode integrity. Auto ranging with a auto power off. Low battery indicator. Fast sampling rate.

DMM333 (Credit Card Style) \$39.95

DMM45 (Auto Ranging w/ Backlight) \$29.95

ECONOMY DIGITAL MULTIMETER

This palm sized device has functions such as a backlight, data hold, low battery indication, and overload protection indication. The MT-1233D complies with the newest CE safety standard.

MT-1233C \$18.95

PEN STYLE MULTI METER

The Eclipse MT-1630 pen style meter is a compact light weight tool that is simple to use and features a penlight that illuminates the point to be measured. This small pen sized multimeter provides a unique protection mechanism for the test probe for safety. It also features an auto-off power function to save battery life.

MT-1630 \$39.95

3M WIRE MARKER TAPE WITH DISPENSER

A convenient method for marking wire, cable, and terminals. Tape has numbers from 0 thru 9. Self adhesive, oil and solvent resistant.

233A2 \$59.95

BATTERYMINDER® AVIATION BATTERY CHARGER/MAINTAINERS

The Aviation BatteryMinder was rated 1 by Aviation Consumer! They are designed exclusively for use with FAA and/or PMA approved batteries manufactured by Concorde, Gill and EnerSys.

- Fully automatic 3 stage charging
- Patented random sweep desulphation
- Polarity reversal indicator
- Short circuit and reverse polarity
- Auto-reset thermal breaker
- Rejects damaged battery
- Spark-proof
- Optima/AGM/Lower Temp. Mode
- Built-in battery condition indicators
- Automatic temp compensation

SCHAUER® AVIATION BATTERY CHARGERS

Schauer's intelligent charger design follows the battery impedance to the end of the charge cycle for all battery types, thus ensuring a full charge with virtually no danger of overcharging or cooking the battery.

- Charge control: constant current charge to a constant voltage, then float standby.
- Fully automatic 3 stage charger can be left on the battery in maintaining mode.
- For any type lead-acid battery, including conventional, maintenance free, deep cycle, gelled-type, valve regulated batteries.
- Finishing voltage: 2.28V per cell float; 2.4V per cell finishing.
- Will start charging a deeply discharged battery with less than 4 volts.
- Current limiting, and short circuit proof
- Reverse polarity protection (except 2 amp models).

PLUG AND JUMP GROUND POWER PLUG

The Plug & Jump is a very light weight portable unit. It can be used to start your aircraft using standard jumper cables and a car. The Plug and Jump comes in two models; The Universal Model for Cessna, Beechcraft, etc. (3 pin plug) and the single pin model for the Piper. It is not a battery in itself, but a simple conduit of power from any external power source to the aircraft. The Plug & Jump can be used for either 28 or 14 V systems.

- 11807..... (3 Pin Unit - Cessna) \$79.95
- 11808..... (Single Pin Unit - Piper)..... \$95.95

SCHAUER® AVIATION BATTERY CHARGER/GROUND POWER UNITS

JAC2512-3

JAC2024H-1

Schauer's new battery charger/GPU features computer-controlled battery charging, plus enough cranking amps to start the airplane if the battery is completely dead.

- Charge control: constant current charge to a constant voltage, then float standby.
- Fully automatic 3 stage charger can be left on the battery in maintaining mode.
- Can be set for any type lead acid battery, including conventional, maintenance free, deep cycle, gelled-type, valve regulated batteries.
- Cyclic voltage: FLOODED 2.5 volts/cell; GEL & AGM 2.4 volts/cell. 2.6 volts/cell for 36 & 48 volt batteries. May be preset to customer's specification for battery type.
- Will start charging a deeply discharged battery with less than 4 volts.
- Current limiting, Reverse polarity, and short circuit proof.

BATTERY BRUSH

Cleans dirt and corrosion from battery terminals and cable clamps. The external brush cleans cable clamps and internal brush cleans terminal posts. Case is made of high impact plastic that will not weaken in cleaning solutions.

11120..... \$7.95

BATTERY CARRIER

Sturdy steel jaws securely hold batteries. Spring-action handle turns lifting power into battery gripping pressure. Form-fitting handle provides a solid gripping surface for your hand. Carrier works on nearly all batteries, from motorcycles to boats. Saw-tooth jaw tips provide no-slip battery gripping power. Carrier grips the battery just below the top lip for good balance. A heavy-duty tool that is built to last. Opens up to 10".

57850..... \$12.95

BATTERY TERMINAL SOCKET

This patented new socket design is the innovation of an A&P mechanic who decided to solve the problem of battery terminal damage once and for all. The result is a tool that removes and installs terminals effortlessly and without damage to the nuts or posts. The unique torque-limiting feature controls the amount of torque you can place on the terminal so that you're much less likely to strip it or snap the stud. Made of non-conducting ABS plastic Uses any six point socket or box end wrench.

AGE01 \$13.95

IMPERIAL® BATTERY CABLE CUTTER

A powerful set of cutters specifically designed to cut through copper battery cables. Easily cuts through cables as thick as 2/0 gauge. Cushioned grips for comfort. Not for use on steel cables.

BS103 \$19.95

TOOLMAKER UNIVERSAL MEASURING SET

Set includes: 6" dial caliper - .001" graduations; 0-1" outside micrometer - .0001" graduations; and a 6" flexible rule with 32nds, 64ths, 10ths, & 100ths graduations. All contained in a fitted, shop-hardened case.

52-095-007 \$150.95

6" DIAL CALIPER

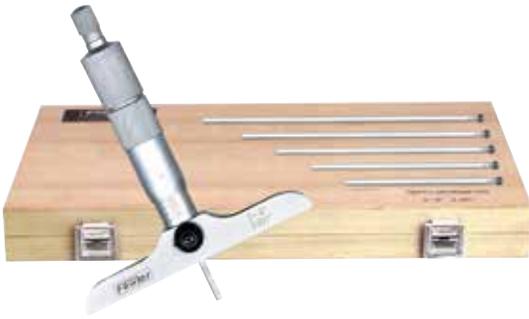

The rugged, 6" Dial Caliper is made from hardened stainless steel for the utmost in accuracy and durability. The large, clear dial accurately reads to .001 and has an adjustable bevel for zero setting. The body of the caliper features a satin chrome scale with etched graduations, and a covered rack prevents dirt and chips from entering the gear mechanism. There is also an adjustable stop rod for taking depth measurements.

GT107 \$47.95

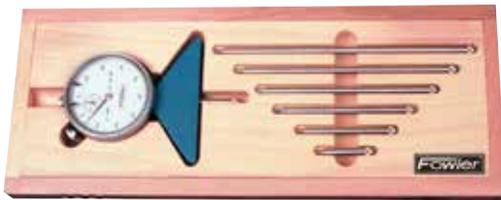

ECONOMY DEPTH MICROMETERS

- Satin chrome finish
- .001" Graduations
- 4" wide base
- Base surface hardened, ground and lapped
- Ratchet thimble
- Locking clamp
- Includes wooden case.

UTILITY MICROMETER

The satin chrome barrel and thimble offer easy to read etched black graduations, and the spindle is equipped with a lock for taking repetitive measurements.

GT102 **\$23.95**

DEPTH/ANGLE GAUGE

The easy-to-use Depth and Angle Gage allows you to accurately measure and mark the outside, inside and sloped angles of a surface. The hardened steel base is grooved on both sides to deliver accurate setting of the ruler at 30, 45 and 60 degree angles. The rule can also be used as a depth gage for measuring small holes and slots.

GT444 **\$23.95**

STEEL PROTRACTORS

The 6" adjustable arm is ideal for setting bevels, taking measurements and transferring angles. Ultra-fine etched graduations read from 0 to 180 degrees in forward and reverse directions, and will not wear or rub off. Made of ground stainless steel for precision and durability.

- GT17 (Mechanical) \$16.95
- GT1702 (Electronic) \$29.95
- GT19 (Protractor / Depth Gage) \$20.95

ECONOMY OUTSIDE MICROMETERS

- .0001" reading
- Carbide tipped anvils
- Ratchet thimble and locking nut
- Microfine graduations
- Includes standards on sets and sizes over 1"
- Also includes wrench and fitted case

ATS DIGITAL PROTRACTOR

- Large LCD display
- Self Calibrating
- Resettable zero point for relative readings
- Accurate to within +/- 0.1 degrees
- Reads all angles in a 360° range

This new ATS Digital Protractor provides absolute measurement and relative measurement to an accuracy of 0.1 degree. The 2.75" wide by 1.50" high LCD screen display automatically flips upright when the upside down. It's self calibrating and delivers repeatable readings to within +/- 0.05 degrees (0.1 degree overall accuracy of level or plumb). The frame is extruded aircraft grade 6061 aluminum, with precisely flat measuring surfaces, and the upper surface has a V-groove to aid measurement on curved surfaces. Includes carrying case with belt clip.

ATS360..... **\$149.95**

360° DIGITAL PROTRACTOR (PRO360)

This precision instrument is engineered to be accurate to within 1 degree of level and plumb, it provides a full 360 degree reading so that the unit may be used accurately, even upside-down. Reading hold feature lets you take a reading in any situation. Extra large LCD readout for easy viewing. Machined aluminum frame will take just about any punishment. Batteries are included. 1-year warranty.

PRO360 **\$249.95**

DIGITAL TORQUE ADAPTER/CALIBRATOR

- 1/2" or 3/4" drive available
- Measures in: Kg-CM, Kg-M, in-lb, ft-lb, and N-m
- Range: 50-600 ft-lbs
- LED backlight
- Swivels 240 degrees
- Screen flips 180 degrees
- 10 Memory settings

This digital torque adaptor also serves as a calibration device for torque wrenches. Use it to convert any ratchet wrench into a digital torque wrench. Can also be used to verify the calibration of any type of torque wrench. Includes a calibrating block.

23153..... (3/4" Drive) **\$189.95**

23154..... (1/2" Drive) **\$57.95**

TRUTACH II DIGITAL PROPELLER TACHOMETER

The all digital TruTach II measures propeller RPM to a remarkable accuracy of 1 RPM. It features a digital signal filter that eliminates noise and gives solid readings. TruTach II works on single or multi-engine propeller aircraft with 2, 3, 4, or 5 blades, and it never needs adjustment. Easily check calibration anytime with a standard light. RPM Range 240 - 7000 RPM. Uses a standard 9 Volt battery (included). Compact 3.8 x 2.4 x 1.5 inches and weighs just 4 Ounces. Includes impact resistant carrying case. 5 Year Warranty. Designed by Pilots for Pilots.

TRUTACH2 **\$229.95**

PROPELLER PROTRACTOR

The Warp Drive Protractor is an economical device that accurately sets the pitch of your propeller blades to within 1/4 degree. It can also be used for a variety of other applications such as wing surfaces, flaps, tail sections or anything needing to be measured in degrees. The Warp Drive Protractor makes it easy to prepare the propeller for adjustment by: (1) setting the blades to horizontal, (2) set the hub to vertical, (3) and finally measure the blade pitch. And with the protractor locked in place on the blade, you can adjust the pitch to required standards.

WD-PP1 **\$42.95**

TEST & INSPECTION

ATS "INSPECTOR" VIDEO BORESCOPE

Includes 3 Mirrors

Scan To View Video.

As featured in
KITPLANES
YOUR HOMEBUILT AIRCRAFT AUTHORITY

The ATS-VS21, and ATS-VS22 video-scopes were favorably reviewed in the August 2015 issue of Kitplanes magazine.

The ATS-VS21 has the same specifications as its sibling, the ATS-VS22, but does not articulate. That means you'll get the same excellent image quality, and full 640x480 VGA recording. It too comes with a set of 3 tip mirrors for side viewing, and also features the innovative "glare-free" side lighting technology to eliminate mirror spots and glares. The probe is made of a durable semi-rigid PTFE material to resist scuffing, and it is watertight to IP67 standards.

So whether you choose the articulating ATS-VS22, or the rugged, watertight ATS-VS21, you will receive the same outstanding image quality and features that has made these videoscopes best-sellers.

- 5mm (0.20") diameter probe fits spark plug holes
- 1 meter (39.4") semi-rigid IP67 watertight shaft
- Side lighting virtually eliminates tip mirror glares and streaks
- Includes 3 tip mirrors: 70° forward, 90° right, 110° rear
- 70° Field of View (FOV)
- Focal Range: 15mm to infinity
- Illumination from 4 forward LEDs (and 2 glare-free LEDs)
- 3.5" high resolution full color LCD display
- Records video and images at full 640x480 VGA onto SD card
- Built-in rechargeable battery lasts up to 6 hours

ATS-VS21 **\$849.95**

ATS BORESCOPE HOLDING TUBE

The ATS-VS22H Holding Tube lends support to the flexible probe and gives it the rigidity that is necessary to reach into deep recesses while maintaining the precise control and freedom the new videoscopes offer.

ATS-VS22H..... **Holding Tube** **\$59.95**
ATS-VS22K..... **Field Kit with bag and tube** **\$125.95**

ATS BORESCOPE FIELD BAG

The ATS-VS22B Field Bag will give you the extra hand needed to perform a full inspection. This heavy duty protective bag made of durable ballistic nylon will keep your valuable video scope safe from harm in the field. It includes a set of harnesses that wraps around your neck and waist and suspends your unit.

ATS-VS22B **Field Bag** **\$69.95**
ATS-VS22K **Field Kit with bag and tube** **\$125.95**

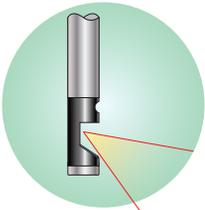

ATS "VOYAGER" VIDEO BORESCOPE

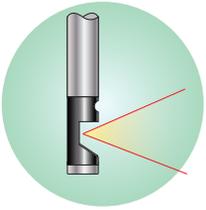

**240° TWO-WAY
ARTICULATION**

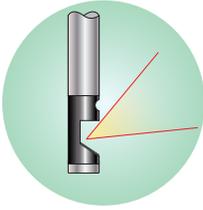

Includes 3 Tip Mirrors

70° Forward Oblique

90° Right Angle

110° Rear Oblique

- 2-Way Articulation 120° side to side (240° total)
- 6mm (0.24") diameter probe fits spark plug holes
- 1 meter (39.4") flexible shaft
- Side lighting virtually eliminates tip mirror glares and streaks
- Includes 3 tip mirrors: 70° forward, 90° right, 110° rear
- 70° Field of View (FOV), Focal Range: 15mm to infinity
- Illumination from 4 forward LEDs (and 2 glare-free LEDs)
- 3.5" high resolution full color LCD display
- Records video and images at full 640x480 VGA onto SD card
- Built-in rechargeable battery lasts up to 6 hours

Scan to View
Video.

Videoscopes have all but replaced traditional fiberscopes for endoscopic inspections -- and with good reason. They have much higher resolutions; they have no fibers to break; and most importantly they can record real-time video and still images of the inspection area. That's the key to a videoscope: you can record your inspections on SD cards and store them with your maintenance logs. It's an excellent way to document maintenance issues, train mechanics, monitor progressive conditions, provide evidence of work, etc.

The state-of-the-art ATS Voyager videoscope features an articulating tip that swings 240 degrees to reach every inspection point of an airplane. With a simple turn of the control knob, you can move its Stainless Steel-sheathed tip from side to side to look left, right, and even backwards, giving you unprecedented access to areas that simply cannot be reached with a straight probe. Included with the ATS Voyager are three (3) tip mirrors to look 70°, 90°, and 110° to the normal line of sight. And on that score, the ATS Voyager features a remarkable innovation that places an extra set of LED lights to the side of the probe, which when activated, successfully eliminates the glare and spots that are sometimes present when looking through a mirror. The result is an absolutely crystal clear, well lit, image through the tip mirror. The camera captures video and stores them onto an SD card. The 3.5" display shows images with excellent clarity. The flexible 1 meter probe bends to any shape, while the sealed 6mm tip will resist dirt, scratches, and abrasions associated with normal use.

ATS-VS22 (Complete Kit) \$1,399.95

INSPECTION MIRRORS

All angle ball joint. Insulated vinyl grip.

PART	FACE	DESCRIPTION	PRICE
S22	3-1/2"x2"	16" Telescoping	\$10.95

INFRARED THERMOMETER -26°F - 842°F

This infrared thermometer from Titan is ideal for measuring the surface temperature of objects. The gun's temperature reading can range from -26 Degrees Fahrenheit to 842 Degrees Fahrenheit (-32° C to 450° C).

55010.....\$29.95

INFRARED THERMOMETERS

Ideal for most applications in HVAC/R, plumbing and heating, electrical, automotive and other industrial jobs. Printed in USA IRT206SS 2.5M 6/11 The IRT206 Heat Seeker is a precision measuring device used for obtaining accurate temperatures without having to contact the object being measured. It works by capturing and measuring the invisible infrared energy naturally emitted by all objects. It offers an easy and safe way to measure surface temperatures of objects which are difficult or unsafe to contact. The Heat Seeker has a rugged, ergonomic design and features a backlit LCD display with built-in laser sighting. The IRT206 has a measurement range of -4° to 604°F (-20° to 320°C) and utilizes a switchable on/off laser pointer for target location. The practical distance-to-spot ratio of 8:1 is suitable for most consumer and commercial applications.

IRT670 (1400° F) \$209.95
 IRT206 (604°F) \$55.95
 IRT657 (1076°F) \$49.95

BINOCULAR MAGNIFIER

The Binocular Magnifiers offer powerful, crisp magnification of your detailed projects while simultaneously leaving both of your hands free to work. The ground and polished optical lens is mounted to a tilt-up frame, allowing you to disengage the magnifier without removing the entire assembly from your head.

GT950-5 \$34.95

BRIGHTYES PRO

The perfect solution when you need a flashlight, but you need both hands free. It places two high-intensity beams wherever you look and allows both hands free to work. Batteries included.

TELESCOPING FLASHLIGHT WITH MAGNET

Here's an LED flashlight with a twist -- it telescopes to 20" and has a powerful magnet at the end to make it the ultimate magnetic pickup tool. Simply extend the shaft, light up, and go!

DA75570 \$14.95

TEST & INSPECTION

STINGER® LED W/ CHARGER

This all purpose flashlight is designed for the broadest range of lighting needs at the best value. Multi-function On/Off push-button switch lets you choose three lighting modes and strobe; designed for extremely long life. IPX4 water resistant. Unbreakable poly carbonate lens with scratch-resistant coating. Assembled in the USA.

75711.....\$129.95

PROTAC HL HEADLAMP

Producing 540 lumens of light that reach 172 meters, this powerful device will surpass all others in your toolbox. With 90 degrees of tilting, your neck will not strain for the job required. Three lighting modes with a maximum of 36 hours of running time.

61304.....\$95.95

PROTAC HL® 3

New technology allows us to put 1,100 lumens in the palm of your hands. The ProTac HL 3 provides extraordinary brightness in a wide beam pattern that lights your entire area. Three selectable programs; high, strobe, low. Durable anodized machined aircraft aluminum construction. Waterproof to 1 meter for 30 minutes.

88047.....\$85.95

NEBO REDLINE® COMPACT FLASHLIGHT

The REDLINE® has been called the most powerful compact flashlight ever made. It delivers an amazing 220 lumens of pure white light in a flashlight that measures just a little under 5". Also features S.O.S. mode, and an emergency strobe mode. It's made from aircraft-grade aluminum and anodized for heavy-duty use. It's also sealed to resist water and other liquids. Batteries included. 4X adjustable beam.

NB5610(220 Lumens / Black).....\$29.95

NB5615(SE Model 250 Lumens).....\$34.95

DUAL-PURPOSE FLASHLIGHT AND WORK LIGHT

The NEBO Slyde® is a compact flashlight that doubles as a worklight when you need it. Use it as a 250 lumens flashlight when you need pinpoint lighting, or slide it open to reveal a secondary bank of LED lights along the side that will flood the work area with 190 lumens of ambient lighting. The body is made from anodized aircraft grade aluminum and features a magnetic base for hands free use. Impact and water resistant.

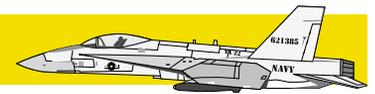

NB6156\$29.95

NEBO O2 BEAM™ FLASHLIGHT

The sheer intensity of the O2 Beam is something you just have to see to believe! NEBO combines the power of an 8000 LUX LED with their proprietary O2 technology™ to make a flashlight like no other in its class. It features a 4X adjustable beam, and an aircraft-grade aluminum water-resistant body. This is a true professional's flashlight! The O2 Beam flashlight comes in an attractive hard case with foam padding. You will not be let down with this product.

NB6000\$99.95

MAGNAFLUX® ZYGLO™ PENETRANT TEST KIT

Under the high-intensity Zyglo Black Light you see cracks and defects as glowing signals - even ones you'd miss entirely by any other penetrant test method. The Portable 100-watt Black Light, supplied with the kit, is unique in its high-intensity black light output -- much higher than standard lights. With this intense black light and the strongly fluorescent Zyglo penetrants, defects glow brilliantly in normally lighted area. With Zyglo you get increased inspection efficiency and accuracy at a remarkably low cost. Kit consists of 1 can ZL-27A Penetrant, 1 can ZP-9F Developer, 2 cans SKC-S Cleaner/Remover, and the portable 100-watt Black Light (115 AC., 60Hz). Comes complete with instructions, cleanup scrubs, and cloth. Meets MIL-I-25135 Rev. E specifications (Non-Halogenated).

MAGNAFLUX® PORTABLE SPOTCHECK KIT

"Any NDT toolbox has to have a dye penetrant kit, and this product is not only exactly what we needed but by far at the best price. This vendor is top-notch!" ~ Glider Geek

An undetected crack can be deadly! Critical aircraft areas, especially around stud mounts, can and do crack. And sometimes the flaw is too small to be noticed with the naked eye. That's why you need the Magnaflux Spotcheck Portable Kit. It's a complete dye penetrant test kit containing everything you'll need to find surface defects in welds, castings, and forgings. The Spotcheck Portable Kit comes in a rugged plastic case and includes complete instructions.

- 2 cans of SKC-S Cleaner/Remover
 - 1 can of SKD-S2 Developer
 - 1 can of SKL-SP1 Penetrant
 - Carrier/Dispenser Pack
 - Marking Pen
 - Packet of SCRUBS™ Hand Cleaner
 - Wiping Cloth
 - Complete Instructions
- SK416.....\$95.95

ENGINE EQUIPMENT

OIL FILTER MEDIA CUTTER

This innovative Oil Filter Media Cutter allows the filter media to be cut, removed and analyzed in a very neat and orderly fashion. It's design greatly reduces the chance of accidentally injuring yourself. A pivoting knife with a retractable safety blade is brought into position to make a clean, consistent cut of the filter media. And once cut, the media can be removed for inspection and evaluation. Other benefits are timesaving and a filter sample with no contamination compared with other cutting methods. Works with all Champion filters, and can be adapted for use with Kelly and Tempest Filters.

- FMC-2010** (Portable Unit) **\$195.95**
- FMC-2000** (Bench Unit with Stand) **\$315.95**
- FMC-2000K** (Kelly Aerospace Adapter Kit) **\$98.95**
- FMC-2000T** (Tempest Adapter Kit) **\$98.95**
- FMC-2000BL** (Replacement Cutting Blade) **\$13.95**

OIL FILTER CAN HOLDER

Cutting open an oil filter can be a messy process, but this oil filter can holder makes easy work of it by containing spills that might occur during the cutting process. It's made from solid CNC machined aluminum to hold up to heavy use. And it features three locking pins to puncture and securely hold the can in place prior to cutting. The holder also reduces side loads on the cutter blade (from the FC2000), allowing for a more precise cut with less can deformation. It's simple to use and easily locks into any machine vise. It's a great accessory to the FC2000 Oil Filter Cutter.

- FH-2000** **\$85.95**

HEAVY DUTY OIL FILTER CUTTER

Heavy duty oil filter cutter opens any spin-on type oil filter quickly and efficiently, including the new Champion dash 1 series with the heavier base. This is a complete tool with no parts or adapters to change. It centers around the filter quickly, with no parts to change, and cuts in either direction. Cuts all Champion 3.7 Inch diameter filters. Also cuts the new Champion RBC308 filter used on the Rotax 912 and 914 engines.

- FC-2000** (For Filters up to 3.7" Diameter) **\$85.95**
- FC-3000** (For Filters from 3.7" to 4.7" Diameter) **\$99.95**
- CT470-4** (Replacement Cutter Wheel) **\$13.95**

AIRWOLF OIL FILTER CUTTER

The Airwolf Oil Filter Cutter's unique design makes it a snap to cut through any type of oil filter. It's machined from solid 6061-T6 Aircraft-Grade Aluminum and fitted with stainless steel rollers for smooth cutting. The high carbon steel cutting blade is hardened to 60 Rockwell and honed to razor sharpness to produce clean, consistent cuts. Every mechanic knows that an oil filter cutter is an essential tool; and if you demand the best, then the Airwolf is for you.

- AFC470** **\$89.95**
- AFC470-RB** (Replacement Blade) **\$8.95**

OIL FILTER CUTTER

Works on all oil filters. Cuts open oil filter for inspection without introducing chips.

- 1154** **\$139.95**
- 1154-1** (Replacement Cutter) **\$16.95**

TOM'S OIL FILTER CUTTER

Tom's Oil Filter Cutter offers a new approach to the essential task of opening your oil filter for inspection. This product cuts the filter easily in one pass. Includes adapter to work with any type of Champion or Tempest aviation filter. May also be used on smaller filters such as those found on Rotax or automotive engines.

154701.....\$55.95

OILEASY OIL FILTER WRENCH

The "Oil Easy Wrench" is specifically designed to remove the oil filter on any aircraft using the Continental IO-520, or IO-550 engine. It's the only wrench that can get between the top of the oil filter and the pressure pump and still provide enough leverage to remove the old (usually stuck) oil filter by hand.

OILEASY1\$45.95

KLUHSMAN OIL FILTER CUTTER

This economical cutter quickly opens any size oil filter canisters for filter inspection. Simply place the filter in a vise, attach the tool to the top, and rotate about 4 to 6 turns to cleanly cut open the canister. It's made of high quality 6061 aluminum with an attractive purple anodized finish. The cutting wheel stays sharp for up to 45 applications, and is easily replaced when it becomes dull.

FC01\$61.95

FCW (Replacement Cutting Wheel)\$8.95

OIL NUT WRENCH

This wrench is specially designed to comply with CESSNA AD 96-12-22

The Oil Nut Wrench allows you to reach the adapter nut, which must be torqued to a value of 50 to 60 foot pounds in accordance with the CESSNA AD. Its use is required every time the oil filter is removed to prevent the possible loss of engine oil caused by loose or separated adapters. This tool is absolutely essential for anyone working on any of the following aircraft: All Cessna Models 100, 200, 300, and 400 series; Meyers 200; Twin Commander 500A and 685; Beech 33, 35, 36 and 55 series; Piper PA 46; Navion Rangemaster 17 series; Wren Model 460; Bellanca 200 and 300 series.

TG961222\$69.95

AVERY TOOLS OIL FILTER CUTTER

This tool allows you to easily cut open your oil filter to inspect the paper filter element for contaminants and to detect problems inside your engine before they become major and expensive issues. This oil filter cutter will work with both styles of aircraft oil filters -- those that have female threads and those that have male threads. This tool will cut filters from 3" diameter up to 4-3/4" diameter. Some of the newer aircraft filters have a thicker steel base plate. This newly designed filter cutter has the cutting wheel height and guide bearings located higher so the cutting wheel cuts above the thicker base plates (there is no need to remove the rubber filter gasket as other filter cutters instruct you to do).

AE81031\$89.95

AE12027 (Replacement Blade)\$8.95

OIL FILTER TORQUE WRENCH

A Professional Quality, Heavy Duty wrench with a built in ratcheting mechanism and a pre-set torque arm. The tool fits all standard general aviation aircraft oil filters and has a solid lever-arm with a knurled grip to make oil filter removal a snap! The wrench is compact for areas of limited access and easily fits filters in tightly cowled aircraft. Once the new filter is ready for installation, reverse the wrench and ratchet the filter securely back into place. When the pre-set torque limit of 17 ft/lbs is reached, the user will feel a slight "break" or "click" in the handle. No other torque tools are required.

AA472\$55.95

ENGINE EQUIPMENT

OIL FILTER TOOL

The Oil Filter Tool was created to assist in removing a stuck filter, without resorting to the traditional hammer, punch, chisel, and or the huge pump plier's methods. Bogert Aviation wanted the tool to be safe in tight quarters and unable to slip, attempting to minimize damage to nearby components. This is still a messy process but this tool will always work to remove stuck filters without damaging anything else.

BO-10M-TALON(Up to 1500 in lbs)..... \$48.95

HIGH RESOLUTION DIGITAL MANOMETER

This manometer has a digital display of gauge or differential pressure in the palm of your hands. Five display unit options of psi, inH₂O, mmH₂O, bar and mbar. Range from 0 to 2 psi. Data hold and record. Simple fittings for hose connection on the unit. Includes a connection hose, hard case, and battery.

DM8252RS..... \$249.95

SWIVEL-GRIPPER "NO-SLIP" OIL FILTER WRENCH

Tough, stainless steel band with permanently bonded textured coating for superior gripping power...won't slip. Handle swivels more than 180° with adjustable tension. Tension adjusting nut allows swivel pressure to be regulated...no more floppy filter wrenches. Specially designed tab

keeps grip from sliding off the handle.

EXHAUST STUD REPLACER KIT

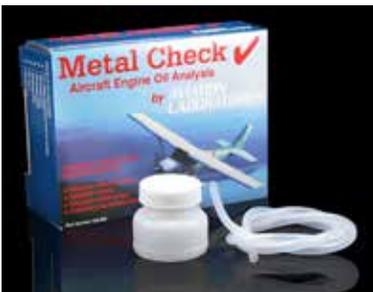

A precision tool that will allow you to remove broken studs, retap, and replace them accurately to the original dimensions. This can be accomplished in most cases without removing the cylinder; even Number One in a Bonanza, Works on all Continental 470, 540, 550, and 520 series engines. The kit includes the following:

- One steel jig bored, locating plate
- Three knurled retaining nuts to secure the locating plate
- Four hardened and ground drill bushings
- Three drill extensions: 6", 9", and 12"
- One 3/8" drill chuck

HE01..... \$299.95

AVIATION LABORATORIES ENGINE OIL ANALYSIS KIT

Aviation Laboratories' test kit determines the condition of oil wetted engine parts even on the first sample. Metal Check Oil Analysis Kit includes 1 test kit, and all lab work for each kit. This oil analysis kit is used for determination of the condition of oil wetted engine parts, even on the first sample. Aviation Laboratories will analyze

12 wear metal elements for piston and turbine engines, and post the results online for your private review. The analysis is usually completed within 24 hours, and if they detect an abnormal condition, they will contact you immediately to alert you to potential engine problems. Complete kit includes sample bottle, siphon hose, and full instructions.

AVL-GA001 \$17.95

EXHAUST STUD DRILL GUIDE

For drilling out broken exhaust studs without damaging the cylinder head. For 470 and 520 series engines. Case hardened steel.

ENGINE EQUIPMENT

ELECTRONIC MAGNETO SYNCHRONIZER

"Small and reliable. It's exactly what I needed to time the mags on my airplane. I keep it in the toolbox on board just in case." -S. Grant

Revolutionary new design uses a high frequency electronic signal instead of high voltages to determine when the points of the magneto break. It will reliably indicate breaks so that you can accurately adjust the magneto's internal timing, or synchronize it to the aircraft's engine. Completely safe and foolproof. Dimensions are 3"x5"x2-5/8".

- LED52 (Dual Mag, w/ Tone) \$53.95
- LED51 (Single Mag, w/ Tone) \$46.95

AIRCRAFT ENGINE TIMING KIT

Mag-Rite's cone uses 6 hooks to securely attach to any propeller blade combination. It uses a digital indicator to measure angles to within .1 degrees. The Fly-Rite Digital Protractor also comes with the kit and it utilizes the same precision digital indicator mounted into a high-impact ABS frame. Use it to quickly and accurately set the proper deflection angle of flight control surfaces and propeller pitch angles.

- RSK-BASIC (Without LED52 Mag Timer) \$109.95
- RSK-DX (With LED52 Mag Timer) \$149.95

MAGNETO E-GAP TIMING KIT

The Magneto Internal Timing Kit is used to set the "E" Gap on Bendix S-20, S-200, S-400, S-500, and S-1200 series aircraft and industrial magnetos. Complete kit with instructions included.

- 11-8150 \$99.95

MAGNETO TIMER

This tool simplifies magneto timing on TCM (Continental) series 470, 520, and 550 engines. No protractor on the spinner required, or other complicated tooling. Simply place it over the prop nuts and sight down the casing split to set the timing. That's all there is to it. It's foolproof. Comes with instructions right on the tool for easy reference.

- CCMT-01 \$39.95

BENDIX MAGNETO P-LEAD ADAPTER

This unique design of the P-lead Adapter allows you to connect to the timer leads of Bendix magnetos with an immediate and positive connection. It provides secure and stable alignment, and includes a post that prevents the timer leads from falling off.

MASTER ORIFICE TOOL

The Master Orifice Tool is required by Continental's SB03-3 Service Bulletin. Use it with Eastern's E2, or our own 2E Differential Pressure tester to determine your calibrated leakage reading prior to engine testing. It is available in either plated steel (SPX), or non-sparking brass (ATS). **Note: This tool is not needed by our (ATS) 2EM or Eastern's E2M, as they already have a built-in master orifice.**

646953A	(SPX Model).....	\$89.95
6469.....	(ATS Model).....	\$75.95

MAGNETO LOCKING TOOL

Use this to lock magnetos and maintain the correct timing position prior to removal or installation of the magneto.

ML20	(Bendix).....	\$6.95
T118	(Slick).....	\$5.95

ENGINE EQUIPMENT

SLICK® MAGNETO OVERHAUL TOOL KIT

Slick magnetos must be overhauled every time you perform an engine overhaul. Additionally, they must be overhauled whenever there is a lightening strike, or sudden engine stoppage. This kit contains all of the tools you will need to perform a complete magneto overhaul in accordance with Unison Industries L-1037 and L-1363B Service manuals. The complete kit contains: Bearing Assembling Plug, Rotor & Frame Assembling Plug, Puller, Base Adapter Plate, Timing Pin, Adapter Plate Bushing, Bearing Puller, Wedge Extractor, Timing Plug, Assembly Fixture, "E" Gap Gauge, Cam and Rotor Set, Spacer, Alternate Cam and Rotor Set, Spacer. **Note: This kit does not include magneto replacement parts.**

T100 \$599.95

SLICK® IGNITION HARNESS ASSEMBLY KIT

The Slick® Assembly Tool Kit is required to install all Slick Ignition Harness Leads on all magneto harness caps and spark plug termination ends. The complete kit includes: Pressing Tool, 72 Drill Bit, Pin Vise, Stripping Tool, Spring Assembly Tool,

and Shield Stripper. Complete instructions for the use of this kit can be found in the Unison Industries L-1178 Service Manual.

T200 \$269.95

EASTERN MAGNETO SYNCHRONIZER

The Eastern "buzz-box" magneto synchronizer is perhaps the most well known of its type. Its simple design makes it absolutely foolproof. Just attach the leads to the magneto, and adjust until you see the lights and hear the buzz!

E50 \$115.95

DIFFERENTIAL PRESSURE TESTER

The Model E2A Tester quickly locates worn and cracked rings, defective intake and exhaust valves, scored and cracked cylinders, leaky head gaskets, and worn and stripped spark plug bushings; virtually every potential cause of pressure loss. The E2A Tester also features Eastern's new

Slow Fill Valve™ technology. Includes hose and plug adapter.

E2A..... (For Cylinder Bores up to & Including 5") \$105.95

E2A-1000..... (For Cylinder Bores Over 5") \$115.95

DIFFERENTIAL PRESSURE TESTER WITH MASTER ORIFICE

The Eastern E2M has all of the features of the Model E2A plus the added benefit of a built-in master orifice. The master orifice is used to quickly and effectively calibrate your tester in the field prior to using it; allowing you to make accurate and reliable assessments of engine leakage. Includes hose and plug adapter.

E2M..... (For Cylinder Bores up to & Including 5")..... \$139.95

E2M-1000..... (For Cylinder Bores Over 5")..... \$149.95

HIGH VOLTAGE CABLE TESTER

Designed to give you a fast accurate test of Hi-Voltage aircraft ignition cables. Simply connect three wires, push the test button and the test is completed. The E5 will instantly indicate in its test window both good and defective cables. There is no waiting for any indication to appear.

- Fail-safe circuitry
 - Compact 3" x 5" x 2-5/8"
 - Unbreakable case
 - Heavy-duty lead wires
- E5 \$115.95**

AIRCRAFT TIMING INDICATOR

This all aluminum unit is designed to improve and speed up the process of timing magnetos to the engine. It easily attaches to the propeller spinner, and has an accuracy of 1/2 degree. The easy to read dial can be viewed from any angle. Comes with top dead center locator and mounting bands.

E25 \$72.95

HELI-COIL® SPARK PLUG REPAIR KIT (NON-SERRATED)

These repair kits contains every-thing you'll need to make on-the-spot engine repairs. Includes pil-oted tap, and installation tool, and 24 inserts.

Note: Use of non-aviation Heli-coil in-serts may not be approved for your engine. Check with the manufactur-er before using.

PART	DESCRIPTION	PRICE
5523-18	18mm Spark Plug Repair Kit	\$249.95

HELL-COIL® AVIATION SPARK PLUG THREAD REPAIR KITS

Using Heli-Coil® serrated aviation inserts is the only FAA approved method of repairing damaged spark plug threads. It is also the only method certified by engine manufacturers such as Teledyne-Continental and Textron-Lycoming. Serrated inserts, unlike regular inserts, require special tools to insert, expand and stake them in place. These kits contain everything you will need including: piloted tap, insertion tool, offset and staking tool, expanding tool, 20 serrated inserts (10 each 1/2" and 13/16" long inserts for the 18mm kit and 10 each 3/8" and 1/2" long inserts for the 14mm kit), and complete instructions.

ATS SPARK PLUG CLEANER & TESTER THE #1 SELLING TESTER IN THE AVIATION INDUSTRY

Buy spark plugs for \$60 a piece, or... Clean them for LESS THAN \$.02 cents a piece..

BEFORE

AFTER

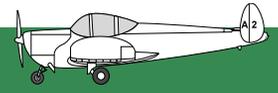

Specifications:

- Operating voltage: 115V or 220V AC Single-phase 50/60Hz
- Recommended air pressure: 100 to 140 psi (7 to 10kg/cm²)
- Cleaner section abrasive capacity: 1 lb. (900g)
- High-voltage output when spark testing : 24,000V
- Dimensions: 19.3" (49cm) x 11" (28cm) x 10.4" (26cm)
- Weight: 20.5 lbs (9.3kg)
- Accessories included: 12mm, 14mm and 18mm spark plug adapters (2pcs each); 12mm, 14mm and 18mm cleaner gaskets (1 each); Adapter case (1 pcs); Aviation Massive Electrode adapter plug (1pcs), Abrasive 1 lb. (900g)

The latest model of our popular Spark Plug Cleaner & Tester now operates on 120V as well as 220V without the need for converters. It also features advanced protection circuitry to prevent the unit from overheating during prolonged use. It has the same dependability and ease-of-use that's made our SPCT100 the 1 selling cleaner-tester in the industry, and carries a full 1-year warranty. It's still the best choice for anyone who needs to reliably and accurately check the quality of used spark plugs. The cleaner section uses a powerful blast of air and abrasive to thoroughly remove carbon deposits from plugs. The recessed observation mirror is perfectly angled to display the electrodes of the spark plug so that you can clearly judge the quality of the spark as the plug is being tested. It is manufactured to the rigorous ISO 9002 standard. Includes adapters for 12mm, 14mm, and 18mm spark plugs. Works with Aviation and Automotive plugs. Features a motorized turntable for automatic, "hands-off" cleaning of plugs. Test plugs at 24,000 volts and up to 150 psi to simulate engine conditions.

Note: The SPCT100A will not remove lead deposits from spark plugs. The proper way to remove lead deposits is by using either the Champion Vibrator Cleaner (p/n 2600A) or the Aircraft Tool Supply Vibrator Cleaner (p/n PA01).

SPCT100A (120/220 Volts) \$599.95

DELUXE SPARK PLUG KIT

Our new Deluxe Spark Plug Cleaner Kit is perfect for aviation shops, or for the do-it-yourselfer who wants to do more hands-on maintenance to save some money. It includes our ATS415K Bench Gapping Tool with Gap Gauge; the 12 Spark Plug Cleaner; the PA01 Spark Plug Vibrator Cleaner to remove lead deposits; a Spark Plug Tray; a 10X Inspection Magnifier; a 4oz Bottle of Anti-Seize Lubricant; a box of 100 Copper Gaskets; a Thread Chaser; plus our new ATS950 Magnetic Spark Plug Socket. And rounding out this winning kit is our best-selling SPCT100A Spark Plug Cleaner Tester Unit that will check plugs under simulated high-voltage/high-pressure conditions for spark quality and leakage.

SPK-DX.....(120/220 Volts)..... **\$729.95**

SPARK PLUG FIELD KIT

Keep your airplane running smoothly and sputter-free with our new Spark Plug Field Kit. It contains our 12 Spark Plug Cleaner to remove carbon buildup, and a set of Dental Picks to handle more stubborn lead deposits. After cleaning your plugs, inspect them for pitting and cracks with the included 10X Inspection Magnifier. Finally, keep them firing at peak efficiency with our 116 Spark Plug Gapper and ATS450 Gap Gauge. You'll also receive a Thread Chaser to remove buildup from port threads, a 4oz bottle of Anti-Seize Lubricant, 8 copper gaskets, a Champion Spark Plug Tray, and our new ATS950 Magnetic Spark Plug Socket. It all comes in a durable military-style canvas bag to keep things well organized.

SPK001 **\$159.95**

SPARK PLUG CLEANER TESTER COVER

Custom made canvas cover for the SPCT100 Spark Plug Cleaner Tester unit protects your investment against damage, dirt, and spills. Features soft felt inner-lining that guards your tester against scrapes and scratches.

SPCT100-COVER **\$32.95**

SPARK PLUG CLEANING ABRASIVE

Black Diamond media cleans faster and produces less dust than any other media. It's completely inert and moisture free to minimize surface contamination.

78B.....(Black Diamond)..... **\$3.95**

78W.....(Crushed Walnut)..... **\$2.05**

HEAVY DUTY SPARK PLUG GAPPER KIT

A complete spark plug gapping solution for field or bench use. Includes our ATS420 Heavy Duty Spark Plug Gapping Tool to accurately set your spark plug gaps to within 0.001". You also get a set of wire feeler gauges (p/n ATS450) to verify gap size. If you should happen to accidentally over-gap the plug, then the included Gap Expansion Tool (p/n ATS483) will get you back on track. And finally, we've included an Electrode Erosion Gauge (p/n ATS482) to make sure that your gapped plugs are still in serviceable condition.

ATS420DX	(Complete Kit)	\$59.95
ATS420	(Gapper Only)	\$39.95
ATS420K	(Gapper & Gauge)	\$39.95
ATS483	(Expansion Tool)	\$18.95
ATS482	(Erosion Gauge)	\$8.95

ATS SPARK PLUG GAPPER KIT

This economy gapping kit features the Sure-Gap gapping tool, which works with all 18mm massive electrode aircraft spark plugs and eliminates guessing of plug gap. The kit also includes our ATS450 retractable gap gauge. Wire gauges are made of stainless steel wire and are accurate to .0005". Gauge sizes are: .015", .018", .019", and .022". Wires can also be replaced when worn out.

116K	(Complete Kit)	\$22.95
116	(Gapping Tool Only)	\$10.95
ATS450	(Wire Gauge Only)	\$21.95
ATS450-WG	(Replacement Wire)	\$8.95

SPARK PLUG CLEANER

Cleans any size plug without changing grommet. Has 2-way valve (blast or air) and comes ready to use with abrasive powder.

12	(Complete Unit)	\$25.95
78B	(Replacement Powder)	\$3.95
C12B	(Replacement Canvas Bag)	\$3.95
12GN	(Replacement Grommet)	\$3.95

ATS SPARK PLUG GAPPER

A low-cost efficient gap setting tool for closing gaps on massive electrode-type aviation spark plugs. Can be hand held, bench mounted, or held in a vise. Complete with one adapter for 18mm spark plugs, and one for REM37BY plugs. Also includes the ATS450 retractable gap gauge.

ATS415K	\$59.95
----------------------	----------------

SPARK PLUG VIBRATOR CLEANER

This tool will do the same job as the more expensive vibrator cleaners at a fraction of the cost. It removes heavy deposits in and around the electrodes with absolutely no risk of damage to the plug.

PA01	\$39.95
PA01-1	(Replacement Blade) \$2.95
PA01-21T	(Tip Assembly) \$29.95

SPARK PLUG TERMINAL LEAD THREAD CHASER

Our new Spark Plug Thread chaser will remove galling and buildup from both the spark plugs and the lead coupler threads to ensure optimum electrical connectivity. Just run the thread chaser over the spark plug threads to clean it, then flip it over and run it into the lead connector to clean that as well. It's a simple and effective way to restore your threads to like new condition. Available in both 3/4" and 5/8" sizes.

ATS485	(3/4")	\$29.95
ATS486	(5/8")	\$29.95
ATS4856K	(Set of Both)	\$55.95

ATS MAGNETIC SPARK PLUG SOCKET

"I looked for a while for this perfect product. Get two, one for your tool box and one for your airplane tool kit." - D Meyer

Specially designed to accept longer aircraft massive electrode spark plugs. 3-1/2" overall length. 7/8" hex socket with 3/8" drive.

ATS950.....\$31.95

SPARK PLUG TRAY

Holds up to 12 spark plugs and is marked with the cylinder numbers (1-6).

FAP-12 (12 Hole)\$27.95

FAP-18 (18 Hole)\$49.95

10X ILLUMINATED SPARK PLUG INSPECTOR

This 10X illuminated magnifier will clearly reveal even the smallest defect in spark plugs. Use it to check for cracked insulation, pitted electrodes, and foreign deposits that can lead to engine failure.

DV980-10(Donagan)\$25.95

52-660-050(Fowler Brand)\$43.95

TEMPORARY ASSEMBLY PINS

Fitting of control surfaces requires numerous installations & removals of the parts to fit and adjust everything. These temporary assembly pins make the task quicker and easier. Pins are 3/16" diameter with tapered points and angle bends for easy installation.

AE445.....\$16.95

ATS SPARK PLUG THREAD LUBRICANT

A high-temperature, graphite lubricant that is applied to spark plug threads prior to installation to prevent galling and seizure. One 4oz. bottle provides enough lubricant for up to 200 applications. Non-hazardous compound.

ATS2612.....\$7.95

STAINLESS STEEL CLEANING PICKS

A set of four picks that are great for removing lead deposits from spark plugs. Contains 1 straight, 1 curved, and 2 hooked tips.

E900-205.....\$8.95

SPARK PLUG THREAD CHASER

Cleans threads in spark plug hole of dirt, carbon build-up, and metal particles. Double ended for both 14mm and 18mm threads. Neoprene band on hex drive holds tool securely in any 13/16" deep-well spark plug socket.

20200.....\$7.95

ENGINE MOUNT INSTALLATION ALIGNMENT PINS

Alignment pins for use in installation of engine mounts on aircraft engines. Pins go in the holes ahead of bolts to help align everything without damaging the bolts. Pins are 7/16" diameter steel, and machined with a taper to a bullet nose on the smaller end.

AE282.....\$17.95

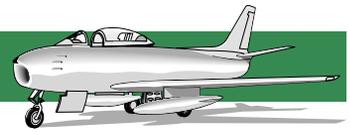

SPARK PLUG WIRE TESTER

Now you can check for active sparking without disconnecting or piercing the wire. Neon light flashes to indicate that a positive spark voltage is being delivered to the plug.

26900.....\$7.95

ENGINE EQUIPMENT

CHAMPION MASSIVE ELECTRODE SPARK PLUGS

Champion Spark Plugs are used in more airplanes than any other brand. Note: All spark plugs are shipped in a factory sealed case - opened cases are non-refundable.

* Use REM37BY when encountering lead fouling

ENGINE EQUIPMENT

SPARK PLUG TRAY

A sturdy steel tray that holds up to 12 aviation spark plugs. Speeds handling of used or new plugs. Holes are numbered to correspond with engine cylinders. Protects against shielding barrel contamination.

- CT446..... (12 Plug Tray) \$50.95
- CT446-18 (18 Plug Tray) \$150.95

LEAD-MASTER WRENCH

Lead-Master wrenches reduce time to remove and install spark plug ignition leads, also permits short arc turning due to 12-point grip head.

- CT913..... \$279.95

RETRACTABLE GAP GAUGE

Gap gauge with 4 sets of accurate retractable go and no-go wire gauges for massive electrode aviation spark plugs. Wire sizes .015, .019, .018, and .022.

- CT450..... \$35.95
- CT450-WG (Replacement Wire Pack)..... \$21.95

SPARK PLUG THREAD LUBRICANT

A high-temperature, graphite lubricant that is applied to spark plug threads prior to installation to prevent galling and seizure. The special compound will remain stable at very high temperatures. 4 fl oz.

- 2612..... \$9.95

"T" HANDLE LEAD WRENCH

Special "T" handle designed open box wrench 7/8".

- CT912..... \$139.95

SPARK PLUG GASKETS

Use these copper gasket rings when replacing spark plugs to ensure a secure seal.

- M674K..... (Set of 8) \$5.95
- M674HD (Pack of 100)..... \$69.95

OIL NUT WRENCH

Designed for easy removal of Cessna oil filter adapters from 150 Series thru 300 Series aircraft. Manufactured from tool quality steel, features both 3/8" and 1/2" drives, as well as "flip over" reversability. This is the wrench to use when complying with Cessna AD 96-12-22.

- CT709..... \$115.95

OIL FILTER CUTTER

The new improved CT923 Cutter is designed to cut open any spin-on type oil filter quickly and efficiently. This is a complete tool with no parts or adapters to change. It centers around the filter quickly, with no parts to change, and cuts in either direction. The cutter blades are the same blades that are used in the now discontinued CT470 Oil Filter Cutter. Cuts all Champion 3.7 Inch diameter filters. The CT923 also cuts the new Champion RBC308 filter used on the Rotax 912 and 914 engines.

- CT923..... \$289.95
- CT470-4 (Replacement Cutter Wheel) \$13.95

SPARK PLUG GAP SETTING TOOL

An efficient gap setting tool for closing gaps on massive electrode-type aviation spark plugs. Can be hand held, bench mounted, or held in a vise. Complete with one adapter for 18mm spark plugs, and one adapter for REM37BY plugs. Also includes a CT450 retractable gap gauge.

- CT415AV..... \$249.95

SPARK PLUG THREAD CLEANING TOOL

Designed to clean any 18mm or 14mm aircraft engine spark plug port to ensure correct installation of new or overhauled spark plugs. The socket has a 3/8" drive and the thread chaser section is removable. Three deep flutes retain carbon deposits.

- CT449..... \$349.95

OIL FILTER MEDIA CUTTER

Every mechanic knows the importance of cutting the media open to spread the pleats for inspection of metal in the filter. In the past, this has been a difficult job to complete. Tempest's new AA471 provides a low cost, efficient and safe tool that every mechanic will want to put in their tool box.

AA471\$38.95

OIL FILTER CAN CUTTER

The tempest universal oil filter can cutter features a compact design to easily fit in your toolbox while providing the same cutting power as the larger units. Comes with a set of adapters for both male and female oil filters. The hardened cutting wheel will cleanly cut through any type of filter including all Tempest and Champion Filters.

AA470\$109.95

SPARK PLUG RESISTANCE TESTER

High internal resistance in spark plugs is rapidly becoming a concern that many IA/AP's are beginning to recognize as the source of rough running engines and chronic magneto related problems. The AT5K was created to address these concerns. It's a test unit that will accurately measure the resistance of your spark plug and provide a quick go-no-go test to verify that the resistance is below the manufactures recommended level.

AT5K\$136.95

SPARK PLUG TRAY

The Tempest spark plug tray is constructed of high quality metal protecting the spark plugs from damage. Other trays can be prone to tipping and spilling the spark plugs onto the hangar floor rendering them unusable.

The Tempest tray design is sturdy and balanced, reducing the likelihood of tipping, Rubber feet on the bottom of the tray help keep the tray in place on metal workbenches and tool boxes.

AA446\$49.95

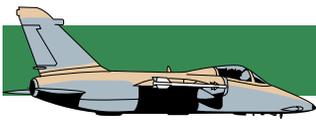

ENGINE PRESERVATION SYSTEM

Tempest's new AA1000 Engine Preservation System does exactly that. Tempest's patent pending design utilizes a specifically designed pump that draws outside air through a chamber containing a desiccant material which removes the moisture from the air. The pump then pumps the dry air into the engine through a hose attached to the oil filler tube. The desiccant material will turn from blue to pink at which time it needs to be reconstituted through a simple baking process. The material may be reused as many as 20 cycles.

AA1000EPS(110V)\$199.95

AA1000EPS-INT(220V)\$299.95

ENGINE EQUIPMENT

AVIATION PISTON RING COMPRESSOR

Our new Aviation Piston Ring Compressor features a quick-change design to speed up piston ring installation. It includes the famous Hastings Ring-O-Matic® pliers and bands that operate in all positions: not just vertically or horizontally.

PART	DESCRIPTION	PRICE
1670A	Ring-O-Matic Pliers	\$39.95
1670F	Band 3-7/8" to 4-1/8"	\$21.95
1670G	Band 4-1/8" to 4-3/8"	\$21.95
1670H	Band 4-1/2" to 4-3/4"	\$24.95
1670I	Band 4-3/4" to 5"	\$24.95
1670J	Band 5" to 5-1/4"	\$24.95
1670K	Band 5-1/4" to 5-1/2"	\$24.95
1670L	Band 5-1/2" to 5-3/4"	\$31.95
7500	Complete kit with pliers and bands for sizes 4-1/8" to 5-3/4"	\$179.95

SMALL BORE PISTON RING COMPRESSOR KIT

This kit is designed to accommodate engines with smaller cylinder bores. It features the same Hastings Ring-O-Matic® pliers as the Aviation Kit, so you can easily purchase additional bands as needed. The kit includes pliers and 6 bands in the following sizes: 2-7/8 to 3-1/8", 3-1/8" to 3-3/8", 3-3/8" to 3-5/8", 3-5/8" to 3-7/8", 3-7/8" to 4-1/8", and 4-1/8" to 4-3/8".

1670.....\$99.95

WRINKLE BAND PISTON RING COMPRESSOR

An economical alternative to standard pliers and bands, this tool will do a great job of installing piston rings of any diameter up to and including 5".

- Wrinkle band cuts friction in half. Ring slides in easily.
- Wrinkle Band can't slip down into cylinder.
- Set adjustment screw just once for the entire set of pistons.
- Faster! Insert a full set of piston rings in half the time with half the work!
- Installs rings from 3" (76.2mm) to 5" (127mm).

21700.....\$12.95

PISTON RING EXPANDER

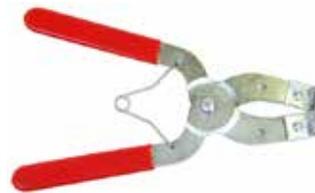

A unique tool that will speed the removal and installation of piston rings with minimum ring distortion. The use of a ring expander will greatly reduce ring point misalignment which can be detrimental to good piston ring sealing and engine performance. Made of steel and requires no adjustments.

1941..... (For Rings 2-3/4" to 4-1/2" Diameter)\$21.95

1936.....(For Rings 4-1/4" to 7" Diameter)\$21.95

PISTON RING INSTALLER AND EXPANDER

This important tool is inexpensive and easy to use. Just insert the ring ends in wedge jaws and expand the ring gently and slip into groove. Also ideal for removing rings easily without damage. Handles piston rings from 3/64" to 1/4" wide.

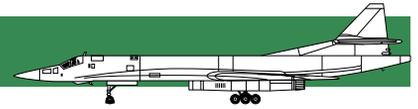

1723.....\$12.95

PISTON RING GROOVE CLEANER

Cleans carbon from piston ring grooves. Easily adjustable. Blades included for five most popular piston groove sizes: 5/64", 3/32", 1/8", 5/32", 3/16". Adjustable ratchet action holds piston in position during cleaning. Revolve tool around piston to clean. Spring release for quick removal of piston.

2477.....\$22.95

PROPELLER SHAFT OIL SEAL INSTALLER

For all flange shafts per Continental Bulletin M-70-2. Also fits Lycoming. For installing one piece stretch seals easily and efficiently without damaging the seal or crankshaft.

5209.....\$89.95

PUSH ROD SPRING COMPRESSOR

For compressing and holding push rod springs on all engines with spring loaded tubes. Compresses the spring, which can then be removed with the clips furnished. Eliminates wiring springs together. To install, simply insert spring, then pull off the clip. Instructions included.

68-3\$299.95

PUSH ROD FLARING TOOL

Expansion type flaring tool produces a perfect housing flare every time. Balls rotate inside the push rod housing tube, and snugly expands it into the boss.

4915A\$99.95

VALVE TAPPET CLEARANCE GAUGE

These tools do the same job as the comparable Lycoming or Continental product which sells for well over \$150. The blades are ground and polished to precisely .080" and .028" respectively for Lycoming, and .060_ and .200" for Continental.

T23S (Lycoming)\$65.95

VALVE SPRING COMPRESSOR

For all Continental and Lycoming engines. Adjustable type to work on all series engines. Ring installs on rockers and "C" collar compressor spring to allow keeper removal.

3602.....\$179.95

HARTZELL PROPELLER WRENCH

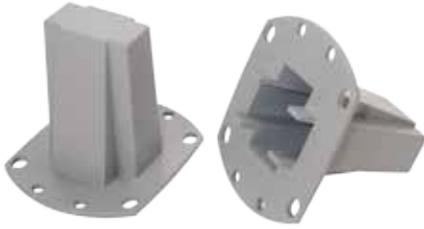

Hartzell prop installation requires a special wrench to torque the nuts on the prop hub. Hartzell sells a similar wrench for over \$200 list price. Made from heat treated 4130 steel and laser cut to fit 3/4" nuts and 1/2" drive torque wrench. For use on Hartzell props on Lycoming O360 engines.

AE3528.....\$67.95

ENGINE EQUIPMENT

TOPCAP ENGINE PROTECTOR

The Topcap engine protector is made to fit over the cylinder studs and shield the inside of your engine while maintenance is being performed. Topcap engine protectors are used by leading mechanics everywhere.

- Fits most engines including Lycoming Wide Deck 320, 360, 540, 720, and Continental 470, 520, and 550 series engines.
- Allows for full crankshaft rotation.
- Made of fuel and solvent resistant polymer.

TC320.....(1 Pair).....\$29.95

LOCTITE® AVIATION GASKET SEALANT

A reliable liquid gasket sealant, dressing and coating compound. It brushes on very thinly and forms seals that resist temperatures of -65° to 400°F (-54°C to 204°C). It's resistant to gasoline, oils, and other solvents and is inert so that it will not interact with other chemicals. It dries to full strength in just under 12 hours. 1 pint container.

3051.....\$15.95

UNIVERSAL BEARING PACKER

Fast, efficient, thorough. Simply place the bearing between the plastic cones, tighten, and apply grease through the fitting on the end of the threaded shaft. Forces out old grease and evenly injects fresh grease into the bearing. Cone diameter is 5".

65250.....\$9.95

HANDY PACKER® BEARING PACKER

The Handy Packer works on bearings up to 3 1/2" O.D. The grease stays in the tool cavity, not on your hands. To pack a bearing, place the bearing on the piston. Press down on the cap until the old grease is forced out and the new grease shows on top of the bearing.

34550.....\$21.95

GASKET PUNCH SET

Punches holes in gasket material, leather, vinyl or soft material. Set of ten punches 1/4", 5/16", 3/8", 7/16", 1/2", 9/16", 5/8", 3/4", 7/8", and 1" with driving mandrel and molded plastic case.

S1270.....\$35.95

GASKET PUNCH SET 10PC

This professional gasket punch set offers everything you will need to effortlessly punch holes in gasket material, leather, canvas, cardboard and soft sheet metal. This 10 piece kit features

nine hardened and tempered punches and a self-centering steel mandrel.

The set includes gasket punch sizes 1/4, 5/16, 3/8, 7/16, 1/2, 5/8, 3/4, 7/8, and 1 inch. The entire gasket punch set is packaged in a fitted plastic case for easy storage.

GTS1274.....\$54.95

SEAL DRIVER KIT

Quickly drives seals without damage to the surrounding fixture. Comes complete with 16 adapters for seals up to 3-3/8" diameter. Includes a special adapter for "shielded" seals.

24800.....\$39.95

SEAL PULLER

Two hook sizes easily remove most oil and grease seals. Where clearance is a problem, remove the pin to reposition the head. The adjustable head works great in tight areas.

56650.....(Adjustable).....\$15.95

56750.....(Fixed).....\$8.95

VALVE LAPPING COMPOUND

Clover lapping compound is the choice of leading mechanics whenever they need to size valve stems and seats to exact tolerances, while producing an exceptionally smooth finish. Grease type mix retains its texture and lubrication properties during extended lapping or grinding and leaves a rust preventing film. 1lb. can.

A51803 \$36.95

VALVE LAPPERS

Excellent tool for restoring a valve's surface finish. Hand operated action allows you to remove metal in precise amounts. Each lapping tool comes with cups for two different valve sizes. Get both tools and you will be able to handle just about any type of engine.

21100.....(Sizes: 1-1/8" and 1-3/8") \$8.95

21200.....(Sizes: 5/8" and 13/16")..... \$8.95

VALVE GUIDE FLEX-HONES

Flex-Hone allows you to precision fit valve stems to proper guide tolerances. Flex-Hone is self aligning to the guide bore and self compensating for hone wear. Provides a plateau finish, which creates proper lubrication to prevent sticking and permits a closer stem to guide clearance. Hones are 240 S/C grit.

PART	SIZE	PRICE	PART	SIZE	PRICE
GB9	.354"	14.95	GB12	.472"	\$14.95
GB95	.375"	14.95	GB125	.500"	\$14.95

GB11	.433"	16.95	GB34	.750"	\$16.95

CYLINDER FLEX-HONE

For cylinder bore reconditioning. 120 grit silicon carbide provides proper finish for cylinder wall breaking without expensive fixtures.

PART	SIZE	PRICE
102	3-1/2" to 4"	\$79.95
202	3-3/4" to 4-1/4"	\$85.95
305	4" to 4-1/2"	\$85.95
405	4-1/2" to 5"	\$89.95
505	5" to 5-1/2"	\$95.95
605	5-1/2" to 6"	\$104.95

RAPCO VACUUM PUMP WRENCH

This wrench is used to remove and replace vacuum pump flange nuts. The shank is bent to access to those tight areas between the pump and the accessories nearby. The open end head is laser cut to provide a close tolerance fit on the nut.

RA716..... \$34.95

MITYVAC SILVERLINE® VACUUM TESTER KIT

The Mityvac vacuum pump kit is used by mechanics worldwide for performing engine tests. The complete kit includes: the Silverline vacuum pump, reservoir jar and transfer lid, brake bleeding adapter package, test adapter package, 1-1/4" rubber cup adapter, two 24" lengths of 1/4" tubing, and carrying case with removable lid.

4000..... \$79.95

VACUUM & FUEL PUMP TESTER

Easy reading gauge assures accurate vacuum and pressure check. Has both English and Metric scales and measures vacuum from 0 to 30. The pressure gauge reads from 0 to 15 psi in increments of 1 psi.

20300..... \$25.95

HEAT RESISTANT ARM GLOVES

The heat resistant Kevlar® material protects hands and arms from hot surfaces. This enables work on hot engines and exhaust systems without waiting. Works on both right and left hands. The glove portion is coated with a vinyl tread for greater gripping power. Extends to 24". Washable.

21260.....(Arm Glove)..... \$19.95

18700.....(Hot Sleeve)..... \$13.95

ENGINE EQUIPMENT

When its just got to be right use a **TIMERITE®**

The TimeRite® has been in service since WWII, and for over 25 years ATS has been the exclusive manufacturer of this extraordinary tool.

This classic was originally designed for the military to quickly and efficiently time engines in the field. The TimeRite® uses specialized arms and calibrated scales to accurately locate Top Dead Center, and allows you to set the timing angle with dead-on accuracy.

ENGINE EQUIPMENT

TIME-RITE®

No other instrument besides the Time-Rite has come close to matching the versatility, simplicity, and accuracy of the Time-Rite. The Time-Rite uses specialized arms and calibrated scales to accurately display piston and angular displacement to 1°.

The basic Time-Rite unit (I200B18 & I200B14) does not include any arms or scales. You must purchase these separately for the specific type of engine you intend to service. The complete Time-Rite kits (I200B18K & I200B14K) include the basic unit plus the complete set of Arms and Scales.

PART	DESCRIPTION	PRICE
I200B18K	Complete 18mm Time-Rite Kit	\$599.95
I200B14K	Complete 14mm Time-Rite Kit	\$489.95
I200BCK	Combo 14 & 18mm Time-Rite Kit	\$679.95

ENGINE EQUIPMENT

ATS AIRCRAFT ENGINE STAND KIT (WITH LOCKING CASTERS)

- Bolts together in minutes using just a 1/2" wrench.
- No Welding necessary.
- Supports over 1,200 lbs.
- Ships as a regular sized package, not over-sized or dim weight.

"This is a great product, is well made, easy to put together, and is very sturdy. It was obviously designed by mechanics as the hardware is correct in length etc..." ~ T. LeBaron

Our new breakdown Engine Stand Kit comes to you unassembled to save you **BIG** on shipping costs, but goes together in just a few minutes with only a couple of wrenches. Other engine stands are pre-welded and shipping via UPS or FEDEX can be very expensive because of their size and shape. In fact, it's not unusual for us to see shipping costs as high as \$375 to places in Alaska! Some of our competitors try to get around this by selling their engine stands in kit form, which solves the shipping problem. But you still have to weld it together yourself! So if you don't have welding equipment, or your welding skills are rusty, then you're out of luck. Our new engine stand requires ABSOLUTELY NO WELDING. We ship it in a compact box to minimize shipping costs, and provide everything you need to get going. All you need to supply are a couple of 1/2" wrenches and a little elbow grease.

65530CX..... (Complete Kit)..... **\$269.95**

CONTINENTAL 470/520 MOUNT AREA WRENCHES

The special configuration of these wrenches permits access to the 470 and 520 engine mount areas. The 5203A wrench is specially designed for the 520 D&H engine's 3 and 6 cylinders.

PART	DESCRIPTION	SIZE	PRICE
5203	Left mount area wrench	5/8"	\$749.95
5204	Right mount area wrench	5/8"	\$679.95
5203A	520D&H 3 & 4 cyl. wrench	9/16"	\$685.95

CONTINENTAL/LYCOMING CYLINDER BASE WRENCHES

Superior quality wrenches come individually or as a set. Drive end is 1/2" and overall length is 13-1/2".

PART	SIZE	PRICE
2882-9/16	9/16"	\$19.95
2882-1/2	1/2"	\$19.95
2882-5/8	5/8"	\$19.95
2882-3/4	3/4"	\$19.95
2882-5	Set of all 4 sizes	\$75.95

LYCOMING CYLINDER BASE WRENCHES

Superior quality wrench is specifically used with internal hex nuts on Lycoming engines. Drive end is 1/2".

PART	SIZE	PRICE
6494-2	1/2"	\$39.95
6494-3	3/8"	\$39.95
6494-SET	Set of both sizes	\$69.95

CONTINENTAL 550 CYLINDER BASE WRENCH

This 9/16" wrench is designed for easy access to nuts on the 550 series engines. Standard 1/2" square drive. 13" overall length. This wrench is also used on the 7th order stud of the GTSIO520BA.

8158A **\$475.95**

DELUXE BRAKE BLEEDER TANK

Our new Deluxe Brake Bleeder Tank has been completely redesigned to resist the solvent effects of most types of aviation brake fluids. The high-impact plastic reservoir and specialized seals are compatible with 5606 and Skydrol. The hand operated pressurizing pump has also been totally re-engineered to deliver more pressure with fewer strokes. You will get everything needed to fit most brake receptacles.

"I spend hours trying to get the air out of my Piper Arrow brake system. After complete frustration, I decided to buy this pressure bleeder that fills the 5606 from the brake master cylinder (at the tires) and have the air bubbles rise to the brake fluid reservoir. My system was rock solid after only 20 minutes or so." Pete VA.

225DX	(W/Both Adapters)	\$99.95
225DX-15H	(15' Extension Hose).....	\$65.95
A255	(Universal Adapter)	\$8.95
1246.....	(Cleveland Adapter)	\$29.95

WHEEL BALANCER

MCFarlane's new wheel balancer uses the same static balancing method that is used to balance helicopter rotors. This design features a pivot point that is easily adjustable on-the-fly for maximum sensitivity, and includes bushings to accommodate 3/4", 1", 1-1/4", 1-1/8", 1-5/8" and 2" axle sizes. The design is more precise than other static balancing methods, and allows the wheel to be balanced while the bearings and seals are installed. Due to the horizontal balancing and orientation, test weights can be temporarily set in place and easily adjusted while balancing. This eliminates the need to tape the test weights. This is a lifetime tool that fits almost all light aircraft wheel/tire assemblies.

MA129..... \$285.95

TIRE BEAD BREAKER

Break tire beads safely, with little effort!

Originally built to work on dragster tires, this Tire Bead Breaker is capable of working on very small to very large tires. It's extremely adjustable! The Tire Bead Breaker is used to break the bead or bond between the tire and wheel with little effort and without doing damage to the expensive cast wheels.

If you are a repair station, shop, school, or owner that wants to do your own maintenance then this tool is a must!

BO-13M-TBB (18"x16" base) \$205.95

BO-13M-TBB2

DESSER® AIRCRAFT TIRE & WHEEL BALANCER

The Desser Wheel & Tire Balancer does what the Goodyear tire balancer does at a fraction of the cost. It will work with any assembly with at least a 1" axel up to 35" diameter tire.

AS01

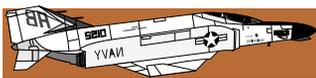

AS01-5W..... (5 oz Wgts- 5 pcs)

MEYER® TIRE BEAD BREAKER

Easily adjusts for a wide range of aircraft tires up to 14" inches in diameter. Quality construction for dependable service.

SERVICE & SUPPORT

Alpha

aviation inc.

ALPHA AVIATION AIRCRAFT JACKS

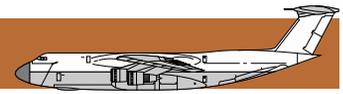

For over 12 years, family owned and operated Alpha Aviation has been making high quality aircraft jacks with the kind of craftsmanship and attention to detail that you just don't see in mass-market types. Each jack is hand fabricated, assembled, and thoroughly inspected to ensure that you will consistently receive the finest aircraft jack for your money. And with over 4,000 units in service since 1995, Alpha Aviation Jacks are field-proven to provide safe, rock-steady support for your airplane.

Find your jack: There are 5 models to cover just about every light aircraft. Locate your airplane in the chart below and select the appropriate jacks. Or if it's not listed, measure the height from the ground to your airplane's jack point and select jacks that are shorter, but with enough range and load capacity to safely lift your airplane. Need more details? Visit www.aircraft-tool.com and search for keyword "Alpha Aviation."

SERVICE & SUPPORT

AERO JACK SYSTEM

Forget bulky expensive wing jacks for simple projects! Reach for Bogert's Complete Aero Jack System. This kit includes Bogert Aviation's jack, extenders, and aero jack pads to save you time when servicing brakes, bearings or tire changes. The jack raises each wheel independently in seconds, makes servicing flat and round gear easy from one handy toolbox. Designed by an A&P, for do-it-yourselfers and professional aviation mechanics.

- BO-30M-AJRRound Tubular..... \$269.95
- BO-30M-AJFFlat Gear..... \$295.95
- BO-30M-AJCAero Jack..... \$389.95
- BO-30M-AJEExpandable Jack..... \$1,219.95

CONTROL LOCK

Gusty winds will cause unsecured control surfaces to flail about and control sticks to thrash around inside the cockpit and most certainly will cause damage to your airplane if measures aren't taken to secure them. That's why this lightweight, space-saving control lock is for you. It will quickly lock the control stick in place, thus keeping your ailerons and elevators in a safe and firm position. It's made of quality anodized aluminum and can be locked/unlocked in a few seconds. Installation only takes a few minutes, and complete instructions are included.

- DAS-CL110(General Aviation)..... \$55.95
- DAS-CL100(Piper Sport) \$55.95
- DAS-CL200 (RV, Cessna, and Cub) \$55.95
- DAS-CL212 (RV12) \$55.95

WILTON ATV ALL-TERRAIN VISE

Some jobs go beyond the workshop; some jobs make you come to them. For the jobs that demand function, strength and mobility we present the All-Terrain Vise by Wilton. Secure it in your hitch or mount it on your bench, the ATV is locked, loaded, and ready to go.

- Fits a standard 2" hitch and includes a hitch pin for security.
- Can be mounted on trailer with the included mounting bracket.
- Lightweight designed for easy transport.
- Patented safety mechanism secures the handle while driving.
- The included set screws provide a tight and reduce vibration while driving.

10010..... \$235.95

AVIATION JACK

Fixing a flat or performing annual inspections has never been easier! Be more productive with the Tribal Jack! This multipurpose shop tool provides stability in your workspace. It can be used on main gear, nose gear, and the tail wheel in aviation. The perfect jack for any shop!

BO-30M-TJ \$285.95

MANTUS ACCESS TOOL

The MANTUS™ Tight Access Tool is a versatile tool, featuring surgical stainless steel with serrated interlocking hands at the end of a 6 in. reach. It bites and grabs wires, gaskets, tubes, tools, terminals, etc. The ends double as an abrasive surface which can be used to scrape corrosion from a variety of surfaces including spade terminals, relays, fuses and more.

- 8041 (6") \$12.95
- 8100 (14") \$20.95

ATS AIRCRAFT STRUT PUMP

- Made from 6061-T6 Aluminum for lightweight durability
- Operates on 50 to 150 psi air pressure (100 psi recommended)
- Enhanced high pressure valve system rated at over 3,000 psi
- True 10X boost produces over 1,500 psi from 150 psi source
- Also works with Nitrogen delivery systems
- Safety "one-shot" system delivers pressure in controlled bursts
- 24" High Pressure Delivery Hose

"I highly recommend this company. This pump is well made, very good quality and useful tool. Each pump lifts my nose strut on my Baron about 1/4", so it is very controllable." ~ R. Gawer

Delivers up to 1,500 PSI of pressure to raise struts without the need for jacks. Safety one-shot air delivery system gives you maximum control over the entire process -- each stroke of the delivery valve injects a small shot of pressurized air into the strut so that you can raise it in controlled increments. Virtually zero chance of accidentally over-pressurizing and possibly damaging your struts.

675A **\$299.95**

SCHRADER HIGH PRESSURE STRUT COUPLER

The Schrader Tee-coupler attaches directly to the strut valve to inflate or deflate the strut via the built-in core depressor pin. It attaches to the valve threads (.305-32 thread size) and forms a perfect seal at up to 3000 psi. The air line connector is a 1/8" NPT male thread.

556 **\$29.95**

STRUT SERVICING EQUIPMENT

Our kit contains all of the hardware you'll need to deliver nitrogen to tires and struts from a nitrogen bottle. It includes a regulator, gauges (input & delivery), shut off valve, 12' hose, and a strut coupler. There are two types to choose from: Low pressure for nose struts and high pressure for main struts. Bottle (input) pressure gauge ranges 0-4000 psi. Delivery pressure gauge ranges 0-500 psi for the low pressure model, and 0-2500 psi for the high pressure model. Does not include nitrogen bottle.

606 (0-500 psi Delivery Pressure) **\$385.95**

607 (0-2500 psi Delivery Pressure) **\$759.95**

SCHRADER STRUT COUPLER

The Schrader "gooseneck" coupler is used to connect to the inflation valves of most types of aircraft struts. One end fits directly to the strut and the other has a 1/8" NPT thread.

SK2043C **\$14.95**

SERVICE & SUPPORT

SEAT ROLLER HOUSING GAUGE

The McFarlane seat roller housing gauge is designed to facilitate inspection of seat roller housings for wear in Cessna aircraft as required by mandatory FAA AD 2011-10-09. This gauge simplifies determining whether the housing is in or out of tolerance by allowing the areas of concern to be gauged as opposed to measuring each individual attribute on each seat roller housing with calipers.

MA110.....\$120.95

HINGE BEARING TOOL KIT

Makes pressing bearings in or out easy! This unique tool is specifically designed to prevent damage when installing or removing sintered bronze elevator and rudder hinge bearings in Cessna aircraft.

- Seven piece kit for common bearing sizes
- Heat treated stainless steel will last a lifetime
- Kit comes in a convenient storage pouch

MA990.....\$71.95

PIPER TAPER PIN REMOVAL TOOL

Piper AD 2010-15-10 requires inspection of the connection between the control yoke universal joint and the shaft on the forward end of the joint. This taper pin removal tool makes this job easy and safe even with the most stubborn taper pins. Simply position the tool on the u-joint and tighten the bolts until the pin breaks free.

MA107.....\$82.95

WEAR GAUGES

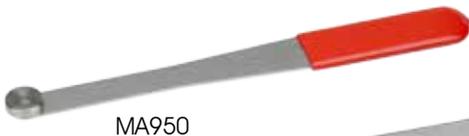

Airworthiness Directive AD2011-10-09 requires the inspection of the rollers, roller housings, seat rails, engagement pin and attaching hardware. In all, there are five measurements that are required for the pilot and copilot seat assemblies. These two tools will shorten the time to make these five compliance measurements to only two minutes! TOOL-A measures the pin engagement, roller tang width, and roller tang thickness, and TOOL-B measures the seat rail hole wear, and the opening of the roller housing tangs.

AD2011-10-09.....\$43.95

SEAT RAIL WEAR GAUGE

CESSNA FLAP TRACK GAUGE/ INSTALLATION TOOL

MA950

MA970

Use the flap track gauge to quickly determine if your aircraft track guides are within tolerance. The installation tool holds parts in alignment while inserting the bolt for Cessna 150 thru 210.

MA950.....(Flap Trap Gauge).....\$40.95

MA970.....(Installation Tool).....\$40.95

For checking seat rail wear limits as per FAA Airworthiness Directive 2011-10-09, Effective 06/17/2011 Seat Rail Directive and its predecessor A.D. The gauge is used for inspection of seat rail wear in Cessna aircraft. It's designed to measure the actual radius wear near the seat stop holes. The size applies to the .42 diameter limits referred to by the A.D. The .020 upper surface wear allowance allowed by the A.D. is designed into the gauge.

SR1\$43.95

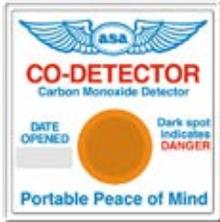

WHEEL CHOCKS

These tire stops keep the aircraft securely parked. A pair of black molded plastic wheel stops are connected with a 22" bright yellow and black braided nylon rope that won't rot or retain water. The bottom cleats keep aircraft securely parked, and the concave design fits any aircraft tire. One pair is needed for each wheel.

ASA-CHOCKS \$35.95

CARBON MONOXIDE DETECTOR

This Carbon Monoxide Detector can save a pilot's life, especially when flying with the heater on, by warning of the presence of CO in the cockpit—the spot will turn gray/black when CO is in the air. The spot on the detector returns to normal color after it is exposed to fresh air. Useful life is 90 days once opened. Not for use with Diesel engines.

ASA-CO-D \$4.95

BRAKE RELINING TOOLS

Our new W404 brake relining tool makes it virtually impossible to botch a brake relining job. The threaded screw action of the rivet insertion tool insures a perfect roll on brake rivets every time without damaging the liner. Machined steel, not cast.

W404 (Threaded Model) \$29.95
W403 (Impact Model) \$25.95
4-4 (Brake Relining Rivets) \$6.95

PRECISION BRASS SCALE

Compact general purpose weight and force measurement instrument. 50lbs. capacity in 8 oz. increments. Non-corrosive brass with numeral and gradations deeply embossed in black. Precision springs calibrated by certified weights for accuracy to within one graduation. Knurled knob for tare and zero adjustment. Dual graduations - English and metric. Can be used vertically or horizontally.

5A354 \$104.95

DIGITAL FISH SCALE

A fish scale is used to measure aircraft weights and forces such as control stick force, landing gear forces, and tail weight. This portable scale precisely measures weights to within .5 lbs (.2 kg) to a limit of 150lbs (68 kg). The scale has a digital readout that measures in pounds, kilograms and ounces. Also measures temperature in both Fahrenheit and Celsius. Uses two AAA batteries (included).

NB6084 \$15.95

REMOVE BEFORE FLIGHT BANNER

A "remove before flight" streamer hangs off the cover as a prominent pre-flight reminder to pilots.

PTC-34 (Large 3/4") \$13.95
PTC-58 (Small 5/8") \$13.95
PTC-B (Blade) \$13.95
ASA-RBF \$7.95

FUEL TESTER

Protect yourself from fuel contamination by visually checking the fuel for water and debris. Fits all quick-drain valves and has an adapter for recessed drains. The transparent cylinder is 6" or 4" long with octane color-coding molded in the side. Also includes a screwdriver blade with both Phillips and slotted heads.

AFT-1 (6") \$6.95
AFT-SHORT (4") \$6.95
AFT-C (Cup) \$5.95

SERVICE & SUPPORT

DYKEM CROSS-CHECK™

DYKEM® Cross-Check™ is a convenient visual method for identification of vibratory loosening or tampering in nuts, bolts, fasteners, and assemblies. Marks will be easily broken if parts are tampered with or become loose. Highly visible marks. Excellent adhesion to metal and other substrates.

DUAL RANGE TIRE PRESSURE GAUGE

Accurately measures tire pressure up to 200 psi in 5 psi increments. Dual calibrations; psi in black and kg/cm2 in red. Accurate to within 5%.

- 980400..... \$45.95

LEXEIT SEALANT SCRAPER KIT

This innovative kit is the brainchild of an aircraft mechanic who needed a way to effectively remove sealants and residue from fuel tanks and other areas without doing damage to expensive airplane finishes. The kit consists of a handle and 7 interchangeable Lexan tips. The scraping tips will not scratch or mar painted and polished surfaces. This kit is a brilliant idea and is a must-have for any mechanic needing to clean away sealants and adhesives.

- LX001 \$49.95

MINI-MIXER SEMKIT PACKAGE MIXER

The mini-mixer conveniently fits onto any air or electric drill with a 3/8" chuck and will work with both injection and barrier style packages. Use the mini-mixer to reduce fatigue and provide a more uniform mix than is possible by hand. The mini-mixer is tiny enough to fit into your shirt pocket, yet it will perform the same job as the larger industrial mixers.

- MMX01 \$21.95

ADEL CLAMP INSTALLER

These pliers make cushion clamp installation so easy that you will no longer dread the installation process. This tool securely and simply clamps the entire tire assembly together and leaves the hardware holes

lined up. The mechanic is free to use both hands to fit the hardware.

- SMA-101 \$37.95

HOSE ASSEMBLY TOOL

For use in assembling AN and STRATOFLEX® 300 series hose fittings.

IMPERIAL® TRIPLE HEAD BENDER

For making 45°, 90° and offset bends in tubing. Bends aluminum, copper, steel and other metal tubing.

- 367FH..... (Bends 1/8", 3/16" & 1/4")..... \$32.95
- 368FH..... (Bends 3/16", 1/4", 5/16" & 3/8")..... \$39.95

ROL-AIR® 37° FLARING TOOL

Flares rolled out above die by smooth faceted cone. Makes stronger flares.

The industry standard Rol-Air® is the choice of professionals. Flares soft copper, aluminum and brass tubing. The faceted hard chrome coated cone rolls out perfect 37° flares above the die block, and then automatically burinishes the flare face while maintaining the original wall thickness at the base of flare. New slip-on yoke permits use in tight quarters. Satin chrome and black finish. Able to flare 3/16" 1/4" 5/16" 3/8" 1/2" and 5/8" O.D. tubing. *Not recommended for stainless steel.*

- 507FB..... \$89.95

IMPERIAL® HEAVY DUTY ROTO-LOK™ 180° TUBE BENDER

- Imperial's redesigned heavy duty tube benders now feature their patented Roto-Lok™ quick-action indexing lever which allows you to make up to 180° bends in any type of metal (including stainless steel) accurately and with minimal effort.
- Rollers in bending handle reduce friction and eliminates scoring of tubing.
- Works with copper, aluminum, brass, thin wall steel, and thin wall stainless.
- Calibrated markings for making accurate left-hand, right-hand offset bends.

PART	DIA.	RADIUS	WEIGHT	PRICE
464FH-04	1/4"	3/4"	1.2 lbs	\$59.95

IMPERIAL® 37° HEAVY-DUTY FLARING TOOL

Flares 1/8" stainless steel primer lines!

Forms 37° flares in annealed stainless steel (MIL-T-6345 or AMS5566), cold drawn stainless steel, copper, aluminum, brass, and other soft metals. Ball thrust bearing mechanism reduces the effort required to produce perfect 37° flares, even in stainless steel. Made of hardened tool

steel, and features a non-slip grip which securely holds tubing, even after repetitive flaring. Extension on bar can be clamped in a vise for extra support. Able to flare 1/8" 3/16" 1/4" 5/16" 3/8" and 1/2" O.D. tubing.

- 447F..... \$355.95

ROL-AIR® 37° AVIATION FLARING TOOL

Flares T6845 aviation grade stainless steel

Forms 37° flares in aircraft grade stainless steel (MIL-T-6845), titanium, and other metal tubing, both soft and hard. Positive stop gauge assures correct size of flare. The three rollers in the flaring cone roll out 37° flares above the die block while burnishing the flare face to a smooth finish. A built in

extension on the yoke can be clamped in a vise for extra support. Satin chrome and black nickel finish. **Note: Use of the optional 401FA Reamer Yoke is recommended when flaring aviation grade stainless steel tubing.**

- 400F..... (3/16", 1/4", 5/16", 3/8", 1/2", & 5/8" Tubing) .. \$379.95
- 401FA..... (Optional Reaming Yoke for Stainless Steel) \$65.95
- 402FA..... (Kit Consisting of 400F & 401FA) \$395.95

IMPERIAL® ROTO-LOK™ TRIPLE HEAD 180° TUBE BENDER

This new improvement the old "Imp" 3-in-1 bender (368FH), features Imperial's patented Roto-Lok™ quick-action indexing lever. It's a two-stage handle that automatically repositions itself midway through bend to allow easy fabrication of bends up to 180° with reduced effort, better control and no crossing of handles

Up to 180 degree bends in sizes: 3/16", 1/4", 5/16", and 3/8" O.D. tubing.

- Bend radii are: 7/16", 9/16", 11/16", and 15/16" respectively.
- Works with copper, aluminum, brass, thin wall steel, and thin wall stainless.
- 470FH..... (Bends 1/8", 3/16", 1/4", 5/16" & 3/8" O.D.) \$39.95
- 370FH..... (Bends 1/4", 3/8" & 1/2" O.D.) \$51.95

ATS PRO TUBE BEADING KIT

The finest beading tool money can buy. We Guarantee it!

AP145

\$459⁹⁵

Makes perfect beads
from 1/4" to 1"

"Very nice and heavy duty tool complete with a nice hard plastic carrying case. Tim the Toolman would be proud to own this." – D.P.

Meets MILSPEC MS33660D and SAE AS5131 standards

Looking for a tube beading kit that will last a lifetime? Yes, a lifetime! The Pro Tube Beading Kit carries the ATS Pro lifetime warranty guarantee. This kit has been the number one choice of mechanics for making clamping beads in metal tubes.

For years, Aircraft Tool Supply was the sole supplier of these tools as a surplus product. Eventually supply exhausted, however customers insisted that they take the necessary steps to bring them back in stock.

In the process of recreating this classic tool, Aircraft Tool Supply added a few enhancements to further elevate this kit. The new improvements include ground, hardened, and polished surfaces for mar-free beads in aluminum, copper, brass, and mild steel tubes ranging from 1/4" to 1" in diameter.

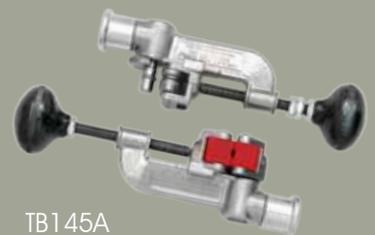

Also available are our ATS Pro Mini Beading Kits (p/n TB145A series). They use the same components and have the same exceptional quality as the Pro Beading Kit. Each kit is designed to cover a set of commonly used sizes, and can be easily upgraded by adding more dies and frames as needed.

Here's my personal guarantee to you: Try our ATS Pro Beading Kit for 30 days and if you're not 100% satisfied, call me toll free at 1-800-248-0638 and I will personally make sure that you get a full refund including your shipping costs. No questions asked.

PARKER 37° FLARING TOOL

The Parker Hannifin flaring tool is designed to make perfect 37° flares in aluminum, copper, brass, and mild steel tubing. The hardened tri-fluted cone burnishes the tubing as it creates the flare without scoring the surface. A built-in stop positions the tube prior to flaring so that your flares are always perfect. 1 year limited warranty. Tube Sizes 1/8", 3/16", 1/4", 5/16", 3/8", 7/16", 1/2", 5/8", 3/4".

212FB.....\$99.95

JUMBO ROD BENDER

BAC Industries Jumbo Rod Bender bends a variety of wires up to 3/8" diameter. Forms round, square and flat stock into hooks, 'S' loops, and other bends 3/16", 1/4", 3/8", 5/8", and 3/4" radius.

MR-01.....\$29.95

IMPERIAL® 8 PIECE TUBE BENDER KIT

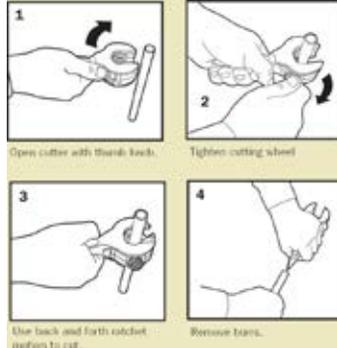

The patented spring coil design of these tube benders allows you to bend aluminum and copper tubing in to complex shapes without crushing or creasing the tube. Simply slip the belled end of the bender over the tubing and slide to the point to be bent. Complete kit contains eight (8) benders for tube sizes: 1/4", 5/16", 3/8", 7/16", 1/2", 5/8", 3/4", and 7/8" OD.

201-F.....\$25.95

MALCO® RATCHET TUBE CUTTER

Malco® Ratchet Action tube cutter makes it easy to make clean cuts in tight spaces. Simply insert the tube into the self-ratcheting throat, tighten the cutting wheel, and cut through the tube using a back and forth ratcheting motion. Use it to make fast, clean cuts in copper brass, aluminum, and mild steel. Includes spare cutting wheel, and built-in reamer.

- RTC623**.....(Small: Sizes 1/4" to 7/8") **\$30.95**
- RTC829**.....(Large: Sizes 5/16" to 1-1/8")..... **\$35.95**

IMPERIAL® RATCHETING TUBE CUTTER

Award winning 2-in-1 design features a mini-tube cutter mounted in a ratcheting handle to quickly cut through copper, aluminum, brass, steel, stainless steel, monel, titanium, and other tubing. Cuts from 1/8" to 7/8" O.D. tubing. Mini tube cutter can be removed from handle and used to cut tubing in tight areas (requires only 1-1/4" clearance). The ratcheting handle is made of a tough polymer to resist breaking and features a curved ergonomic design with non-slip padding. Guaranteed spiral-free cutting.

- TC1050RH** **\$21.95**

THE TUBECUTTER™ HOSE CUTTER

The TubeCutter™ is guaranteed to produce a clean, square cut every time. It cuts through Aeroquip lines, rubber tubing, plastic tubing, hydraulic hoses, and pneumatic lines. It's so strong, it'll even cut through Kevlar reinforced hoses! Manufactured from drop forged steel and chrome plated for durability.

- UG1234** **\$36.95**
- UG1234-B**..... (Replacement Blade) **\$9.95**

EZ RATCHET TUBE AND PIPE CUTTER

Cuts PVC, Stainless Steel, Copper, Brass and Aluminum 5 degrees of ratcheting = 360 degrees of cutting. Great for use in tight spaces and on installed pipes. One-hand operation Cutting capacity 1/8" to 1-1/8" tubing Durable and lightweight 360 degrees of cutting action Ideal for thin-wall tubing and conduit.

- GT135** **\$32.95**

TUBE CUTTERS

374FC

127FB

Heavy-duty cutter makes clean, right angle cuts with absolutely no burrs. Kit includes roller, spare cutting wheel and foldaway reamer. Cuts or constricts tubes from 1/4" to 1-5/8" (6-413mm). Hardened roller and cutter for long working life.

- 374FC** (Deluxe Tube Cutter) **\$17.95**
- 127FB** (Mini Tube Cutter) **\$7.95**

MINI TUBING CUTTER

The Mini Tubing Cutter performs where conventional tubing cutters simply cannot fit. With a 1-1/2" swing radius, the Mini Cutter is ideal for limited-space applications. The adjustable jaws accept tubing sizes from 1/8" to 7/8" in diameter and up to 1/8" in wall thickness. Gold Standard, tempered cutting wheels are capable of cutting through copper, aluminum, brass and thin-wall stainless steel.

FLUID DRAIN PAN

This rectangular drain collector is designed to fit perfectly onto a standard IBC tote, or any other similar storage container (not included). The extra-wide 14" width will accommodate anything from small oil filters to large cans and pails. It comes with a catch screen to support small containers and filters as they drain, and the 3" diameter drain spout reduces the chance of clogging this funnel while draining thick or heavy liquids.

- The 3" diameter drain spout fits into the collection container for added stability.
- Comes with a catch screen to drain buckets and filters.
- The dimensions are 14"x24"x4".
- Designed to fit perfectly on IBC Totes (not included).
- Made of 14 gauge steel.

BFN1 **\$89.95**

PRIMER PISTOL™

Primer Pistol™ is the simple and cost effective way to apply small amounts of primer paint and liquid with minimal cleanup time. It's a very handy tool that uses disposable 35mm film canisters as the delivery jar so that you'll use that expensive primer in stingy amounts. It also makes cleanup a snap -- just throw away the jar and the pickup tube and you're done. A great toolbox item for touch-up work.

GEARWRENCH® OPEN END RATCHETING WRENCH

Ratcheting head

The open end actually ratchets! No need to reposition with every stroke, both box end and open end are ratcheting. 7 piece set in sizes: 5/16, 3/8, 7/16, 1/2, 9/16, 5/8, 11/16, and 3/4.

85599.....\$85.95

SAE X-BEAM FLEX HEAD COMBINATION RATCHETING WRENCH SET

GearWrench 9-Piece XL X-beam flex ratcheting wrench set consists of one each: 5/16-Inch, 11/32-Inch, 3/8-Inch, 7/16-Inch, 1/2-Inch, 9/16-Inch, 5/8-Inch, 11/16-Inch, and a 3/4-Inch wrenches. Ratcheting box end needs as little as 5 degrees to move a fastener vs 30 degrees for standard box end wrenches. Surface drive design reduces fastener rounding. Flexible head on box end of wrench provides for multiple angles for better clearances in tight spaces. Open end of wrench features gear wrench surface drive, which reduces founding of fasteners and delivers 25 Percent more torque. Long pattern X-beam design provides for greatly increased torque and reduced hand fatigue. High polish nickel chrome finish and blow molded tray for storage.

85298.....\$179.95

HAND TOOLS

PRECISION DIAL TORQUE WRENCHES

Sturdy body construction ensures maximum durability with easy to read laser marked single scale. Large, easy to read dial is shock resistant and protected by a tough metal guard. The memory needle retains highest torque reading applied. Calibrated in both CW and CCW directions, with accuracy +/- 2%, from 2-100% of full scale. Individually serialized with matching certificate of calibration traceable to N.I.S.T.

QUAD RATIO DRIVER (4:1 RATIO)

If you spend a lot of time installing and removing screws then the Ratio Driver will speed up your work by a factor of four. The geared drive mechanism ratchets the nosepiece 4 times for each turn of the handle; and the ratchet direction can be reversed with a quick flick of a switch. It accepts any 1/4" drive bits and includes an assortment of 8 bits in the handle compartment. The included bits are: Hex 3/32", 1/8", 5/32", 3/16"; Torx 15, 20, 25, 30; Phillips 0, 1, 2, 3; Slot 1/4", 3/16"; Roberts (square) 2, 3. Lifetime warranty.

- SAB710.....\$21.95

IMPACT DRIVER

3/8" drive kit includes reversing driver and 4 insert bits, Metal case included.

BOOKS AND SOFTWARE

FAA AC43.13 ACCEPTABLE METHODS, TECHNIQUES, & PRACTICES

The FAA's AC43.13 provides a wealth of information pertaining to the inspection and general maintenance of airplanes. In it, you'll find charts and tables, identification and marking conventions; and maintenance standards. Compliance with the standards set forth in AC43.13 is not optional - it's mandatory.

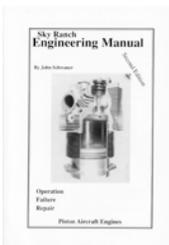

AC4313\$26.95

SKY RANCH ENGINEERING MANUAL

John Schwaner authors one of the most definitive manuals on aircraft engine maintenance we've ever seen. His book takes you from the basics up to the arcane art of engine diagnostics. He covers factors such as lubrication, electrical issues, mechanical alignment, heat related problems, vibration and balance, etc. The chapter on troubleshooting alone is worth it's weight in gold.

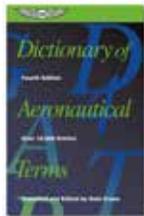

SREM1\$21.95

DICTIONARY OF AERONAUTICAL TERMS

Aviation is full of terms, acronyms and technical language. This book helps users understand all the words, abbreviations, and phrases of aviation. The most complete collection available, Explains and defines more than 10,000 terms and includes nearly 500 illustrations.

ASA-DAT-5\$19.95

AIRCRAFT WEIGHT AND BALANCE

This book explains in detail the process to determine the weight and balance of any aircraft. This new edition has been updated to include information on new Light Sport Aircraft (LSA) and Very Light Jet (VLJ) categories. Applicable to both airplanes and helicopters. This book is a primary reference for all FAA Knowledge Exams for both pilots and mechanics.

FAA-H-8083-1A\$11.95

AVIATION MECHANIC HANDBOOK

Dale Crane's handbook has been considered "The Aviation Standard" for many years. A core reference manual for mechanics, aircraft owners, and pilots, it compiles specs from reference books and government pubs into a handy guide. Your single source for: conversions, formulas, aircraft nomenclature, material/tool identifications, hardware sizes/equivalents, and much more.

ASA-MHB-6\$16.95

ESSENTIALS OF ADVANCED COMPOSITE FABRICATION & REPAIR

An excellent resource for beginners and professionals alike. It teaches concepts and methods in a direct manner for a wide array of composites including fiber and matrix selection, curing and achieving desired properties, testing and inspection, with step-by-step instructions and troubleshooting.

ASA-COMPOSITE\$79.95

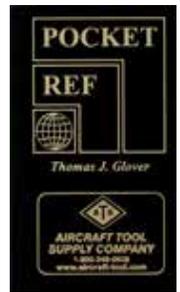

POCKET REFERENCE

- Do you stay up at night pondering what kind of electrical plugs they use in Western Ethiopia?
- Are your semaphore skills a little rusty?
- And just how the heck do you tie a Crabber's Eye Knot, anyway?

If these and other such questions occupy your waking thoughts, then this is the book for you. The Pocket Reference is packed full of remarkably useful information. Inside you'll find tables for every conversion imaginable; US and international standards; weights & properties of materials, and much more. Get a copy of this book and you'll never lack the answer to life's nagging questions again.

POCKETREF \$10.95

STANDARD AVIATION MAINTENANCE HANDBOOK

Hundreds of the most commonly used charts, diagrams, scales and measurements for aviation maintenance, plus a tool box-sized, spiral bound, up-to-date reference guide.

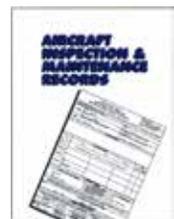

EA-282-0\$20.95

AIRCRAFT INSPECTION & MAINTENANCE RECORDS

Describes the many types of inspections required and how to properly enter them into the maintenance records. A real aid to the A&P.

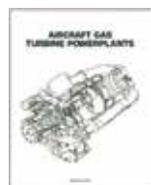

EA-IAR.....\$24.95

AIRCRAFT GAS TURBINE POWERPLANTS

The most up-to-date information on aircraft gas turbine powerplants available. New edition features over 450 pages and 500 illustrations.

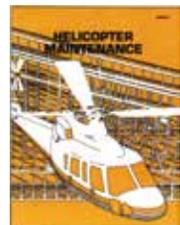

EA-TEP-2\$59.95

HELICOPTER MAINTENANCE

Written in concise, simple language and packed with photos and illustrations, this text explains the eight major helicopter types and how their systems operate. Combined with its companion study guide, this text provides "rotary-wing" excellence.

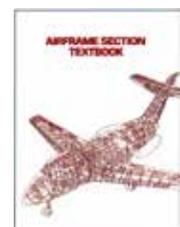

EA-HF-2..... (Textbook)\$29.95

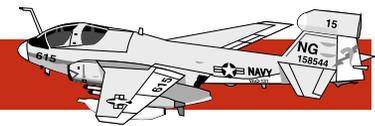

AIRFRAME SECTION TEXTBOOK

Airframe maintenance begins with a good understanding of aircraft systems. This book not only explains the systems, but allows you to understand them. Starting with the basics, components are added until complete, aircraft systems are presented in a clear, concise format.

EA-ITP-AB.....\$72.95

FAR/AIM FOR AVIATION MAINTENANCE TECHNICIANS

Contains Titles 14 and 49 of the Code of Federal Regulations (14 and 49 CFR) pertinent to General Aviation, Sport Pilots and Flight Instructors, combined with the Aeronautical Information Manual (AIM) (includes Change 3, effective 8/25/2011).

FAR-AIM\$16.95

AVIATION MAINTENANCE TECHNICIAN SERIES: POWERPLANT (3RD ED)

The third book of Dale Crane's AMT Series, Details the technical maintenance of turbine and reciprocating engines, covering the final section of the FAA's required curriculum.

AMT-P3\$59.95

AVIATION MAINTENANCE TECHNICIAN SERIES: GENERAL

The first book of Dale Crane's AMT Series, Covers the first section of the FAA's required curriculum, an introduction to aviation along with basic lessons on mathematics, physics, and electricity. Also addressed are regulations, mechanic privileges, forms, aircraft hardware and tools.

AMT-G3H\$59.95

AVIATION MAINTENANCE TECHNICIAN SERIES: GENERAL

Covers the first section of the FAA's required curriculum, an introduction to aviation along with basic lessons on mathematics, physics, and electricity. Also addressed are regulations, mechanic privileges, forms, aircraft hardware and tools.

AC4313-1B2B\$24.95

NONDESTRUCTIVE & ULTRASONIC TESTING FOR AIRCRAFT

Preparation, procedures, inspections, applications, and testing methods are discussed in this reprint of two FAA Advisory Circulars.

AC43-3-7\$12.95

AVIATION MAINTENANCE TECHNICIAN SERIES: GENERAL

Covers the first section of the FAA's required curriculum, an introduction to aviation along with basic lessons on mathematics, physics, and electricity. Also addressed are regulations, mechanic privileges, forms, aircraft hardware and tools.

ASA-8083-30\$39.95

AVIATION MAINTENANCE TECHNICIAN SERIES: STRUCTURES (3RD ED)

This is the second book of Dale Crane's AMT Series, the first of two volumes. Covers aircraft structures including aerodynamics, and hydraulics and pneumatic systems as they relate to the landing gear.

AMT-STRUC-3H\$49.95

AVIATION LOGBOOKS

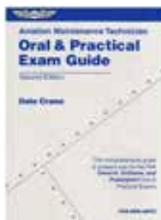

These logbooks are designed to help keep your aircraft records in order: inspections, tests, repairs, alterations, ADs, service bulletins, and equipment additions, removals or exchanges can all be documented in accordance with FAA requirements.

ORAL & PRACTICAL EXAM GUIDE

Written by industry expert Dale Crane, this book prepares students for the general, airframe, and powerplant oral and practical exams with information on the certification process, typical projects and required skill levels, practical knowledge requirements in a Q&A format, and reference materials.

ASA-OEG-AMT2\$12.95

AMT PRACTICAL TEST STANDARDS

This new PTS guide for mechanics includes all three current standards in one book for the General (8081-26—through Change 3), Airframe (8081-27—through Change 3), and Powerplant (8081-28—through Change 2) sections of the Oral & Practical exams. The standards presented in these guides are essential for study, and eventually passing the tests to become FAA-certified aviation mechanics.

ORDERING INSTRUCTIONS

PRICING

We strive for total accuracy in the pricing and presentation of our products, however we have been known to make a mistake every now and then. Therefore, we reserve the right to make corrective changes to pricing and product descriptions without notice.

NO MINIMUM ORDER

No minimum order is required.

CUSTOMER INFORMATION

To help us process your order quickly, please verify that both your shipping and mailing addresses are correct. Also please be sure to give us your complete shipping address including street name and number, post office box (if any), postal or zip code, and country (if other than the United States). This will ensure that your order will be delivered without delay.

SHIPPING METHOD

Please indicate your preferred method of shipment and we will try our best to accommodate your request. Note however, that it may not be possible to deliver your package via the method you've specified if your chosen carrier does not deliver to your area. In such cases, we will send your order either via UPS or Mail depending on which carrier services your area.

If you choose to have your package delivered via UPS, then you must give us a physical street address. UPS cannot deliver to a post office box, or to an FPO/APO address.

Unless you request a different service, domestic orders are shipped by UPS ground and international orders are shipped via UPS Worldwide. Priority delivery is also available. Please see our order form for options.

However you choose to send your order, we will usually process it and send it out the same day if we receive it before 4 p.m. (EST) -- and if there are no backorders. If your order contains backordered items, we will send you a partial shipment, or hold your order until it's complete if the backordered items are expected to arrive shortly.

ORDER LINE ITEMS

Please give us the part number, description, and quantity of the items you would like to purchase. And note that some items such as piloted reamers will require that you specify a size in addition to the part number. Use the description area to specify sizes whenever it's needed; and please feel free to continue your order on a blank sheet of paper if there isn't enough space on the order form.

Use the Special Instructions area to provide additional instructions regarding your order.

Michigan residents please remember to add 6% sales tax if you are an end-user. If you are a Michigan business with a valid tax ID number, then please include it so that we can exempt your order from sales tax.

PAYMENT METHOD

You may pay for your order with a Visa, MasterCard, Discover/Novus or American Express credit card by writing the card number, its expiration date, and your signature in the space provided on the order form.

You may also make payment by sending us a check or money order with your order. However, please note that we reserve the right to hold personal checks until they are cleared by the bank, which might take up to 5 business days.

If you are purchasing for a government organization, a school, or a company that has an open account with us, you may execute the order by writing your purchase order number in the space provided on the order form. We will then process your order and send you a copy of the invoice for payment. Our payment terms for all accounts is net 30 days.

SENDING YOUR ORDER

Please take a moment to review your order before sending it. In particular, verify that your shipping and mailing addresses are correct, and that you've entered your payment information correctly. Also, don't forget to include a telephone number where you can be reached during business hours so that

we may contact you if there is a problem with your order.

- The fastest way of placing your order is by calling our order desk at **1-800-248-0638** (United States and Canada only) and one of our sales clerks will gladly take your order. International customers may reach our order desk by calling **USA+989-739-1447**.
- Placing your order from our online e-commerce site is also extremely fast and efficient. It's located at **www.aircraft-tool.com** and there you'll find a complete shopping system that lets you order with ease at anytime, and from anywhere. You can also order by e-mailing **sales@aircraft-tool.com**, and it will be processed as soon as we receive it. When e-mailing, please remember to include a return e-mail address so that we can contact you.
- The fax number to our order desk is **1-989-739-1448**, and it's available 24 hours a day.
- And finally, you can mail your order to us at:

Aircraft Tool Supply Company
P.O. Box 370
Oscoda, Michigan 48750

CUSTOMER SERVICE

Our customer service representative is there to help you with your service needs. If you have a problem with your order or tools, please feel free to give our representative a call. We are always pleased to quote price and availability on any item we sell. You may be assured of prompt and individual attention.

RETURNING MERCHANDISE

You may return any unused item within **30 days** for a full refund or exchange. A 20% restocking fee will be charged for special order items. When returning an item, please send a copy of your invoice and state the nature of the problem (defective, ordered in error, etc) and what you would like us to do to resolve it. Return items properly packaged and **PREPAY** shipping charges. Do not return your merchandise COD, our receiving department cannot accept these shipments.

REPAIR SERVICE

Items requiring repair and no longer covered by our warranty may be returned to our repair department. Please include your complete address, email, and a telephone number at which you may be reached during the daytime. State the nature of the problem clearly. Please indicate if you require an estimate before repair. Enclose payment information to cover the cost.

WARRANTY

Aircraft Tool Supply (ATS) warrants the original purchaser or, for products purchased from a Reseller, to the original end-user that ATS branded products will be free from defects in materials and workmanship from the date of shipment for 1 year from the date of shipment or invoice, or in the case of ATS PRO branded products, the serviceable lifetime of the product. During the warranty period, ATS will, at its option: (1) provide replacement parts necessary to repair the product, (2) replace the product with a comparable product, (3) refund the amount you paid for the product, LESS DEPRECIATION, upon its return. ATS will provide labor to resolve warranty issues. To obtain service under this limited warranty, you must follow our warranty procedures. If we ask you to return a defective product or part, you must do so within 7 days after you receive the replacement part or product. ATS will charge you for replacement parts or products if you fail to do so. If you are domestic U.S. customer who purchased a product directly from ATS, we will arrange to ship replacement parts or products to and from you, and will pay the return shipping costs. If you live outside the United States, then you must pay shipping and applicable duty costs from and to your destination.

THIS LIMITED WARRANTY COVERS NORMAL USE. ATS DOES NOT WARRANT AND IS NOT RESPONSIBLE FOR DAMAGES CAUSED BY MISUSE, ABUSE, ACCIDENTS, UNAUTHORIZED SERVICE OR PARTS, OR THE COMBINATION OF ATS BRANDED PRODUCTS WITH OTHER PRODUCTS. THIS LIMITED WARRANTY DOES NOT COVER RECALIBRATIONS OR REGULAR MAINTENANCE. THIS LIMITED WARRANTY DOES NOT COVER NON-ATS BRANDED PRODUCTS. ANY WARRANTY APPLICABLE TO NON-ATS BRANDED PRODUCTS IS PROVIDED BY THE ORIGINAL MANUFACTURER.
